DESIGNED BY THE EXPERTS: your family.

BUILT AROUND YOU
design team

The Maderas

Family:

Felix, 34 – Small business owner and former college baseball player.

Eva, 34 – Elementary school teacher, scout leader, self-taught interior designer — and expectant mom.

Tina, 9 – Enthusiastic artist who attends third grade when she's not in her studio (the kitchen) working on a new masterpiece.

The Madera's design:

The Maderas added more space in the kitchen for Tina's scout meetings, and durable granite countertops that look great and make for easy cleanup of baby spills and art projects. Enlarging the second bedroom created a spacious nursery for the new arrival. And the larger garage made room for a home gym.

At Wilshire Homes our top priority is helping you design and build the best home for your family. Prices from the \$130s to the \$300s.

Save up to \$10,000 in options and upgrades!*

SAN ANTONIO AREA

SAN ANTONIO HISTORY

San Antonio, Texas is currently the eighth largest city in the United States. In San Antonio's earliest days, Native Americans lived along the San Antonio River, calling the area "Yanaguana" which means "refreshing waters" or "clear waters." Spanish explorers and missionaries came upon the river in 1691, and because it was the feast day of St. Anthony, they named the river "San Antonio". The actual founding of the city came in 1718 by Father Antonio Olivares when he established Mission San Antonio de Valero, which became permanently etched in the annals of history in 1836 as The Alamo.

San Antonio was also a training site of the Buffalo Soldiers, famed African American cavalry fighters who helped bring peace to the Western Frontier a century ago.

San Antonio offers a wide variety of spectator sports including the San

Antonio Spurs basketball team, the San Antonio Rampage hockey team, and the San Antonio Missions minor league baseball team.

SAN ANTONIO AREA ATTRACTIONS

The Alamo Perhaps the most famous historical site in all of Texas, The Alamo is world-renowned as a symbol of both heroic courage in the face of death and the struggle against oppression. Before it was launched into its present place in history, it was a simple Spanish mission, run by missionaries and visited by many significant people throughout its time. Thousands of people each year pay a visit to the landmark where 189 defenders including Jim Bowie and Davy Crockett held out for 13 days against 4,000 troops in the centralist army of Gen. Antonio Lopez de Santa Anna. Since this famous battle it has become a symbol of Texas and American independence and fortitude. The chapel, one of the most photographed facades in the nation, and the Long Barracks are all that remain of the original fort. Walking tours of the site are available. For more information, call 210-225-1391, ext. 34 or visit their website at www.thealamo.org.

Casa Navarro State Historical Park The home site of Jose Antonio Navarro (1795-1871), a Texas legislator under Mexico, the Republic of Texas and the United States. The site

includes Navarro's furnished house, first residence, and store. Navarro's life illustrates Texas' rich Mexican history and heritage. Conversational tours and exhibits are provided. For more information, call 210-226-1801 or visit their website at www.tpwd.state.tx.us/park/jose.

Guenther House Located on a bend of the San Antonio River is one of the oldest historic districts in Texas. Carl Hilmar Guenther, founder of Pioneer Flour Mills, built this elegant home in 1860. The restored house offers a museum featuring mill memorabilia. Of interest to collectors are the Dresden China Anniversary plates made in Germany until World War II. For more information, call 210-227-1061 or visit their website at www.guentherhouse.com.

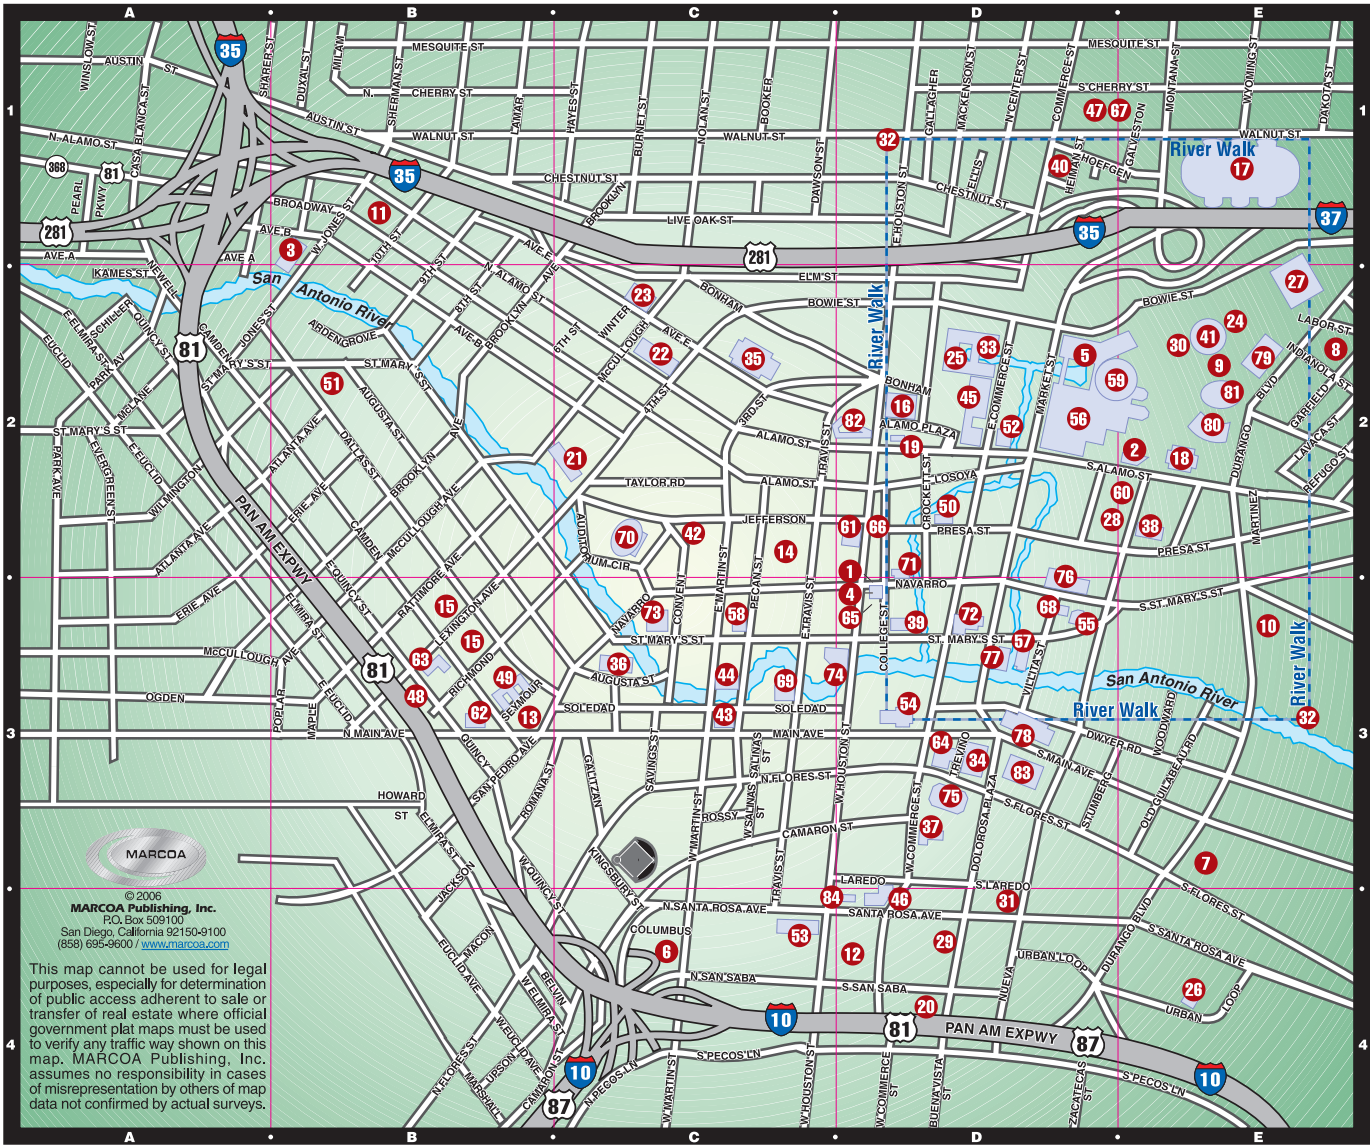

Mission Trails, San Antonio Missions National Historical Park

The chain of missions established along the San Antonio River in the 18th century are reminders of one of Spain's most successful attempts to extend its New World dominion from Mexico. Representing both church and state, these missions were charged with converting the local Native Americans into devout Catholics and productive members of society. More than mere churches on the Spanish Colonial frontier, the missions served as vocational and educational centers, and economic enterprises involved in agricultural and ranching endeavors and regional trade.

They were the greatest concentration of Catholic missions in North America and formed the foundation for what is today the thriving city of San Antonio. The park contains the historically and architecturally significant structures of missions Concepcion, San Jose, San Juan, and Espada. Other important cultural resources included are the historic Espada Dam and Aqueduct, acequia (irrigation) systems, and the Rancho de las Cabras. For more information, call 210-534-8833 or visit their website at www.nps.gov/saan.

San Antonio Zoo Ranked as one of the top zoos in the nation, more than 750 species and 3,800 animals call this zoo their home. The zoo spans 56 acres and features exhibits such as the Hixon Bird House, Amazonia, and Gibbon Forest. Seasonal shows and educational

programs are offered throughout the year. For more information, call 210-734-7184 or visit their website at www.sa-zoo.org.

Spanish Governor's Palace Labeled "the most beautiful building in San Antonio" by the National Geographic Society, this historic landmark once housed the officials of the Spanish Province of Texas. Distinguishing features include period furnishings, a cobblestone patio with a fountain and foliage. For more information, call 210-224-0601.

Tower of the Americas The Tower, 750 feet tall, offers a 360¹/₄ panoramic view of San Antonio and the surrounding area. Glass-walled elevators ascend more than 500 feet to the restaurant and observation level. It was the theme structure for the HemisFair in 1968 and symbolizes the progress made by the confluence of civilizations in the Western Hemisphere. For more information, call 210-223-3101 or visit their website at www.TowerOfTheAmericas.com.

Six Flags Fiesta Texas Six Flags Fiesta Texas is a theme and water park designed to reflect the heritage and culture of its Southwest roots. The 200 acre park features numerous adult and

children's rides including "The Tornado," an extreme tubing experience; "The Rattler," an exciting wooden roller coaster; "Superman Krypton Coaster," the largest floorless coaster in the Southwest; and the "Lone Star Lagoon," a wave pool shaped as the state of Texas. In addition to breathtaking rides, families can enjoy a variety of shows, shops and restaurants. For more information, call 210-697-5050 or visit their website at www.SixFlags.com.

Sea World Sea World has kicked off its newest season! Where else can you touch and feed dolphins and sea lions, count the teeth on a shark, and watch penguins play in a sub-Antarctic environment? And, just try to stay dry when world-famous Shamu "comes a-splashing!" Test your courage on the weightless dives of the "Steel Eel" or the twists and corkscrews of the "Great White," Texas' first inverted steel roller coaster. Want to get wet? Escape for a while on the fast and furious river rapids adventure, "Rio Loco" or lose yourself in the tropical pleasure of "Lost Lagoon" a five-acre paradise that's home to exotic birds, alligators, a giant wave pool and water slides the whole family can enjoy. Don't miss our brand-new 4-D theater! The Sea Star Theater, the first of its kind in the Southwest, features "R.L. Stine's Haunted Lighthouse" a family friendly

ghost story with eye-popping 3-D effects and seats that move and shake along with the show. Sea World's operating days and closing times vary seasonally. For complete park operating schedule or park information, go online at www.seaworld.com or call 800-700-7786.

River Walk The Paseo del Rio, in the heart of downtown, is the pride of the city. Lush green foliage lines the banks of this peaceful, historic river. Cobblestone walkways lead visitors to the river-level restaurants and shops. The river bubbles to the surface on the grounds of the University of the Incarnate Word and flows to downtown and beyond, threading its way through the city one level below the hustle and bustle of city streets. Along the horseshoe-shaped river bend, the river is shaded by towering cypresses, oaks and willows and bordered by gardens of flowering ornamental plants. River cruisers travel the River Walk's three miles past unique retail shops, restaurants and nightclubs. For more information, call 210-227-4262 or visit their website at www.thesanantonioriverwalk.com.

River Cruise Tours During this 35-40 minute cruise along the beautiful San Antonio River Walk, learn the rich history of the San Antonio River and get helpful information to assist you during your visit to the River Walk. For more information, call 210-244-5700 or visit their website at www.riosanantonio.com. To reserve tickets, call 800-417-4139.

Schlitterbahn Waterpark Resort

This water park offers 3 miles of tubing adventures, 7 children's water playgrounds, 17 water slides, the world's first surfing machine and 3 uphill water coasters. While the water park is open only seasonally, families can take advantage of the resort year round.

The resort includes fully equipped vacation homes with access to pools, hot tubs, playgrounds, and volleyball courts. The water park and resort are located in New Braunfels (just north of San Antonio), an historic German town filled with great restaurants, museums, and attractions for the whole family. For more information, call 830-625-2351, ext. 799 or visit their website at www.schlitterbahn.com.

Natural Bridge Wildlife Ranch

Have you ever dreamed of going on an African safari? If so, Natural Bridge Wildlife Ranch is your dream come true, Texas style, with hundreds of animals from all over the world roaming freely in the picturesque Texas Hill Country. Animals are enticed to come up for nose to nose encounters with the complimentary food given upon entrance. The Petting Zoo and Walk-a-Bout areas are included in the price of admission and everyone is invited to travel through the Ranch as many times as they would like during their visit. For more information, call 830-438-7400 or visit their website at www.nbwildliferanchtx.com.

Old Spanish Trail During the 1920's, San Antonio's Gunter Hotel was the headquarters for the building of the southern U.S. transcontinental Auto Highway commemorated by the O-Mile Stone on City Hall lawn. From St. Augustine, Florida to San Diego, California, the Old Spanish Trail links cities of Spanish conquest and settlement. For more information, visit their website at www.oldspanishtrailcenterial.com.

Market Square (El Mercado) From early morning until late at night, Market Square is alive with activity. Visitors browse through the 32 shops at "El Mercado," an area patterned after an

authentic Mexican market. In addition, there are 80 specialty shops in Farmers Market Plaza. Market Square is also the scene of many Hispanic festivals, where food and beverage booths spring up alongside the Guadalajara lamps and the strains of mariachi music blend with the excitement of Mexican dances. For more information, call 210-207-8600.

Natural Bridge Caverns - This 140 year old cave provides a magnificent journey of exploration, boasting more than 10,000 limestone formations. Explorers have the opportunity to choose from a variety of tours, pan for gold in Texas' largest sluice, or go rock climbing on the Watchtower Challenge. For more information, call 210-651-6101 or visit their website at www.naturalbridgecaverns.com.

MUSEUMS AND CULTURE

Buckhorn Saloon and Museum For a taste of the Old West and wildlife exhibits from all over the world, visit this classic 1881 saloon and museum. The museum, voted "Best Attraction" in 2002 by the Downtown Alliance/San Antonio, is a short two blocks from the Alamo and 50 yards from the River Walk Shopping Center. Stroll through 33,000 square feet of artifacts from Texas history and world record wildlife exhibits with African, Asian, Alaskan, and North American themes-over 520 different species in all, including fish from the Seven Seas. The Buckhorn Saloon and Museum offers admission discounts to the military with ID. For more information, call 210-247-4000 or visit their website at www.BuckhornSaloon.com.

San Antonio Botanical Garden, Lucile Halsell Conservatory While touring this 33 acre living museum,

visitors can enjoy seasonal floral displays, a serene native forest walk, exotic plant specimens, modernistic glass pyramids, and even an authentic log cabin. Among the museum's many highlights, a Garden for the Blind, Kuamoto En (an authentic Japanese garden), and the Aquatic Garden Pool. For more information, call 210-207-3255 or visit their website at www.sabot.org.

University of Texas Institute of Texan Cultures at San Antonio Meet the pioneers of Texas through exciting, creative displays featuring the 27 ethnic groups that built the Lone Star State. For more information, call 210-458-2300 or visit their website at www.texancultures.utsa.edu.

San Antonio Children's Museum This unique and innovative educational resource is dedicated to providing engaging hands on experiences where children and the adults in their lives actively learn through creative play. It contains more than 80 interactive multi-sensory exhibits designed to

foster a greater understanding of the working society and the physical world. For more information, call 210-212-4453, ext.1306 or visit their website at www.sakids.org.

San Antonio Museum of Art This world-renowned museum houses a collection of everything from ancient art to Mexican folk art. An elegant setting for both indoor and outdoor themes, it is also the original home of the Lone Star Brewing Co. For more information, call 210-978-8100 or visit their website at www.samuseum.org.

Witte Museum San Antonio's premier museum, the Witte, brings history, science and culture to life. With an extensive collection of nationally acclaimed traveling exhibits, the H-E-B Science Treehouse and beautiful grounds on which historic homes and log cabins proudly stand, the Witte Museum offers something for everyone. For more information, call 210-357-1900 or visit their website at www.witemuseum.org.

Texas Air Museum, Stinson Chapter The Texas Air Museum was founded in 1985 in Rio Hondo, Texas. A branch of the museum opened in Slayton, Texas in 1990, and another in 1999 at Stinson Field in San Antonio. The mission of the Museum is to promote education through the preservation and restoration of aircraft and artifacts representing historic events that have shaped this nation and the

world. The Stinson Chapter presents the history of flight from the early days of aviation (with an emphasis on early aviation in San Antonio) to the present. For more information, call 210-977-9885 or visit their website at www.texasairmuseum.org.

Guinness Book of World Records, Ripley's Haunted Adventure, and Davy Crockett's Tall Tales Ride

The Guinness Book of World Records Museum is a state-of-the-art, interactive experience which brings the world famous book to life. Explore 16 themed galleries spread over 10,000 square feet featuring exhibits, artifacts, videos, and games all showcasing exciting world records. Ripley's Haunted Adventure, a multi-million dollar special effect haunted house, is guaranteed to bring terror to the heartiest of souls. Davy Crockett's Tall Tales Ride is a theme park style ride through the life and times of Davy Crockett according to Davy himself. Enjoy a narrated journey through colorful sets, animatronic

characters and an array of visual effects. For more information, call 210-226-2828 or visit their website at www.haunted-guinness-crockett.com.

La Villita A unique arts and crafts community with shops, working artists, restaurants and a post office. The Old San Antonio Exhibit (located in Bolivar Hall) houses a collection of art objects, artifacts and symbols relevant to local history. This beautifully landscaped historic district offers leisurely shopping, dining and five rental venues for special events. For more information, call 210-207-8610 or visit their website at www.lavillita.com.

Greenhouse Gallery of Fine Art A traditional gallery that features nationally and internationally recognized artists, many of whom are featured in fine museums and prestigious collections. Experience the emotion and exceptional light quality captured in fine oil paintings by 21st century masters and the

outstanding designs and vibrant color of art glass and bronze by leading artists. For more information, call 210-828-6491 or visit their website at www.greenhousegallery.com.

Gallery of the Southwest Gallery of the Southwest specializes in classic, historic and contemporary Native American Indian jewelry, baskets, Navajo rugs, Indian drums, Zuni fetishes, Hopi Kachinas, Pendleton blankets, and sand paintings made by leading American Indian artists. The items, made by Zuni, Navajo, and Hopi artists, are handmade using natural materials, such as sterling silver and turquoise. For more information, call 210-493-3344 or visit their website at www.galleryofthesouthwest.com.

Southwest School of Art & Craft

Visitors can see free contemporary art exhibitions and lectures by visiting artists, and stroll the picturesque grounds of the historic Ursuline Campus which was once a girls' school and convent. For more information, call 210-224-1848 or visit their website at www.swschool.org.

ARTS San Antonio The mission of ARTS San Antonio is to provide a diverse and comprehensive program of high quality performing arts accessible to the surrounding community. Performances include opera, ballet, theatre, music and dance. For more information, call 210-226-2891 or visit their website at www.artssanantonio.com.

Majestic Theater Named a State and National Historic Landmark, the Majestic Theater is home to the San Antonio Symphony and the AT&T Broadway Series. Call 210-223-4343 for information on tours or 210-224-9600 for tickets. Visit their website at www.majesticempire.com.

Vietnam War Memorial Located at the Veteran's Memorial Plaza, "Hill 811 S" depicts a marine holding a wounded comrade while looking skyward for an evacuation helicopter. "Hill 811 S" was created by combat artist Austin Deuel and is dedicated to all veterans.

Louis Tussaud's Plaza Wax Museum & Ripley's Believe It Or Not! Located across the street from historic Alamo Plaza, the Plaza Wax Museum features a collection of wax figures displayed within themed sections of Hollywood, Children's Land of Make Believe, Freedom's Journey, Horror, History and Religion. Ripley's Believe It Or Not! allows you to discover one of a kind oddities, curiosities and illusions gathered from all over the world. For more information, call 210-224-9299 or visit their website at www.plazawaxmuseum.com

Sunset Station Sunset Station, nestled in the historic St. Paul district, offers visitors a unique experience in downtown San Antonio. Visit this venue to enjoy dining at Aldaco's Fine Mexican Cuisine or Ruth Chris Steak

House. Experience a self paced walking tour to marvel at the turn of the century architecture. Catch a concert given by nationally recognized artists ranging from blues to country to alternative to rock. For more information, call 210-222-9481 or visit their website at www.sunset-station.com.

PARKS AND RECREATION

Golf San Antonio is fast becoming a major national golf destination. Whether looking for that short or long drive, golf enthusiasts can easily find a diverse and challenging course in and around the city. Courses offer group tournaments and a wide range of greens fees to fit any budget. The terrain is both vast and lush. Mild temperatures and more than 300 days of sunshine grace the area annually, making San Antonio's golf experiences among the best in the country.

City Parks and Recreational Activities The city maintains 184 parks and recreation areas that host a variety of sporting activities including softball and basketball leagues, tennis, boxing and soccer. City swimming pools offer swimming lessons and water aerobics classes. The outdoor pool season stretches from May through August for maximum benefit from hot summer months.

HemisFair Park This park of green-scapes and dramatic water features offers a refreshing retreat from city streets. A playground is located near the Alamo Street entrance. The park includes the Institute of Texan Cultures and the Tower of the Americas.

Friedrich Wilderness Park This 232 acre, heavily forested wilderness park has 5 1/2 miles of hiking trails, including the region's most improved handicapped trail. Rich in natural history, the park has an abundance of diversified flora and fauna. Guided interpretive hikes are available by arrangement with the Park Naturalist. For more information, call 210-698-1057 or visit their website at www.fofriedrichpark.org.

RESTAURANTS

San Antonio's dining scene is as varied and rich as its cultural influences. Enjoy regionally inspired Tex-Mex cuisine, specialized international flavors, or modern American recipes infused with worldwide influences. Savor the very best Texas game and seafood or simply hunker down at a down-home chophouse.

BROOKS CITY-BASE

Brooks City-Base is located approximately five miles southeast of San Antonio, off of Interstate 37 South. The base is home to more than 1,400 active duty military personnel, 2,500 family members, and 1,400 civilians employees.

Brooks hosts the 311th Human Systems Wing; Air Force Center for Environmental Excellence; and the Air Force School of Aerospace Medicine.

311th Human Systems Wing

The 311th Human Systems Wing serves as the Air Force advocate for integrating and maintaining the “human” element in the Air Force’s systems and operations. Recognizing that people are the key to all operations, the 311th HSW, along with other organizations at Brooks, works as the Air Force’s agent for human-centered research, development, training, and operational support services for individuals and the total force.

Air Force Center for Environmental Excellence

The Center for Environmental Excellence provides a full range of technical services in environmental areas such as contracting for services, spearheading worldwide environmental services, providing preliminary site inspections, over-seeing the Installation Restoration Program Information Management System, and coordinating a number of other environmental services.

Air Force School of Aerospace Medicine

The Air Force School of Aerospace Medicine provides education, training, and consultation in direct support of Air Force, Department of Defense, and other international aerospace operations. The school also provides support in hyperbarics, human performance,

clinical and dental investigations, environmental health, expeditionary medical support, and aeromedical evacuation. Approximately 6,000 students are trained at the school each year.

Brooks City-Base History

Brooks City-Base was born of a need for trained flying instructors during World War I. The site was originally called Gosport Field, a name derived from the flight instruction system used at the new base. In 1918 it was named for San Antonio native Cadet Sidney J. Brooks, Jr., who died during his final training flight when his aircraft turned nose down and crashed at Kelly Field. In its first year of operation, Brooks Field housed 16 hangars with extensive support facilities. The Edward H. White II Memorial, once Hangar 9, is the only original structure still standing.

Throughout the years, Brooks City-Base has served many vital functions for military aviation and aviation medicine. During its early years it served as a Balloon and Airship school, the Primary Flying School of the Army Air Corps and the School of Aviation Medicine. In 1929 Brooks City-Base was the site for the first successful mass parachute drop in the world, strengthening the power of tactical paratrooper warfare during World War II. In 1951, during the Korean War, Brooks City-Base took on the 907th Air Reserve Wing as part of its training center operation.

During the late 1950s, Brooks City-Base was transformed from a flying training center to a center for modern medical research and development and education center, becoming the headquarters for the Aerospace Medical Center in 1959. The school officially became the School of Aerospace Medicine in 1961, in recognition of its participation in the U.S. space program.

On Nov. 21, 1963, President John F. Kennedy dedicated four buildings in the complex that housed the Aerospace Medical Division head-quarters and the U.S. Air Force School of Aerospace Medicine. This was his last official act before his assassination in Dallas the following day.

In the 1980s, Brooks City-Base acquired the Air Force Human Resources Laboratory, the Air Force Occupational and Environmental Health Laboratory, the Air Force Drug Testing laboratory and the Air Force Systems Command’s Systems Acquisition School.

In 1991, four of its laboratories—the Air Force Human Resources Laboratory, the Air Force Drug Testing Laboratory, the Harry G. Armstrong Aerospace Medical Research Laboratory, and the Air Force Occupational and Environmental Health Laboratory, as well as the laboratory function of the Air Force School of Aerospace Medicine, combined to become the Armstrong Laboratory, one of four super laboratories in the Air Force.

Since 1995, the community has been proactive in partnering with the City of San Antonio and Brooks City-Base. The focus is on initiatives that will help Brooks City-Base reduce its support infrastructure costs with the goal of retaining missions and jobs that are critical to economic growth in the southern sector of San Antonio. The result of these efforts is the Brooks City-Base Project.

In October 1999, Congress authorized the Secretary of the Air Force to implement this Base Efficiency Project. The project is a collaborative effort to transfer the base property to

the city, with the city then leasing back land and facilities to the Air Force for its missions. The overall objective is to retain the Brooks City-Base mission and jobs, improve Air Force mission effectiveness, and reduce the cost to the Air Force of providing installation support. The Brooks City-Base Project also has the goal of promoting economic development on Brooks and in the surrounding community, by blending the attributes of a research and business park with the culture of a military base.

LACKLAND AIR FORCE BASE

Lackland Air Force Base is located southwest of San Antonio, off Highway 90 at SW 36th Street from the west, and the General Hudnell exit from the east. Lackland AFB is home to nearly 9,000 active duty military, more than 10,000 family members, over 9,500 students and close to 5,000 civilian government employees.

The base hosts the 37th Training Wing, the 37th Training Group, the 37th Training Group and the 37th Support Group/37th Logistics Group. The Defense Language Institute English Language Center, Inter-American Air Forces Academy and Wilford Hall Medical Center are also located on base.

The 37th Training Wing

The 37th Training Wing is the largest training wing in the Air Force. The 37th TRW provides basic military, professional and technical skills, and English language training for the Air Force, other military services, government agencies, and allies. Its four primary training functions graduate more than 75,000 students annually.

The 737th Training Group

The 737th Training Group provides basic military training for all enlisted people entering the Air Force, Air Force Reserve, and Air National Guard, earning Lackland AFB the nickname, "Gateway to the Air Force." About 34,000 recruits annually undergo the six weeks of intense military and academic

training. Following graduation, airmen go on to technical training at Lackland AFB or elsewhere before their first Air Force assignment. More than four million airmen have completed basic training at the base since 1946.

The 37th Training Group

The 37th Training Group conducts more than 400 technical training courses in a wide array of support functions, military disciplines, and physical fitness programs for more than 36,000 officers, noncommissioned officers and airmen per year. Since Lackland AFB gained its first technical training mission in 1956, that mission has grown significantly in both size and diversity. Many courses now provide joint-service training for civilians, Air Force, Army, Navy and Marine Corps personnel located at Lackland AFB, Medina Annex and more than eight operating locations and detachments on bases nationwide.

The 37th Support Group/ 37th Logistics Group

Supporting the 25,000 people at Lackland AFB are two additional groups. The 37th Support Group is the largest support group in the continental United States. Its 2,300 personnel provide numerous services including security forces protection, personnel services, communications, infrastructure support, lodging, recreational activities and food services. The 37th Logistics Group provides the entire spectrum of logistics support, managing the largest contracting, transportation, and non-flying supply squadrons in Air Education and Training Command.

Defense Language Institute English Language Center

The Defense Language Institute English Language Center conducts English language training for about 2,400

international and U.S. military students annually. More than 90 countries send military and civilian students to the center to learn English.

Inter-American Air Forces Academy

The Inter-American Air Forces Academy conducts over 60 technical, professional and management courses in Spanish for almost 1,000 students a year from the armed forces and governmental agencies of up to 18 Latin American countries. The academy relocated from Homestead AFB, Florida, in 1992. To date, IAAFA has graduated more than 36,000 students from 27 countries.

Lackland AFB History

Lackland AFB was established June 26, 1942, when the War Department separated part of Kelly Field and named it San Antonio Aviation Cadet Center to support the war effort. From its inception, SAACC experienced rapid growth and transitioned from a former field training and bombing range through a variety of missions. Among them, as a hub for flight training, a site for the officer training and commissioning orientation, as well as a staging area for all veterans returning from World War II for reassignment or separation. Eventually, SAACC was established as the basic military training center for officers and enlisted personnel entering the Army Air Forces.

In 1947, SAACC was renamed Lackland Air Force Base in honor of Brig. Gen. Frank D. Lackland, a former Kelly Field Commander, who originally proposed and campaigned for an aviation and cadet reception center on the site. Lackland AFB established itself as a cohesive training base and formalized training evolved to support the Air Force Mission: "To Fly, To Fight, To Win."

The Korean and Vietnam Wars severely tested Lackland AFB's capacity to train new recruits and satisfy mobility demands. Training populations in the 1950s soared to 55,000, despite the base's maximum capacity of only 25,000. As a result of the contingencies of the 1950s and 60s, construction of permanent facilities, to include the 1,000-person steel and brick Recruit Housing and Training facilities for basic military training, cemented Lackland's training responsibilities.

Lackland AFB recently celebrated its 60th anniversary. It is a vital part of the San Antonio and Air Force communities.

WILFORD HALL MEDICAL CENTER

Wilford Hall Medical Center is located on Lackland AFB, southwest of San Antonio, just off Highway 90. As the Air Force's largest medical facility, Wilford Hall is a national resource, providing complete medical care to military healthcare beneficiaries in the south central United States as well as

specialized care to patients referred from all over the world.

Wilford Hall's patient care mission includes more than 16,000 annual inpatient admissions and approximately 700,000 clinic visits. The medical center provides the entire range of care from sick call to surgery, and serves as the national center of excellence for a number of programs. The sole program in the Department of Defense for allogeneic bone marrow transplantation and the military's only eye bank are located at Wilford Hall. The center also operates the Air Force's treatment and evaluation center for HIV.

Wilford Hall OB-GYN and neonatology programs are recognized around the world. In 2001, the Hauth Birthing Center and deLemos Neonatal Intensive Care Center were officially dedicated. The birthing center allows mothers with uncomplicated deliveries to stay in one location, as opposed to a number of moves in the old facility.

Wilford Hall enjoys the status as the Air Force's largest obstetric hospital, with more than 170 infants delivered each month. As a tertiary referral center, Wilford Hall provides service for mothers and newborns from throughout the world.

The center's support of San Antonio's emergency medicine structure is unique in the nation. Wilford Hall and Brooke Army Medical Center participate fully in the trauma and emergency medicine care of the San Antonio and south Texas civilian communities, with each military medical center receiving approximately one-fourth of the city's emergency ambulance missions. Since the two military centers receive almost 80 percent of the city's penetrating trauma—typically gunshot and knife wounds—the system provides excellent training for wartime situations.

Wilford Hall Medical Center History

From the time of the organization's founding in 1942, Wilford Hall has put the defense of the nation first. During World War II, the organization provided medical care to aviation

cadets and other military personnel, and military training to newly joined nurses and other professionals. During the Korean War, Wilford Hall expanded to meet the increase in trainees and became a treatment point for war casualties flown to San Antonio. By the end of that conflict in 1953, the hospital had seen more than 30,000 air evacuees.

Although he was not directly involved in the institution that today bears his name, the Wilford Hall Medical Center of today could not have come to pass without its namesake's work and foresight. Gen. Hall was one of the early proponents of what is now called aerospace medicine, and one of the first to realize that the medical requirements for aviators were different from those of other services. When the Air Force became independent in 1947, the battling order of the support services in the newly created Department of Defense was being developed. At that time, the Air Force's medical support continued to form part of the Army. After the two years agreed between the Army and the Air Force to sort out the support services after 1947, the Air Force formed its own medical service.

General Hall was a visionary in the development of aeromedical evacuation, and his work was pivotal in changing aeromedical evacuation from a cargo-type mission for backhaul in empty aircraft to a part of the medical care system. His work during World War II transformed the way in which the wounded are transported and treated during wartime, and directly resulted in the creation of central medical facilities such as Wilford Hall Medical Center.

RANDOLPH AIR FORCE BASE

Randolph Air Force Base is located in Universal City in the northeastern part of Bexar (pronounced "bear") County, Texas. The base can be reached on the west by Interstate 35 and on the south by Interstate 10, accessible from FM 1604 off either interstate. The base employs over 3,800 active duty military, 5,500 family members and more than 5,800 civilians.

Randolph AFB is home to the 12th Flying Training Wing, 12th Operations Group, 332nd Airlift Flight, 12th Logistics Group, 12th Support Group, and the 12th Medical Group.

12th Flying Training Wing

The 12th Flying Training Wing is the host unit at Randolph AFB. It was reorganized into an objective wing in December 1991, under the concept of "One Base, One Wing, One Boss," bringing all the resources at Randolph AFB under one installation commander.

12th Operations Group

The 12th Operations Group contains one support squadron, six flying squadrons, and one airlift flight. In addition, the Marine Corps Aerial Navigation School, with a detachment of Marine Corps instructors, is aligned with joint specialized undergraduate navigator training (which hosts a detachment of Naval personnel).

Pilot Instructor Training (PIT)

The 12th Flying Training Wing is the only unit that teaches Air Force pilots to be flight instructors for Air Education and Training Command's four undergraduate pilot training bases. Each year, about 350 instructor pilots graduate from the wing's 13-week training course. Using teaching techniques in the aircraft, the simulator and the classroom, trainees learn how to fly and instruct at the same time.

Navigator Training

The 12th Flying Training Wing conducts undergraduate training for Air Force, Navy and Marine Corps personnel in Joint Specialized Undergraduate Navigator Training and the Marine Aerial Navigation School. The wing also trains Air Force, Navy, and other military personnel from more than 20 allied countries. The largest of the wing's training programs, these courses offer students the opportunity to earn their wings and aeronautical ratings as navigators, electronic warfare officers, and naval flight officers.

Advanced Instrument School

The 12th Flying Training Wing conducts the Department of Defense's only graduate-level instrument flight school. The Advanced Instrument School teaches instrument procedures to more than 280 select instructor pilots and senior aircraft commanders annually, from all services and foreign air forces. The instructors are Air Force instrument experts, and they are responsible for development and technical application of instrument policies, procedures, and techniques.

332nd Airlift Flight

Located on Randolph AFB's south flight line is the 332nd Airlift Flight, an Air Mobility Command unit. The 332nd AF provides air transportation for military and civilian government employees traveling on orders to military and civilian airfields throughout the United States. It also provides immediate response emergency airlift for members of the Brooke Army Medical Center burn team, and neonatal emergency medical teams from Wilford Hall Medical Center. The 332nd AF has six C-21A aircraft and about 30 personnel assigned.

12th Maintenance Directorate

The 12th Maintenance Directorate provides equipment maintenance support for all T-1A, T-6A, T-37, T-38 and T-43A aircraft valued at more than \$760 million. The organization manages a regional plastic media blasting facility for Air Education and Training Command, Quality Assurance Evaluation Program for T-43 and T-1 contractor operated and maintained base supply and transient operations, and the Repair Cycle Management Program. The organization also provides munitions, aerospace ground equipment, test, measurement and diagnostic equipment support to associated customers.

12th Mission Support Group

The 12th Mission Support Group is the focal point for all base activities and is comprised of six squadrons and one division - the 12th Mission Support Squadron, 12th Communications Squadron, 12th Security Forces Squadron, 12th Civil Engineer Squadron, 12th Contracting Squadron, 12th Logistics Readiness Squadron and the 12th Services Division. These units serve the needs of the wing and tenant units on Randolph including more than

15,000 people on the base and more than 24,000 retirees in the local area.

12th Medical Group

The 12th Medical Group operates the largest freestanding Air Force clinic in the continental United States. Clinic staff members provide comprehensive medical and dental care, physiological training, disaster response, health promotion, and occupational public health support to the 12th Flying Training Wing, Randolph AFB associate units, and a beneficiary population of more than 40,000. The 12th Medical Group is comprised of three squadrons: 12th Medical Support Squadron, 12th Medical Operations Squadron and the 12th Aeromedical-Dental Squadron.

Randolph AFB History

The idea for Randolph AFB began soon after the establishment of the Air Corps Act in 1926, which changed the name of the Army Air Service to the Army Air Corps, created two new brigadier general positions, and provided a five-year expansion program for the under-strength Air Corps. One of the new

general officer positions was given to Frank P. Lahm, who was placed in charge of all flying training.

General Lahm established the Air Corps Training Center and set up its headquarters at Duncan Field, next to Kelly Field. He soon learned the facilities at Kelly and Brooks Fields were not sufficient for proper training. The buildings, erected during World War I with a life expectancy of five years, had no suitable areas for ground training and the living quarters were inadequate. San Antonio's rapid growth was also beginning to interfere with flight training operations. The Air Corps soon decided an additional training field was needed, and a site north of San Antonio was chosen for the new field.

In 1926 and 1927, 1st Lt. Harold Clark designed Randolph AFB while assigned as dispatch officer in the Kelly Field motor pool, although the War Department received the land in 1928. Having trained as an architect prior to entering the military, Lieutenant Clark sketched his idea of a perfect "Air City" on the

back of old dispatch sheets. After learning a new field was to be built, Lieutenant Clark took his drawings to General Lahm, who was so impressed with the designs he appointed him to be the architect in charge of the Randolph Field project. It was, at the time, the largest construction project undertaken by the U.S. Army Corps of Engineers since the Panama Canal.

The base is named after Capt. William Millican Randolph, a native of Austin, who, during his nine-year flying career, earned a remarkable record and contributed immeasurably to the progress of aviation. On Feb. 17, 1928, while returning to his duties at Kelly, he crashed his AT-4 on takeoff from Gorman Field. Ironically, Captain Randolph was serving on the committee to select a name for the new field at the time of his death. Randolph Field was officially dedicated in 1930, with an estimated 15,000 people in attendance and a fly-by of 233 planes, possibly the largest assembly of military aircraft in the world.

Soon thereafter, the School of Aviation Medicine relocated to Randolph Field, as well as the first cadets from the Air Corps Flying School. Since its beginning, Randolph has been a flight training base. Pilots there have been trained in the basic and primary phases of flying, returned for instructor training, or gone through combat crew training. Upon the transfer of basic flight training to Waco Field in 1945, Randolph Field produced over 15,000 instructor graduates from its course.

Although basic training transferred from Goodfellow Field in February 1946, the Army Air Force suspended all pilot training when it found itself desperately short of maintenance personnel. The suspension was later lifted and Randolph Field resumed its pilot training mission. The Air Force reshaped pilot training into two separate four-month phases in March 1948. Primary pilot training moved on in December 1950. Basic pilot training changed over to nine new contract schools in July 1951. After the Air Force became a separate service in 1947, Randolph Field was officially renamed Randolph Air Force Base.

Before the current 12th Flying Training Wing, the 3510th Flying Training Wing was the host unit at Randolph AFB. The 3510th FTW started out as the 3510th Basic Pilot Training Wing in 1948. This unit became the 3510th Combat Crew Training Wing in January 1952 and then the 3510th FTW in June 1952. The 12th Flying Training Wing replaced the 3510th FTW in 1972.

The 12th Flying Training Wing traces its heritage back to the 12th Bombardment Group. The 12th BG served in North Africa, Sicily, Italy, Burma, and India during World War II. When the 12th Flying Training Wing activated on Randolph AFB, it was designated from

the combat-proven 12th Tactical Fighter Wing.

FORT SAM HOUSTON

Located on the northeast side of San Antonio, Fort Sam Houston is accessible from Interstate Loop 410, Interstate 35 and U.S. 281. At any given time, the post population of military, family members, students and civilian employees tops 40,000.

The primary mission at Fort Sam Houston is as a medical training and support post. The post is the home of the Headquarters U.S. 5th Army, Army 5th Recruiting Brigade, Brooke Army Medical Center, the Institute of Surgical Research, the Army Medical Department Center and School, and the Army Medical Command. Fort Sam Houston provides facilities and support for the activities of garrison units and other tenant organizations. The post also supports the thousands of Army Reserve and National Guard soldiers who train there year round.

Soldiers from Fort Sam Houston have participated in every American War since 1845, and have deployed worldwide in support of post-Cold War contingency operations.

FORT SAM HOUSTON HISTORY

Fort Sam Houston was originally founded in 1845 and named for Gen. Sam Houston in 1890 by President Benjamin Harrison. General Houston is famed as a hero of the battle of San Jacinto and the first president of the Republic of Texas. Prominent visitors to the post included Chief Geronimo, who was held there in 1886 before his exile to Florida, and Theodore Roosevelt, who stopped with his men at the base to receive provisions before leaving for Cuba in 1898.

Fort Sam Houston is unique among Army posts. On one hand, it is a major, active military installation and plays a vital role in the defense of the United States. On the other hand, it contains some of the oldest structures on any Army installation, with the largest collection of historic buildings of any active military installation (nine times as many as Colonial Williamsburg). It holds the distinction of being the ninth-oldest currently active Army post.

In 1908, a new hospital was built at the artillery post. It was enlarged in 1910 and again in 1915, to provide 1,000 beds. In 1910, Lt. Benjamin Foulois brought the army's first airplane to Fort Sam Houston, where he instigated the first experimental flights in United States military aviation and gave the first public demonstration flights. In 1937 the largest maneuvers since World War I were held, and many of the tactical principles used during World War II were developed, including the "Triangular Division." In 1940, the Post was the largest army post in the United States. By the end of that decade, Fort Sam Houston had amassed 1,500 buildings on more than 3,300 acres of land and served as headquarters for the 4th United States Army.

In 1973, the Post acquired a major military command devoted to medical service, known as the Health Services Command. In 1991, Fort Sam Houston comprised the headquarters of the 4th United States Army, the Health Services Command, the Academy of Health Services, Brooke Army Medical Center, the Institute of Surgical Research, the United States Army Dental Laboratory, the 902nd Military Intelligence Group and the Joint Military Readiness Center. Today the Post supports all of the National Guard and Army Reserve units in Texas, as well as the Texas high

school and college reserve officer training corps units.

In mid-2002, the Army recommended that Fort Sam Houston be the new home of U.S. Army South, a headquarters that would bring San Antonio up to 700 jobs. The Army studied 11 communities in the Midwest and South over the previous 18 months, and narrowed the site list to Fort Sam Houston and Fort McPherson, Ga. Fort Sam Houston eventually won out in part because of its vacant Brooke Army Medical Center building. The availability of a high quality and easily remodeled facilities, the low cost of living and off-post housing, and the availability of existing barracks and family housing were all factors that contributed to the decision to propose Fort Sam Houston as the preferred location.

CAMP BULLIS

Camp Bullis is located on Interstate Highway 10 and Harry Wurzbach Road northwest of San Antonio in Bexar County. Together with Camp Stanley, the camp is part of the Leon Springs Military Reservation. Camp Bullis has provided firing ranges, training areas, and logistics support to Fort Sam Houston and other active and reserve component units in South Texas for nearly 100 years. Its most frequent users are the Army Medical Department Center and School, Defense Medical Readiness Training Institute, Air Force Ground Combat Skills School and Army units stationed at Fort Sam Houston. There are currently 130 military personnel stationed at Bullis.

Camp Bullis History

Camp Bullis was established in 1917 to train troops in preparation for the growing threat of war in Europe. It was named for Brig. Gen. John Lapham Bullis, who as a lieutenant led the Seminole-Negro scouts during the Indian Wars. During World War I Camp Bullis

provided maneuver areas and small arms and rifle ranges for troops from Fort Sam Houston. No units were stationed at the camp. In all, more than 32,000 acres was owned and leased by the government.

During the 1920s and 1930s, Camp Bullis provided facilities for training the Civilian Military Training Corps, the Civilian Conservation Corps, the Reserve Officer Training Corps, and the Officer Reserve Corps. With World War II looming, Congress authorized the call-up of the National Guard, and in 1940 the Selective Service Act was passed. A reception center was established at Camp Bullis in September 1940 to process and train draftees. By December 7, 1941, expansion of Fort Sam Houston and Camp Bullis was well under way.

By 1955, Camp Bullis was providing ranges and training areas for medical units of the regular army, reserve component units, ROTC, and United States Army Reserve schools.

The trainee loads increased significantly when 40,000 medical personnel prepared for Vietnam duty. The Forty-fifth Medical Unit, Self-Contained, Transportable, was the first of these units sent overseas. The unit was a modular facility of inflatable shelters developed at Fort Sam Houston and field-tested at Camp Bullis. A mock Vietnam village was constructed at Camp Bullis to help prepare soldiers for service in Vietnam.

As the war in Vietnam wound down, so did activity at Camp Bullis. The General Services Administration declared 1,140 acres of the reservation excess in 1972. Dwight D. Eisenhower Park opened on 323 acres transferred to the city of San Antonio in 1988. Another 94 acres was transferred to Bexar County in 1977 to allow the widening of Blanco Road, and 47 acres was turned over to the county for a park near Borgfield Drive. These reductions had little effect on the mission of the camp.

In 1977, an Air Force Security Police Training Site, known as Victor Base, was

constructed to accommodate the Air Force Security Police Academy. The Air Force was subsequently the largest single user of Camp Bullis until 1987. The Army began emergency deployment readiness exercises at Camp Bullis in 1973, when elements of the 101st Airborne Division from Fort Hood were air-dropped at Camp Bullis.

In 1996, Camp Bullis faced a not-so-unusual challenge: create more usable training area to meet increasing mission needs. The Texas installation needed to provide “movement-to-contact” corridors for Army National Guard mechanized units, create a simulated airfield for the Air Force’s Ground Combat Skills School, and expand training space for Fort Sam Houston medical units to set up bivouac and field hospitals. It also had to enhance habitat for two endangered species (the golden-checked warbler and the black-capped vireo) and protect archeological sites and other unique land features.

CAMP STANLEY

Camp Stanley is a subpost of nearby Camp Bullis. Located northwest of San

Antonio, Camp Stanley, a separate activity of Red River Army Depot, is a weapons and munitions supply. The camp is named for Brig. Gen. David Sloane Stanley, a captain in the 1st U.S. Cavalry and Medal of Honor recipient.

Camp Stanley History

Camp Stanley, originally called Camp Funston, was a subpost of the San Antonio Arsenal and operated as an ammunition storage depot. Chinese refugees brought from Mexico in 1916 by Gen. John J. Pershing were transferred from Fort Sam Houston to Camp Stanley after World War I. The refugees were finally registered as legal immigrants in 1922. That same year the camp became a subpost of Camp Travis and was to be used as a temporary garrison at peace strength.

In September 1933, Camp Stanley was transferred to the jurisdiction of the Ordnance Department, and new buildings were constructed to eliminate hazards. In 1947, Camp Stanley was consolidated with the San Antonio General Distribution Depot and on July 1, 1949, was designated the Camp Stanley Area of Red River Arsenal, a class-two instal-

lation under the jurisdiction of the chief of ordnance.

BROOKE ARMY MEDICAL CENTER

Brooke Army Medical Center is located at Fort Sam Houston on the northeast side of San Antonio, accessible from Interstate Loop 410, Interstate 35 and US 281.

The hospital was designed with four distinctive structural elements of four sub-buildings, with each letter of BAMC indicating a particular sub-building:

B (Bedtower Building) Located at the south end of the hospital. This sub-building contains all the acute care wards and is the tallest component at seven stories above ground.

A (Ancillary Building) This sub-building has five floors above the lower level and contains the critical care units, radiology, laboratory and other support services.

M (Medical Mall) This provides an open circulation area bridging between ancillary services and outpatient clinics.

C (Clinics) This sub-building is located at the north end of the hospital. Its three floors contain most of the outpatient clinics.

DEL RIO TEXAS

DEL RIO, TEXAS

The city of Del Rio, Texas, is located in Val Verde County on the Texas-Mexico border, midway between Padre Island and Big Bend National Park. The city is eight miles south of Amistad National Recreation Area which surrounds Lake Amistad, formed by the Rio Grande, Pecos and Devil's Rivers, with 850 miles of shoreline.

Del Rio is immediately across from the International Bridge that originates in Ciudad Acuña, Mexico, and is seven miles east of the Air Education Training Command's Laughlin Air Force Base. About 40,000 people reside in the city.

The city stands at an elevation of 948 feet, and has an average annual temperature of 72-degrees with an annual average of 17.9 inches of rainfall. In a semi-desert locale, Del Rio is an oasis with San Felipe Springs flowing 150 million gallons of pure water per day through creeks and canals which border recreational facilities including parks, municipal swimming pools, tennis courts, golf courses, and facilities for baseball, softball and soccer. Water and a temperate climate make Del Rio a recreational mecca, with many modern motels and campgrounds. Sportsmen enjoy hunting, fishing, golf and tennis throughout the year. Local attractions such as Seminole Canyon State

Historical Park, the Judge Roy Bean Visitor Center, Whitehead Museum and Val Verde Winery, the state's oldest, attract many travelers, as do annual rodeos and fiestas.

DEL RIO HISTORY

The Spanish established a small complex near the site of present Ciudad Acuña, the Mexican sister city of Del Rio, and some Spaniards settled on what became the United States side of the Rio Grande. The developments that led to the growth of Del Rio, however, took place after the Civil War. In the arid vastness of Southwest Texas, water was the key to survival, and for Del Rio the San Felipe Springs provided millions of gallons of water. A number of developers acquired several thousand acres adjacent to San Felipe Creek and developed plans to sell small tracts of rich farmland to prospective buyers. These investors formed the San Felipe Agricultural, Manufacturing, and Irrigation Company in 1868. The organization soon constructed a network of irrigation canals, completed in 1871. Soon they began to sell small tracts of land to newly arriving settlers, who then established truck farms. Residents in the area referred to the slowly developing town as San Felipe del Rio. Local lore says that the name came from early Spanish explorers who offered a Mass at the site on St. Philip's Day, 1635. In 1883, after the first post office was opened, the United States Postal Department requested that the name be shortened to Del Rio to avoid confusion with San Felipe de Austin.

DEL RIO AREA ATTRACTIONS

Lake Amistad Considered by many to be Del Rio's biggest draw, Lake Amistad is 67,000 acres of water along 540 miles of U.S. shoreline. Its limestone deposits and solid surrounding earth lend the water an extraordinary clarity and deep turquoise quality. Some of the most popular activities on Lake Amistad include boating, fishing, and water skiing. For more information, call 830-775-7491 or visit their website at www.nps.gov/amis.

Ciudad Acuña Del Rio's sister city, directly across the Mexico/U.S. border, is the best border city in Mexico. The area offers world famous cuisine, leather goods, gift shops, and dancing at night-clubs and discos. Ciudad Acuña hosts a range of events throughout the year including a motorcycle convention, and international fishing tournament, and the International Parade commemorating Ciudad Acuña's friendship with Del Rio. For more information, visit their website at www.turismoacuna.com.

Val Verde Winery Established in 1883, the Val Verde Winery continually produces a variety of wines, many of which have garnered acclaim from wine connoisseurs throughout the country. The Val Verde Winery is the oldest bonded winery in Texas. For more information, call 830-775-9714.

Whitehead Memorial Museum This museum boasts 21 exhibits over more than 2 acres of land. The exhibits are spread throughout several buildings, each in itself of historical significance. Exhibits include an authentic frontier log cabin and the gift shop located in a former mission. The Whitehead Memorial Museum is dedicated to serving Del Rio and preserving its local heritage.

For more information, call 830-774-7568 or visit their website at www.whitehead-museum.org.

Alamo Village Located in Brackettville, the Alamo Village is an active movie location that is open to visitors. It is the largest, most complete outdoor set in the United States, boasting the only replica of the Alamo in the world. It is the site of John Wayne's "Alamo", "Lonesome Dove", and "Two Rode Together". The Alamo Village hosts a variety of events throughout the year including the Alamo Village Trail Ride, a gunfighter's competition, and cowboy horse races. For more information, call 830-563-2580 or visit their website at www.alamovillage.com.

LAUGHLIN AIR FORCE BASE

Laughlin Air Force Base is located on U.S. Highway 90, approximately 150 miles west of San Antonio. The nearest city is Del Rio, six miles west of the

base. Situated about nine miles from the international bridge to Ciudad Acuna, Coah., Mexico, Laughlin is home to the 47th Flying Training Wing. The 47th FTW is one of four Air Education and Training Command pilot training units and conducts specialized undergraduate pilot training. Its mission is to train the world's best pilots and deploy expeditionary forces to fight and win America's wars.

With more than 3,300 people supporting its mission, Laughlin has a significant economic impact on the neighboring city of Del Rio. Everyone at Laughlin is aware of the strong relationship between the base and the Del Rio community.

Laughlin is organized into four groups that support the 47th FTW. The groups include the 47th Operations Group, 47th Maintenance Directorate, 47th Mission Support Group and 47th Medical Group.

47th Operations Group

The 47th Operations Group is responsible for training Air Force, Air Force Reserve, Air National Guard and allied pilots. The group consists of five flying training squadrons, and the 47th Operations Support Squadron.

47th Operations Support Squadron

The 47th Operations Support Squadron provides the full spectrum of support functions required to enable the 47th OG to perform flying training operations in the SUPT environment. The squadron provides instructional program development and academic instruction for the joint SUPT students, management of international students and is responsible for all aircrew flight records and aircraft life support systems. The squadron has responsibility of airfield operations for one of the busiest airfields in the Air Force to include the control tower, radar approach control facility, airspace and airfield management. The 47th OSS also provides oversight for aircraft simulator operations and all weather services in support of the flying mission.

84th and 85th Flying Training Squadrons

The 84th Flying Training Squadron together with the 85th Flying Training Squadron conducts the T-6 Texan II training portion of the SUPT program. Instructors provide the principal

foundations in contact, instrument and formation flying to assigned students.

86th Flying Training Squadron

The 86th Flying Training Squadron trains students in the airlift-tanker track during Phase III of SUPT. Principles and techniques are taught in flying the T-1A aircraft. Instructors provide training in contact, instrument, navigation, formation and low-level flight.

87th Flying Training Squadron

The 87th Flying Training Squadron trains students in the fighter-bomber track during Phase III of SUPT. Students receive training in aerobatics, formation, instrument, low-level and cross-country navigational skills, using full-motion simulators as well as the T-38 aircraft.

96th Flying Training Squadron

The 96th Flying Training Squadron is a Reserve Associate unit to AETC that supplements Laughlins four active duty flying squadrons, conducting training in the T-6, T-1, and T-38 portions of Specialized Undergraduate Pilot Training.

47th Maintenance Directorate

The 47th Maintenance Directorate, composed of five aircraft maintenance divisions and three support staff agencies, provides service and support to T-1, T-6, T-37 and T-38 aircraft that are part of the bases SUPT mission. The directorate furnishes contract surveillance for five major contracts that serve transient alert services, supply support to the T-6 and T-1 air fleets, and jet engine intermediate-level maintenance for four Air Education and Training Command pilot training bases.

Originally designated Laughlin Civil Service Aircraft Maintenance (LCSAM), the maintenance directorate came into being as the result of a winning A-76 bid in 1988. Hiring of key LCSAM leader began in February 1989. LCSAM began fully supporting Laughlin's pilot training mission in July 1989. At that time it was the first and only all-civil service maintenance organization in the Air Force.

47th Mission Support Group

The 47th Mission Support Group provides quality of life and general support to

28 units and more than 7,100 people. Give squadrons and two divisions maintain and protect assets valued at more than \$579 million. These include 893 buildings, 11 miles of runways/taxiways and 600 housing units on 5,343 acres supporting the specialized undergraduate pilot training mission. The group also provides logistics, lodging, morale, welfare and recreation, personnel, security, engineering, contracting and communication services for all units at Laughlin.

47th Medical Group

The 47th Medical Group provides diagnostic and therapeutic services on an appointment basis in pediatrics, internal medicine, flight medicine, life skills, optometry, general dentistry, family practice, nutritional medicine, radiology and laboratory services. The Health and Wellness Center provides optimal health

promotion, education and training to the base and local community. The 47th MDG consists of the 47th Medical Support Squadron, 47th Medical Operations Squadron and the 47th Aerospace-Dental Squadron

Laughlin AFB History

Laughlin is named after 1st Lt. Jack Thomas Laughlin, a Del Rio native killed over Java in the South Pacific in the early days of World War II. The base originally opened in the early 1940s. It was the Army Air Force B-26 training base during the war and was closed in 1947, after the war.

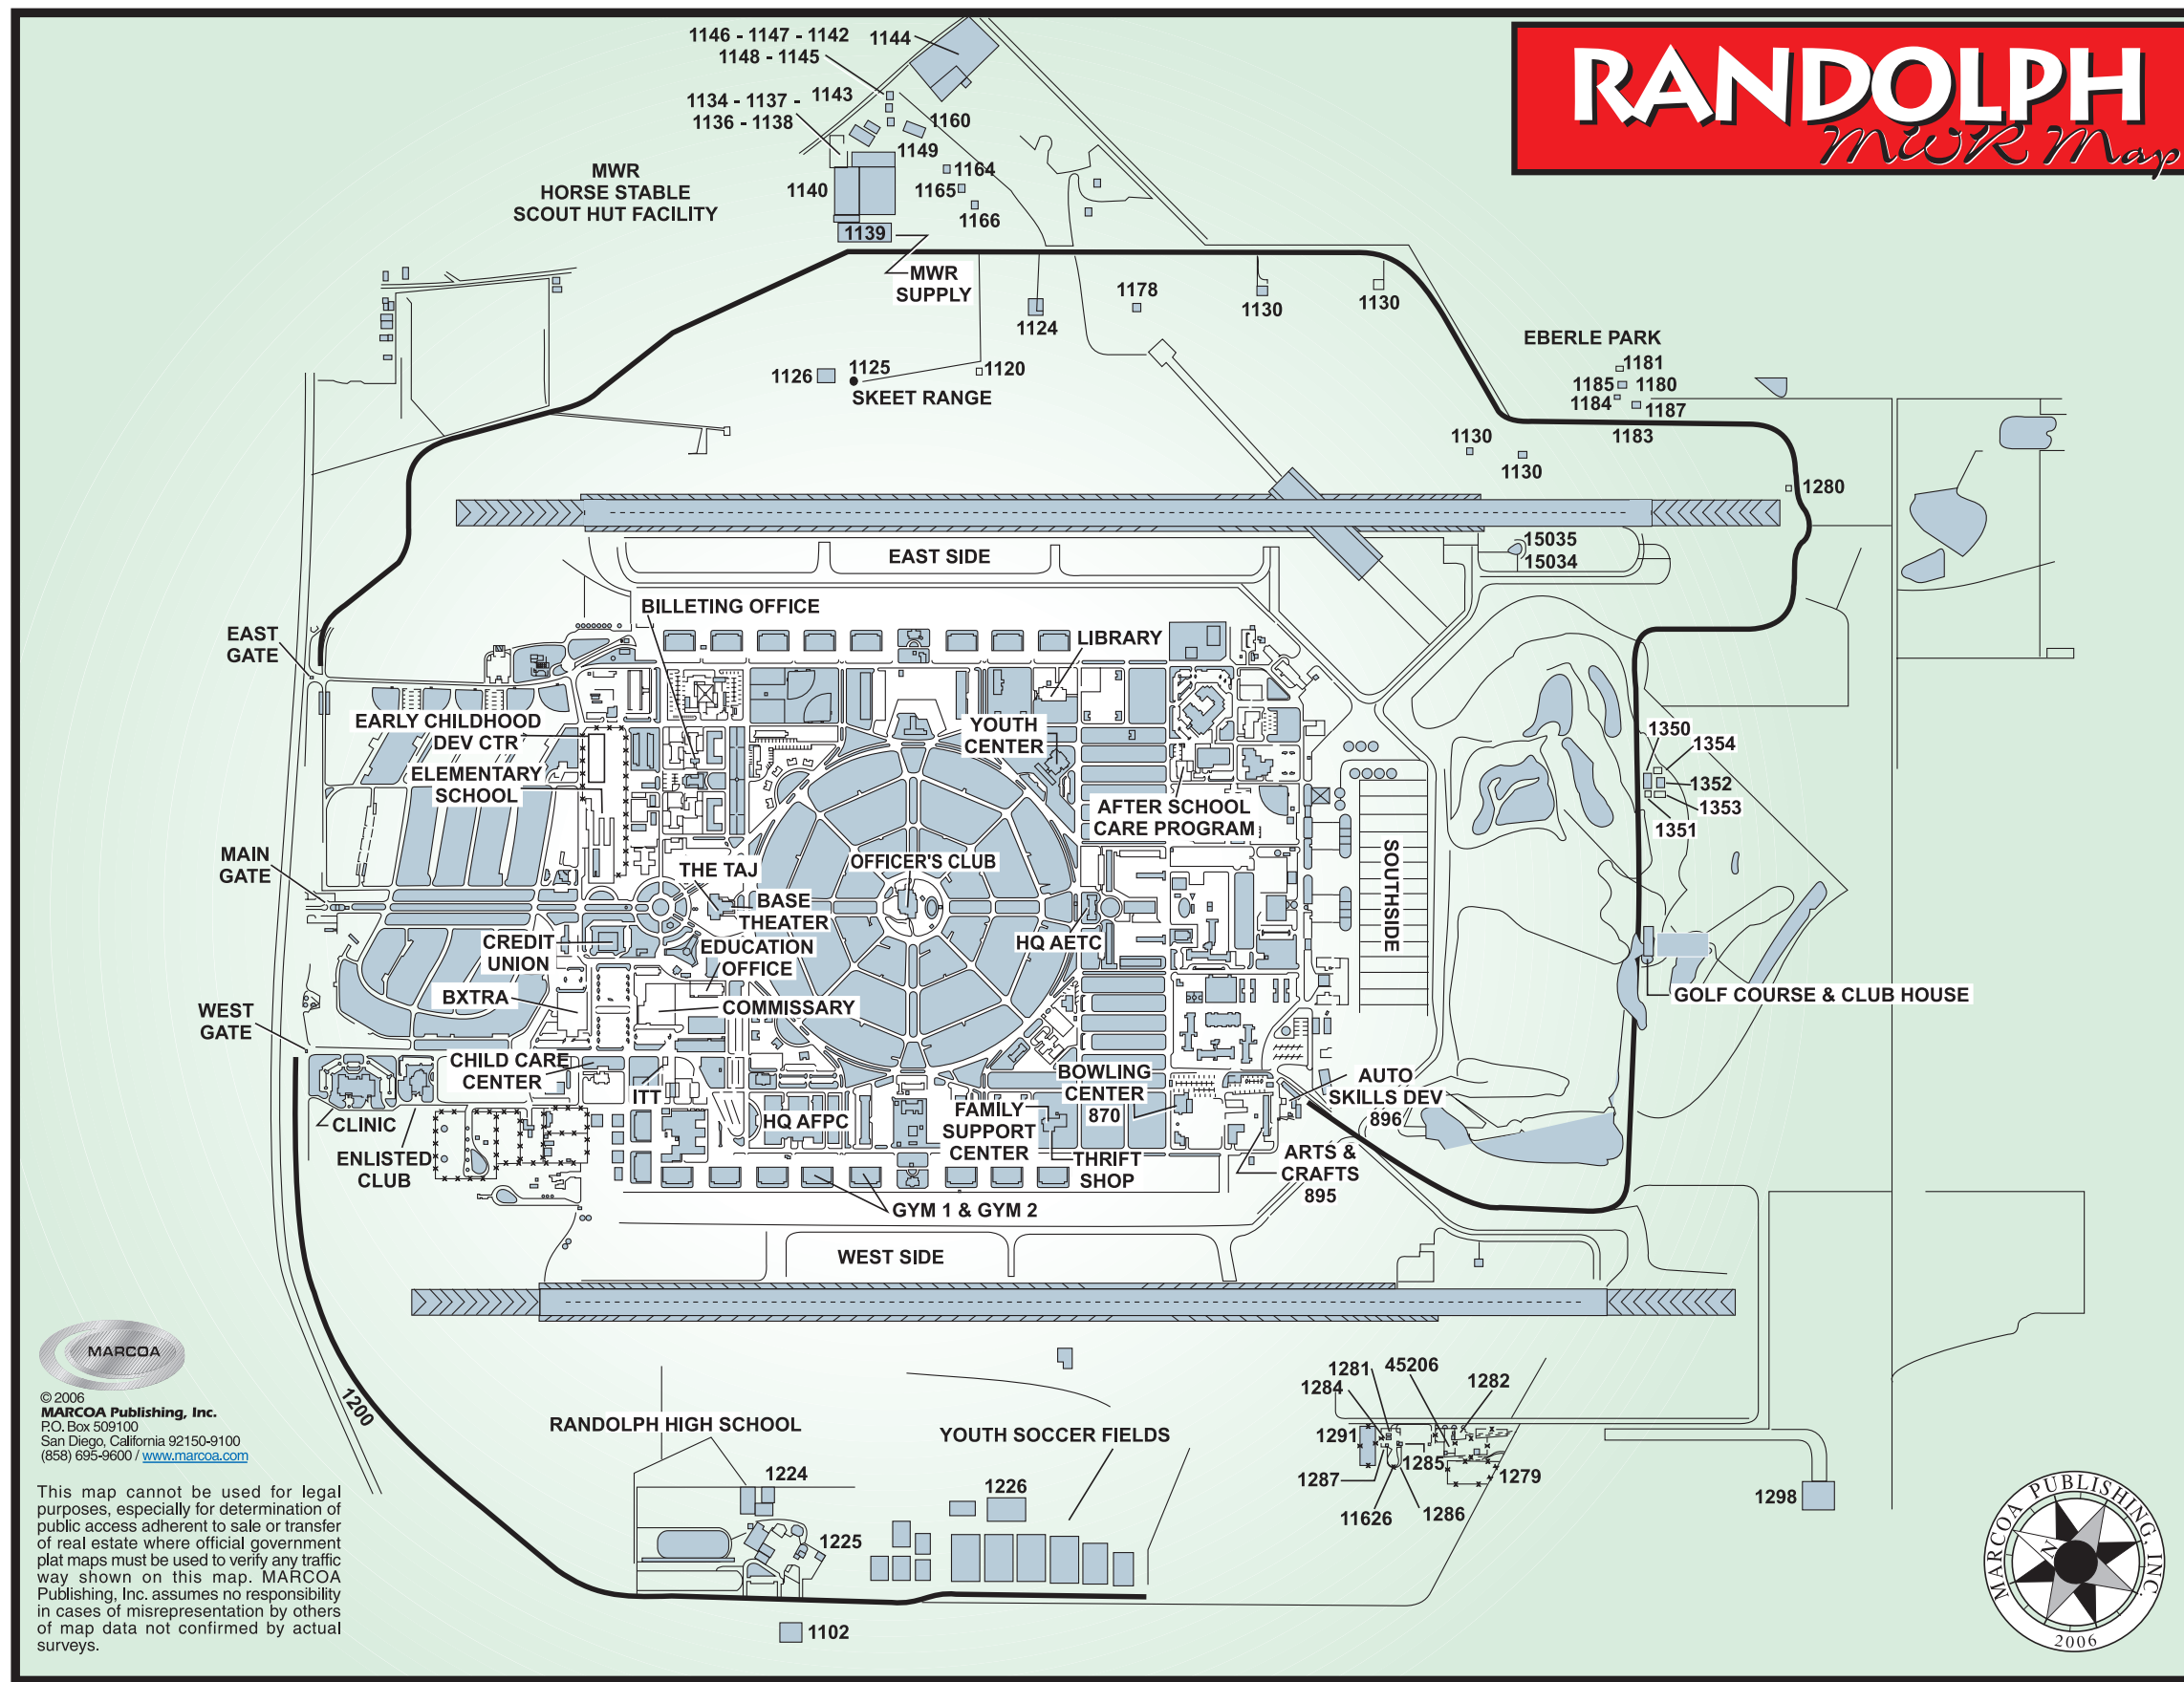

It reopened during the Korean Conflict as a jet fighter training base. From the late 1950s until 1963 it was the home of the Strategic Air Command's 4080th Strategic Reconnaissance Wing. It was a

4080th U-2 from Laughlin that discovered Soviet missiles in Cuba in 1962.

In 1962, the base became an Air Training Command base and its mission for the past 42 years has been to train new pilots for the United States Air Force and allied nations. More than 400 new military pilots earn their silver wings at Laughlin each year after an intensive 52-week course where they learn to fly using the T-37 Tweet, T-38 Talon, T-1A Jayhawk, T-6 Texan II jet trainers. The base is also home to Laughlin's Civil Service Aircraft Maintenance Unit, recognized as the best aircraft maintenance unit in the Air Force in 1992.

In July 1993, the 47th Flying Training Wing realigned under the new Air Education and Training Command, taking its place under 19th Air Force.

Ready. Aim. Retire.

Set your sights on San Antonio's own Army Residence Community. Join other retired career military officers, their spouses, widows and widowers—from all branches of service—who are already sharing a lifetime of stories and experiences in a true community setting. Enjoy independence and freedom from housekeeping and maintenance. Spread out in our comfortable cottages or well-appointed apartments. And take comfort in knowing our on-site Health Care Center can provide for all of your future health care needs. Even if you're still working and not ready to retire, you'll want to zero in on all your options—starting with the Army Residence Community!

O6	 Captain	 Colonel	GS15	7
			GS14	
O5	 Commander	 Lieutenant Colonel	GS13	
			GS12	
O4	 Lieutenant Commander	 Major		
			GS11	
O3	 Lieutenant	 Captain	GS10	
O2	 Lieutenant (j.g.)	 First Lieutenant	GS9	
			GS8	
O1	 Ensign	 Second Lieutenant	GS7	
W5		 Chief Warrant Officer	Marine Corps	
W4	 Chief Warrant Officer	 Chief Warrant Officer	Marine Corps	
W3	 Chief Warrant Officer	 Chief Warrant Officer	Marine Corps	
W2	 Chief Warrant Officer	 Chief Warrant Officer	Marine Corps	
W1	 Warrant Officer	 Warrant Officer	Marine Corps	

For Coast Guard officer insignia, the star is replaced by the gold Coast Guard shield as shown in the Admiral (O10) insignia.

Timely TELEPHONE Tips

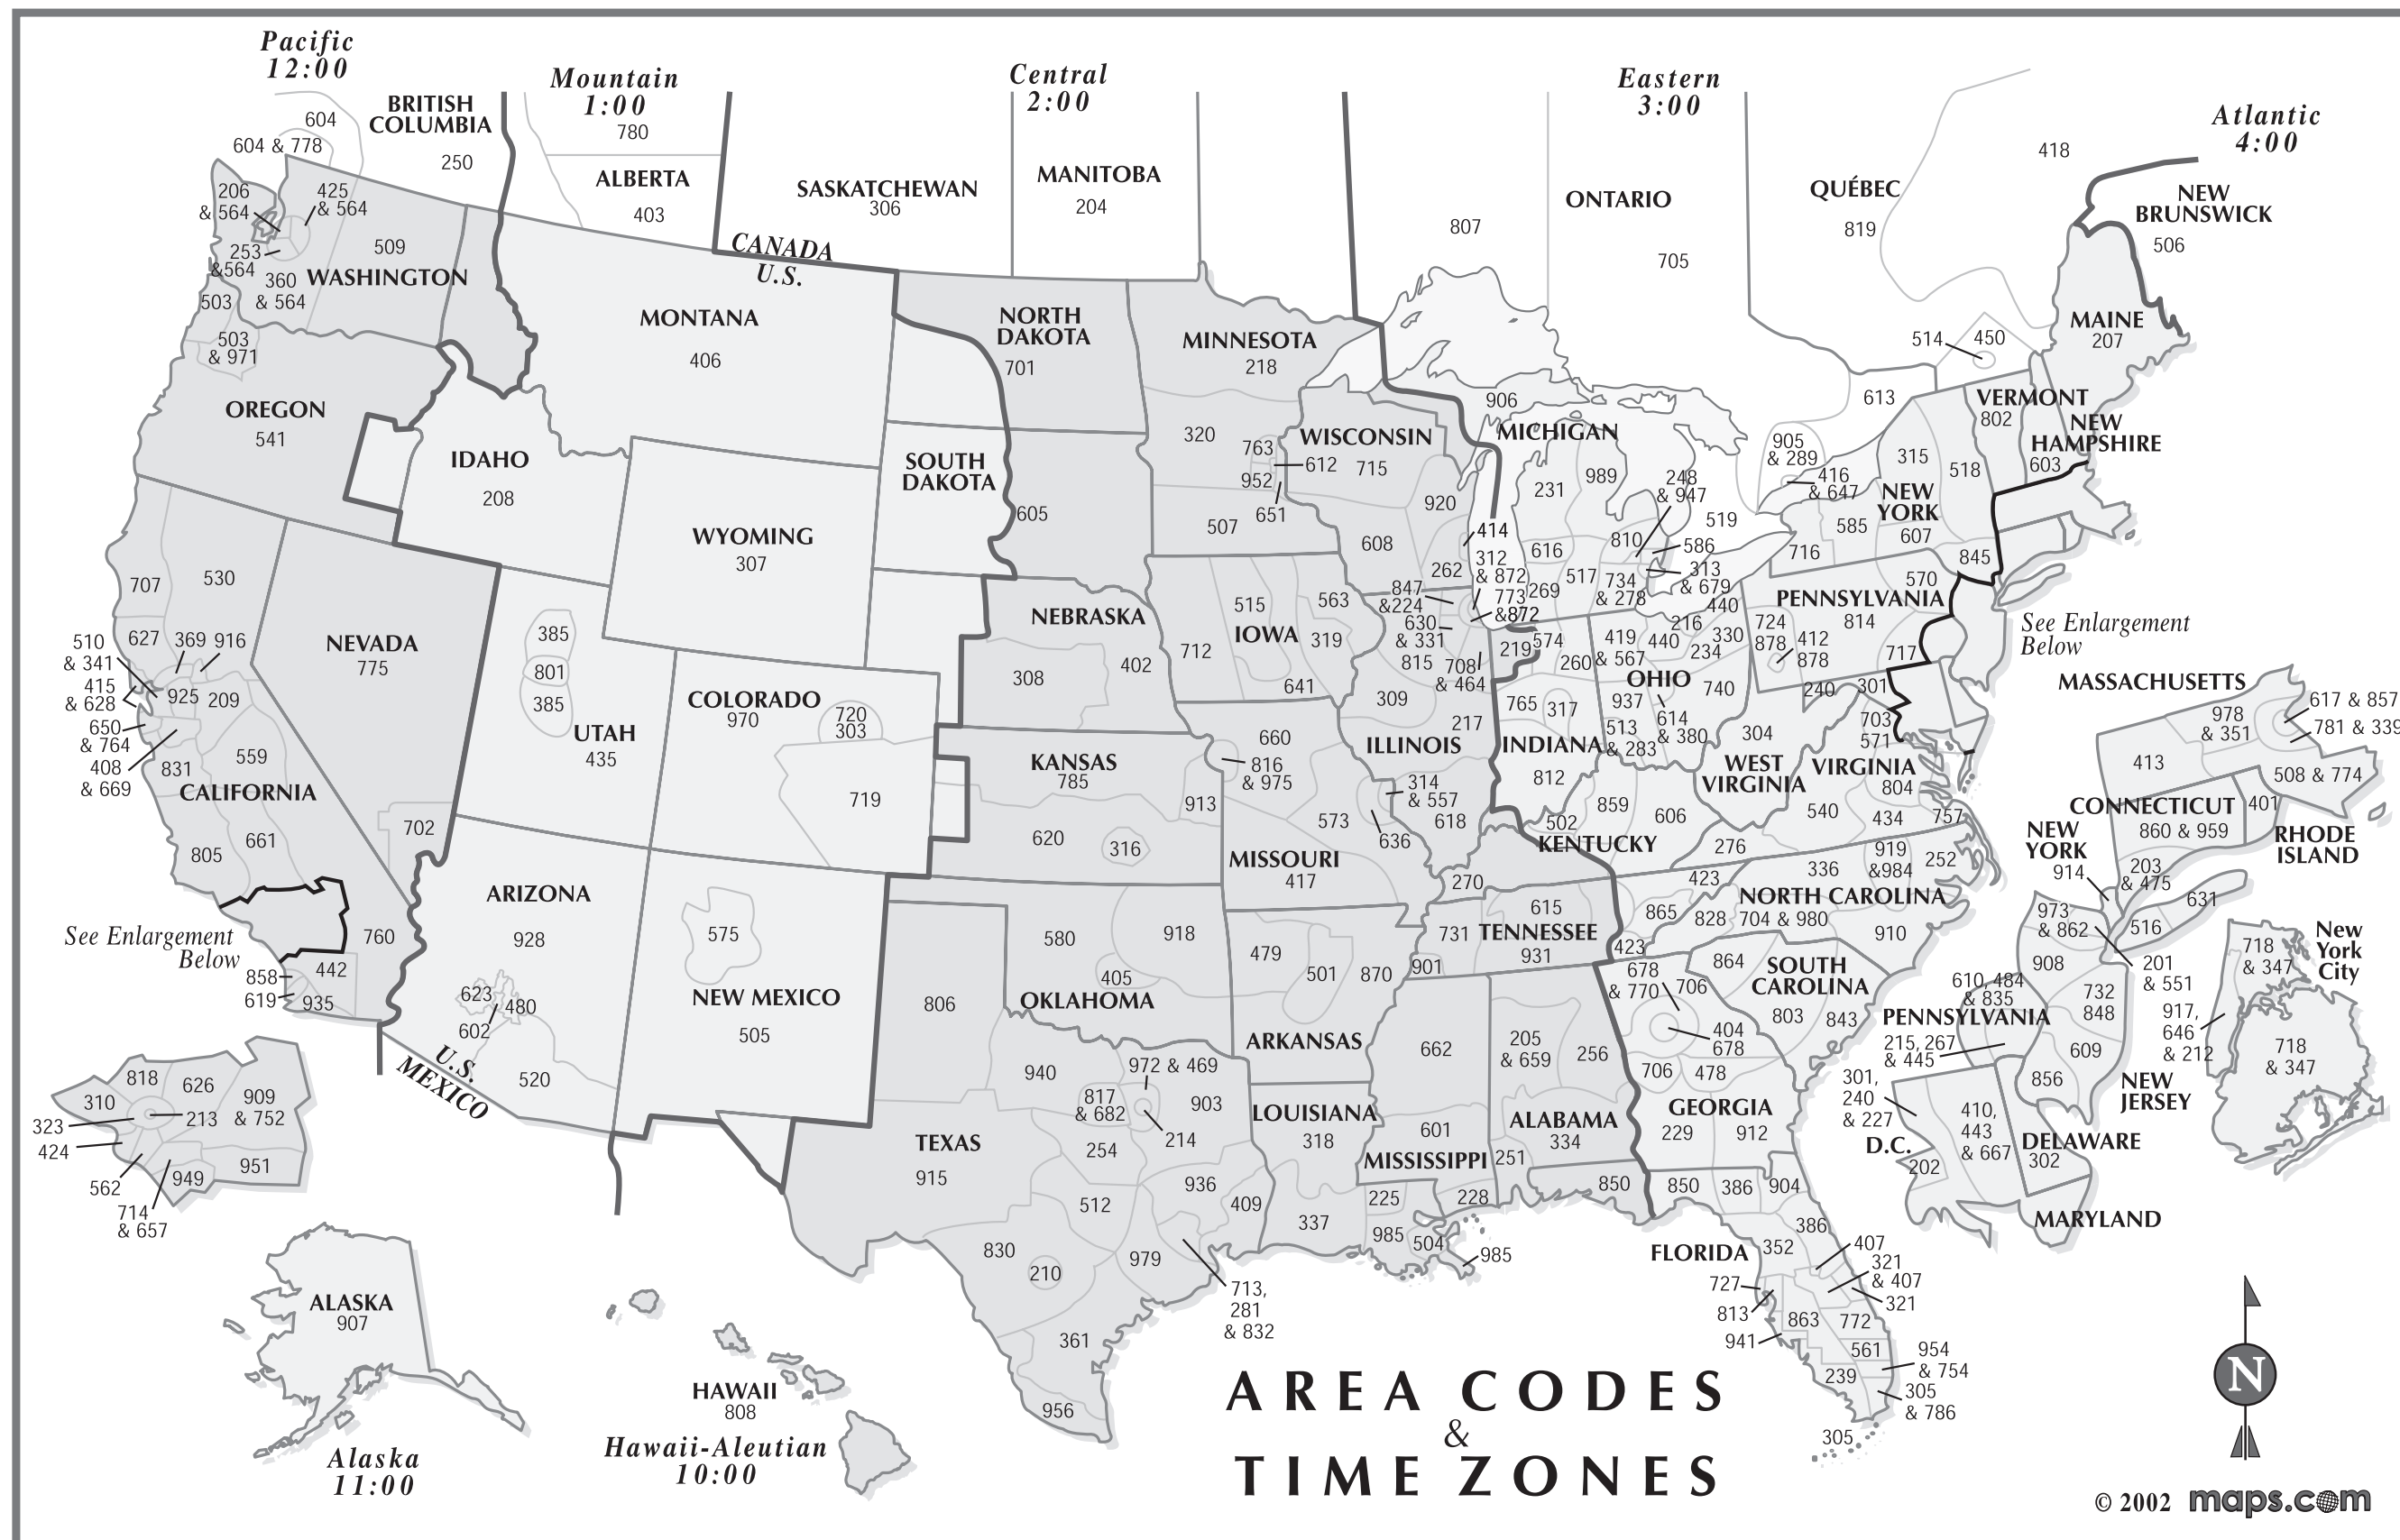

When you receive a telephone call...

When you make a telephone call...

ALWAYS REMEMBER TO:

1. **Answer as promptly as possible.**
Try to answer before second ring.
2. **Identify yourself when answering.**
"Mr. Brown's office, Miss Andrews."
"Personnel, Mason."
3. **Speak distinctly and pleasantly.**
Hold mouthpiece well up in front of lips.
4. **Avoid trite or abrupt phrases.**
"Who's calling? ... "Just a moment."
"He's busy." ... "He's in conference."
"He's tied up." ... "He isn't in."
5. **Volunteer the "whereabouts" and "whenabouts" of an absent person.**
"He can be reached in Mr Jones' office... extension 2-2270."
"He is out of the building until 3 o'clock."
"May I locate him and ask him to call you?"
6. **Request the identity of the caller only when necessary and in a tactful manner.**
"May I have your name?"
"May I ask who this is, please?"
7. **Explain off-the-line delays.**
"It's in the files... can you wait a moment?"
9. **Take a message willingly.**
Write essential details on a suitable message form; deliver promptly.
10. **Transfer elsewhere only when you know definitely the correct person or number.**
Give caller these facts before transferring.
1. **Plan an effective conversation.**
Get your thoughts in order before calling.
2. **Place the call yourself, except in special circumstances.**
Make sure you are on the line ready to talk, when the called person is reached.
3. **Have the correct number (or extension) in mind.**
Consult your directory, or personal number list.
4. **Listen to dial tone... dial carefully.**
5. **Identify yourself immediately to the first person answering the called telephone.**
"This is Mr. Johnson... May I speak to Mr. Hodges, please?"
6. **Identify also, when helpful, your office and purpose in calling.**
"Mr. Brown, in Accounts... returning Mr. Green's call."
7. **Ask whether called person has "time to talk now" if call is likely to be lengthy.**
8. **Try to complete your business in one call by securing information or leaving a message.**
9. **Volunteer your extension and the best time to reach you in case you request a "call-back."**
10. **Keep your conversation brief and businesslike.**

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When **MINIMIZE** is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.
2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Armed Forces Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when **MINIMIZE** is imposed.

Authority to Impose and cancel MINIMIZE. Commanders are authorized to impose **MINIMIZE** within their command or area of command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel **MINIMIZE** when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM (JUTCPS)

General Instructions

1. Joint Uniform Telephone Communications Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The JUTCPS does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One of Defense Emergency and CINCNORAD when declaring either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR

TRANSMISSION PRE-EMPTION

APPLICATION

FLASH

Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.

Flash precedence is reserved generally for telephone calls pertaining to: (1) Command and control military forces essential to defense and retaliation; (2) Critical intelligence essential to national survival; (3) Conduct of diplomatic negotiations critical to the arresting of limiting of hostilities; (4) Dissemination of critical civil alert information essential to national survival; (5) Continuity of Federal Government functions essential to national survival; (6) Fulfillment of critical United States internal security functions essential to national survival; (7) Catastrophic events of national or international significance.

IMMEDIATE

Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.

Immediate precedence is reserved generally for telephone calls pertaining to: (1) Situations which gravely affect the security of national and allied forces; (2) Reconstitution of forces in a post-attack period; (3) Intelligence essential to national security; (4) Conduct of diplomatic negotiations to reduce or limit the threat of war; (5) Implementation of Federal Government actions essential to national survival; (6) Situations which gravely affect the internal security of the United States; (7) Civil Defense actions concerning direction of our population and their survival; (8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population; (9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.

PRIORITY

Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.

Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.

ROUTINE

Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.

Routine precedence designation applies to those official government communications which require rapid transmission by telephonic means but do not require preferential handling.

DEFENSE INFORMATION SYSTEMS AGENCY MISSION

"To plan, engineer, develop, test, manage programs, acquire, implement, operate, and maintain information systems for C4I and mission support under all conditions of peace and war."

DEFENSE INFORMATION SYSTEMS AGENCY MANDATE

The Defense Information Systems Agency is transforming the way Department of Defense users move, share, and use information. All DOD personnel need information whether they maintain or fly aircraft, operate a periscope, move a platoon, perform surgery, process transactions, or any of hundreds of other jobs supporting our country's defense. As the manager, DISA is integrating hardware and software and constructing a common operating environment to sustain warfighters need for information anytime, anywhere. The pillars of the system are the Defense Information System Network, the Defense Message System, the Global Command and Control System, and the Global Combat Support System. DISA is also helping protect against, detect and react to threats to both its information infrastructure and information sources.

DEFENSE INFORMATION SYSTEMS NETWORK VISION

"DISN will be the preeminent provider of information systems delivery support to our WARFIGHTERS and others as required by the DOD, under all conditions of Peace and War."

Defense Switched Network (GS23)
Branch Chief - Howard Osman
Network Services Location:
Defense Information Systems Agency

A BRIEF DESCRIPTION OF THE DEFENSE SWITCHED NETWORK

The DSN is a primary information transfer network for the Defense Information Systems Network (DISN). The DSN provides the worldwide non-secure voice, secure voice, data, facsimile, and video teleconferencing services for DOD Command and Control (C2) elements, their supporting activities engaged in logistics, personnel, engineering, and intelligence, as well as other Federal agencies.

In 1982, the DSN was designated by the Office of the Secretary of Defense and the Joint Chiefs of Staff (JCS) as the provider

of long-distance communications service for the DOD. The DSN is designated as a primary system of communication during peacetime and during periods of crisis, pre-attack, non-nuclear, and post-attack phases of war. The network assures non-blocking service for users with flash and flash override precedence capabilities. Key users include the National Command Authorities, Commanders in Chief (CINCs) of the Unified Commands, and strategic and tactical subordinate commanders.

The DSN consists of four subsystems: Switching, Transmission, Timing and Synchronization, and Network Administration and Management. The DSN Switching Subsystem consists of multi-function, stand alone tandem, end office, and remote switching units. Using the transmission, timing, and control elements of the DISN, the switching units interconnect all military locations worldwide and provide end-to-end long-distance common user and dedicated voice, secure voice, data, and video services worldwide.

In addition to non-secure voice, data, and video services, the DSN provides transmission, switching, and support services for Secure Telephone Units, Third Generation (STU- IIIs), the Secure Terminal Equipment (STE), the Defense RED Switch Network (DRSN), dial-up alternative routing for the Unclassified but Sensitive Internet Protocol (IP) Router Network (NIPRNet), and the Secret IP Router Network (SIPRNet). The DSN also provides access to the Government Emergency Telephone System (GETS).

FOREWORD

The Defense Switched Network Telephone Directory is divided into six geographical listings: Alaska, Canada, the Continental United States (CONUS), Europe, the Pacific, and Central Command.

The Defense Switched Network Telephone Directory cannot list all subscriber numbers. It does provide a facility or organizational central contact telephone number, which is generally an operator assistance number. If you do not have the current number for the party to whom you wish to speak, use the central contact number to obtain your party's number or to have your call forwarded.

Listings in the directory are in two formats. Both proper name and facility type are used for ease of location of posts, bases, camps, and stations. For example, Camp (CP) Smith, is listed as Smith, Camp and CP Smith; the Naval Air Facility at Atsugi is listed as Atsugi Naval Air Facility and Naval Air Facility-Atsugi; and Lackland Air Force Base (AFB) is listed as Lackland AFB and AFB, Lackland. Units identified by numerical designations are listed in numerical order, not by unit type. For example, the 121ST Tactical Fighter Wing (TFW) is listed only as the 121ST TFW.

The Defense Switched Network telephone directory is in alphabetical order by area code (e.g. Alaska, Canada, CONUS). The seven-digit operator assistance telephone number is sorted numerically.

NATIONAL COMMUNICATIONS SYSTEM VOICE PRECEDENCE SYSTEM

The National Communications System (NCS) Voice Precedence System, which was established by NCS Memorandum 1-70, 14 February 1970, is for use by all authorized users of DOD voice communications facilities. Since the effectiveness of the system depends on the cooperation of the people authorized to use it, users must: (1) be familiar with the purposes of each precedence category and the type of call that is assigned the precedence and (2) exercise care not to request or use a precedence higher than required.

The NCS Voice Precedence System does not make provisions for conducting test and exercise calls. Those

activities or individuals authorized or required to conduct such test or exercise calls will use precedence consistent with the nature of the test or exercise. When the originator of the test or exercise call has contacted the called party, the call will be identified immediately as a flash, immediate, or priority precedence test or exercise.

The following examples should aid users in determining what precedence to use when placing a call. These examples are according to the NCS Voice Precedence System, but are not to be used exclusively for determination of the precedence of a call. This should be at the discretion of the originator of the call.

- **Flash Override.** Flash override is considered a capability, not a level of precedence. Exercising this capability preempts calls of all other levels or precedence. The flash override capability is available to the following users:

- The President of the United States of America
- The Secretary of Defense and the Chairman of the JCS
- Commanders of Unified Command

- **Flash.** Flash calls preempt immediate, priority, and routine calls. Listed below are examples of flash calls:

- Calls pertaining to C2 of military forces essential to defense and retaliation
- Critical intelligence essential to national survival
- Conduct of diplomatic negotiations critical to ceasing or limiting hostilities
- Dissemination of critical civil alert information essential to national survival
- Continuity of Federal Government functions essential to national survival
- Fulfillment of critical United States internal security functions essential to national survival
- Catastrophic events of national or international significance

- **Immediate.** Immediate calls preempt priority and routine calls and are reserved for communications pertaining to situations that gravely affect the security of national and Allied forces. Listed below are some examples of immediate calls:

- Reconstitution of forces in a post-attack period
- Intelligence essential to national security
- Conduct of diplomatic negotiations to reduce or limit the threat of war
- Implementation of Federal Government actions essential to national survival
- Situations that gravely affect the security of the United States
- Civil defense actions concerning the direction of the population and their survival
- Disaster or events serious enough to have an immediate and detrimental effect on the welfare of the population
- Vital information having an immediate effect on aircraft, spacecraft, or missile operations
- Distress assistance

- **Priority.** Priority calls preempt routine calls and are reserved for communications requiring expeditious action by called parties furnishing essential information for conducting government operations.

- **Routine.** The routine precedence applies to official government communications that require rapid transmission by telephonic means but do not require preferential handling. A routine call does not preempt any other call.

WHAT CATEGORY OF NETWORK CUSTOMER ARE YOU?

There are three types of DSN users:

- **Special Command and Control (C2) Users.** A special class of user who has direct, unrestricted access to the DSN for essential communications and planning, and for directing and controlling the operations of assigned forces pursuant to assigned missions. This user requires capabilities that provide crisis, pre-attack, and theater non-nuclear war telecommunications service for intelligence, alert, and strategic readiness. This user also requires communications among the President, Secretary of Defense, JCS, Services Chiefs, and the CINCs. Specifically, these Special C2 users are identified through one or more Joint Staff, CINC, Service, or agency validation process. Also, they are all RED switch subscribers and the following identified subscribers of common user networks:

- Joint Staff-approved flash override, flash precedence origination capability
- CINC- or service-approved flash precedence origination capability
- CINC-, service-validated, or agency-validated connectivity identified as part of C2 networks that support secondary (or lower) strategic connectivity missions
- CINC-validated minimum essential circuits as approved in the Pacific Joint Multi-channel Trunking and Switching System and the European Theater Communications Architecture

- **C2 Users.** Users having a requirement for C2 communications who do not meet the criteria for the class of Special C2 users. C2 users include any person (regardless of their position in the chain of command) who issues guidance or orders that direct, control, or coordinate any military forces, regardless of the nature of the military mission, whether said guidance or order is issued or effected during peace or wartime.

- **Other Users.** DOD, non-DOD, non-government and foreign government users having no missions or communications requirements to ever originate or receive C2 communications under the definitions for C2 or Special C2 Users. During a crisis or contingency, they may be denied access to the DSN or DRSN. These users are provided access to the DSN for the economic benefits to the DOD.

WHO IS LISTED IN THE DSN TELEPHONE DIRECTORY?

Any post, camp, base, or station served by the DSN that formally requests to be included in the directory is listed. Individual listings are restricted to command level, agency level, or organization level. To be included in the Defense Switched Network Telephone Directory, or to correct or delete an existing directory listing, complete the form included in Appendix A: Request for Listing. Return the form to:

HQ DISA, Code GS23
5275 Leesburg Pike
Falls Church, VA 22041

Requests can also be sent through e-mail to PHONEDSN@ncr.disa.mil

DSN TELEPHONE DIRECTORY DISTRIBUTION

It is neither cost-effective nor productive to publish and distribute a hardcopy version of the global Defense Switched Network Telephone Directory or to provide a listing of all commands, activities, and agencies that have the capability to access the network. However, the directory needs the widest possible distribution to be useful. The directory is made available as a downloadable file on the World Wide Web at <http://dsnbbs.ncr.disa.mil/>. If access to the Web is unavailable, consult your local operator or your servicing command element. Local reproduction is authorized and encouraged. Instructions for accessing the DSN Directory Web site are set forth in Appendix B: Instructions for Accessing the DSN Web Site.

Publishers of local directories are strongly encouraged to include any part of this directory in their directories.

NETWORK RECORDING AND SIGNAL TONES

What do the various tones and recorded announcements tell you about the progress or disposition of your call?

- When you hear a dial tone, the network is ready for your call. Dial your number.
- When you hear a ringing tone, your called number is ringing. Wait for your party to answer. On routine calls, you should hear a normal ringing tone (10 rings per minute). On calls of higher precedence, you will hear a very fast ringing tone (30 rings per minute).
- When you hear a busy tone, several possibilities exist. The called number may be in use, local equipment at your location may be busy, network equipment may be busy, or an equipment failure may have occurred. After a brief wait, call again.
- When you hear a preempt tone, your call was cut off by a higher precedence call. Hang up; the call may be for you. If the preempted call requires completion, wait a short time and redial.
- A conference call is preceded by a warbling tone. When you hear this, stand by for instructions or for the other parties of the conference to be connected.

Below are some of the recorded announcements you might hear while using the DSN. If you hear one of these announcements and feel it may be an indication of trouble, report the possible trouble according to the procedures outlined in the "Telephone Trouble and Unsatisfactory Service Reporting" section of this directory. Note the error message number and provide it to repair personnel. The error message number will also be helpful to your supporting telephone service provider during the troubleshooting of access problems.

- "Your call cannot be completed as dialed. Please consult your directory and call again or ask your operator for assistance. This is a recording (pause) error message number/switch number and country."
- "The precedence used is not authorized for your line. Please use an authorized precedence or ask your operator for assistance. This is a recording (pause) error message number/switch number and country."

- "Equal or higher precedence calls have prevented the completion of your call, or the number you have dialed is not equipped for preemption. This is a recording (pause) error message number/switch number and country."
- "A DSN service disruption has prevented the completion of your call. Please wait 30 minutes and try again. In case of an emergency, call your operator. This is a recording (pause) error message number/switch number and country."

CALLING PROCEDURES

VOICE TELEPHONE CALLS (31X)

Voice telephone calls can access a DSN line by either direct dialing or dialing the operator. Here is how each process works:

- If you do the dialing:
 - Listen for the dial tone.
 - Dial the DSN number access number if required.
 - Listen for the DSN dial tone.
 - Dial the desired DSN phone number, with precedence and area code if required.
- If the operator dials for you:
 - Give your name and local base telephone extension number.
 - Give your precedence.
 - Provide the DSN number you are calling and any other information.
 - Wait on the line until the operator connects you to the called party.

DATA TELEPHONE CALLS (50X AND 51X)

Transmission of data on the DSN will be allowed by exception and will be severely limited by CINCs, Services, and Defense Agencies. The Defense Data Network (DDN) NIPRNet and SIPRNet are the primary networks for data transmissions.

- Dial-up Data. Use of DSN-switched voice (dial-up) circuits to transmit digital data will be detrimental to voice users. Long circuit holding times will affect the network grade of service (GOS) and significantly degrade other users' ability to complete calls. Data processing equipment may use DSN voice circuits only when the DDN and other transmission media, either commercial or government-owned, do not exist or are required for emergencies or reasons of national security. Data equipment includes computer-controlled graphics (other than facsimile), word processors, mainframe and microcomputers, laptops, and other personal communications system (PCS) and similar equipment.
 - Data processing equipment using DSN voice circuits (dial-up) will be capable of automatically disconnecting from the access line or interswitch trunk when the transmission is complete or the circuit is preempted.
 - Approval authority for outside CONUS (OCONUS) data transmissions through DSN dial-up circuits is the Combat Commander. CONUS authority is the Combat Commander, Chief of the Service, or the Director of the Defense Agency concerned. Each request will be coordinated with DISA to determine the network impact. DISA will be notified of each approval specifically to determine why the DDN cannot support the requirement. Blanket approvals for use will identify a connect limit, and an expiration or revalidation date.

- Dial-up Facsimile. The DSN may be used to transmit unsecured facsimile traffic without an STU-III only if the

facsimile machine or computer transmits within 1 minute after the facsimile transmission ends or the circuit is preempted.

- Secure Transmission with an STU-III. Use of an STU-III in the secure mode for voice communications is not interpreted as data transmission. When the STU-III is used to transmit secure data or a facsimile, the following criteria will be met:
 - The STU-III at each end will be monitored during the entire transmission to ensure the circuit is maintained and the STU-III is in the secure mode.
 - The STU-III preempt feature will be enabled at all times.
 - National guidance for the use of STU-III in secure data transmission, including access control, TEMPEST, and computer security, must be followed.

CONFERENCE CALLS

To schedule a conference call across the DSN, contact your local operator. Tell the operator that you wish to make a conference call and provide a list of numbers to be included in the conference.

Preset conferences may be established. Consult your supporting DISA Field Office for further information.

CALLS TO COMMERCIAL

TOLL FREE NUMBERS

(809 Service – Making Toll Free Commercial Calls From The DSN)

As authorized by CJCSI 6215.01B, Policy for DOD Voice Networks, Paragraph 7.b(2)(c), DISA has implemented a new off-netting interface as a Managed Interface between the DSN and the Public Switched Telephone Network (PSTN). This interface allows for the use of any 1-800 type toll free numbers (specifically 800, 888, 866, and 877) on the PSTN and is accessed by dialing the DSN telephone number: 809-4-OFF-DSN (809-463-3376). Access/usage is authorized for all DSN users as provided by the CJCSI 6215.01B.

This capability was designed to:

- Reduce O&M's manpower requirement for operator assistance
 - Reduce traffic on access trunks
 - Reduce resource overhead during manual call handling
 - Improve Customer Service
 - Reduce requirement for commercial service to tactical sites
- The applicable DSN rates apply, from the user's location to CONUS, since the technical interfaces for the PSTN accesses are located in CONUS. Local commanders can limit/restrict access to this service by Class of Service tables and class-marking user lines to control costs and/or meet other mission requirements.

Authorized users of this interface are:

- Government contractors and vendors with 1-800 numbers
- Help Desk numbers for hardware/software
- Non-toll PSTN numbers with a 1-800 number for Credit Card calling, where the toll charges are applied to the Credit Card (Credit Card calling can be made with either Government-provided calling cards (FTS), or personal cards)
- Reverse Billing to call recipient via "1-800 Call Collect" Services

How to use the 809 service:

1. Dial 809-4-OFF-DSN (809-463-3376).
2. You will receive a second dial tone.
3. Dial your toll free number, including the "1" (e.g., 1-800-123-4567).

CALL ASSISTANCE

Switchboard operators are available to assist DSN users. If you are having trouble completing a call, dial "312-231-1311" to reach the operator.

INTER-AREA CALLING

The DSN provides global telephone service for authorized users. Some users can call everywhere, while others are limited to one particular area or combination of areas. Where you can call depends on your mission and how your telephone line is class-marked. If your calling area is limited, you will not be able to dial outside your calling area. The local directory indicates the calling areas and codes available to you. The area code need not be dialed for calls within your area. Calls to an area outside the local call boundary require an area code plus the seven-digit DSN number. If you are transmitting data, alternate area codes are used.

NEW OR ADDITIONAL SERVICE

To obtain new DSN service or to change the type of service you now have, consult DISA Circular 310-130-1, Submission of Telecommunications Service Requests, or consult your local telecommunications support office.

SPECIAL SERVICES

"510" service is the DSN equivalent of commercial "800" toll free service. If you have a requirement for this type of service at your organization, contact DISA HQ, Code GS23.

USER-PROVIDED EQUIPMENT

The terminal equipment provided by the user for connection to a DSN Switching Center must meet the technical interface criteria outlined in DISA Circular 370-175-13.

REPORTING TELEPHONE TROUBLE

Ensure that the DSN number you have dialed is correct. If you dialed the number correctly and are still having trouble, report the problem as follows:

- Keep the line connected if you can. Overseas users should call their local telephone reporting desk or the local operator. CONUS users should call the DSN Customer Service desk at DSN 550-1611 or commercial at 1-800-967-6194. Tell the attendant:
 - Your DSN number and location.
 - Called party DSN number and location.
 - What the problem was and when it occurred.
 - If you hear an announcement, listen to the entire recording. You will hear an error message and a switch number and country name. Provide this information to the trouble desk. The information will help technicians trace the source of the trouble.
 - Get the attendant's initials and then request a call back when the trouble is corrected.

REPORTING UNSATISFACTORY SERVICE

- If you are not satisfied with the results when you report a problem, contact the appropriate DISA organization for your area. If the problem is technical rather than procedural, specific details may be required. If you need assistance in filling out the report, contact your local telecommunications officer or the officer-in-charge (OIC) of the station switchboard. The report must contain the following information:
 - Your station name, unit name, DSN telephone number, and whether the trouble concerns a telephone or a switchboard

- The time and date you noticed the problem, the DSN trouble desk to which it was reported, and whether the problem was solved
- What kind of problem you had and the impact it had on your mission

• If you are unhappy with the agency that was supposed to fix the problem, tell us exactly what unit it is, when you called them, when they responded, and when and if the problem was repaired. Let us know why you think their service was unsatisfactory. If this is a repeated problem, inform us how many times and whether your comments apply to each occurrence.
 Action: Send the report to DISA HQ, Code GS23, or the supporting DISA Field Office for your organization. A list of field offices is provided in Appendix E, "List of DISA Field Offices".
 Information: The Operations and Maintenance (O&M) Agency in your area responsible for providing service.

AUSTRALIA SECTION

DSN AREA CODE 715 Voice

DSN area code 715 - provides an inter-area connection between the DSN and the Australian network. A user in the DSN dials 715-225-5287 (715-Call-Aus). When the call terminates, the users then dial the 9 digit number to Australia (State and City code + 7 digits). To call Operator assist dial 2-4-5873111 (247).

GENERAL INFORMATION

311th Communications Squadron operates and maintains, Telephones Installation, Voice and Record Traffic Information Management, Network Control and software for BAFFB.

TELEPHONE SERVICES

HOURS OF OPERATION:

Telephone Operator Assistance is Monday-Friday 0700-2200 Saturday 0900-1700 Holidays 0700-2200 and closed Sunday.

SUBSCRIBERS RESPONSIBILITY:

Subscribers are responsible for the proper use and care of the telephone, equipment, and associated wiring. Installation removal, modification or relocation, must be coordinated with unit telephone control officer (TCO). Any damage must be reported to telephone maintenance, ext. 119. Unofficial personal calls to or from government equipment is not permitted. *Under no circumstances will subscribers move alter, place attachments or make additions to telephone equipment.

TELEPHONE SECURITY:

Military communications facilities are subject to monitoring by activities associated with the preservation of national security. Personnel who make unauthorized disclosures of classified defense information are subject to disciplinary actions. DOD Directive 4640.06 constitutes consent to communication security monitoring. Refer questions to 311th CS/SCBS at 4-8267

SECURE VOICE FACILITY:

If a classified subject must be discussed, a common user SECURE VOICE FACILITY is available at Brooks Command Post Bldg. 1155 ext. This is a secure facility with controlled access. The telephone extensions are 4-3278. Operating hours are Mon-Fri 0600 - 1800. Prior to placing a secure telephone call contact the party to be called and establish a positive "need-to-know" identification and proper clearance, IAW AFI 33-111.

Submit all suggestions, modification request, and other recommendations to secure voice systems or equipment to:

HQ AFCA/SYV,

203 W. Losey Street, Room 3065,

Scott AFB IL 6225-5223

EXCAVATING/EMERGENCY/CABLE REPAIRS:

Consult 311CS/SCMC 4-4440 pager # 821-9893 prior to any excavating or telephone cable repairs within the confines of Brooks City-Base.

TELEPHONE TROUBLE REPORTING:

Telephone troubles should be reported immediately to the telephone trouble desk at 119 during normal duty hours. After duty hours dial the operator.

HOME PHONE NUMBERS:

- Military Personnel: BAFFB locator at extension 4-1841 (subject to Privacy Act).
- Civilian, Contractor Personnel: Southwestern Bell Telephone Directory or San Antonio Lite Pages located on the Brooks Home Page.
- Emergency and Stand-by Personnel: Brooks AFB Security Forces ext. 4-2851.

DIALING INFORMATION FOR:

- Emergency calls:
 - Dial or touch tone 911.
 - From Transient Quarters 911.
- Telephone trouble call ext. 119 and provide the following information:
 - Telephone number with the trouble
 - Building number
 - Room number
 - Call back number for confirmation

MILITARY BASES IN SAN ANTONIO AREA:

When dialing from Brooks to another base in San Antonio, use the prefix plus the four digit extension or dial operator assistance to get the extension for the office you need.

BASE	EXT	OPER ASSIST
Brooks City-Base	4-XXXX	4-1110

Brooke Army Medical	99-916-XXXX9	9-916-6141
Ft Sam Houston	99-221-XXXX9	9-221-1211
Kelly AFB	5-6-XXXX	5-1110
Lackland AFB	3-XXXX	3-1110
Randolph AFB	77-XXXX	77-1110
Randolph AFB (MPC)	75-XXXX	77-1110
Wilford Hall	2-XXXX	2-7100

NETWORK CLASS OF SERVICE (NCOS):

The telephone system employs computer based digital switching equipment. Telephone Control Officer (TCO) determines and validates NCOS assigned to the users line based on mission requirements and internal criteria. All requests must be signed by the TCO.

TELEPHONE CONTROL OFFICER (TCO):

TCOs serve as the unit or directorate focal point for all the telephone and data equipment/circuit requirements and information. In this role, TCOs will:

- Ensure all AF Form 3215s C4 Systems Requirement Documents, (C4SRDs) are submitted a minimum of 15 days prior to the operational date or as soon as the requirement is known.
- Ensure all C4SRDs involving the installation, removal, or relocation have detailed, existing and proposed office diagrams attached, if required.
- Ensure the customer's name/point of contact is in block (6) of the C4SRD and that a valid phone number for this individual is included.
- Authorize and sign block (13) C4SRD for all Unit/Directorate communications requirements, whether they are: commercial communications or telephone services (equipment/systems, telephones, FAX/MODEM circuitry, VMX (voice mail), etc.)
- Keep a control log of all C4SRDs submitted. Assign your own control number so that you can reference it when calling for status. Enter the control number in block 6 of the C4SRD.
- Assist customers in establishing a priority telecommunications requirement by either submitting a letter signed by their 2-letter office symbol along with the C4SRD or ensure the C4SRD is signed by the 2-letter office symbol. State the reason for the priority and, if needed associated office diagram(s), to the 311 CS/SCXP.
(NOTE: The information provided on this letter must not be identical to the information provided in the Justification block of the C4SRD. Instead, it should provide appropriate rationale for establishing this particular requirement as a priority from a command/mission degradation perspective).
- Provide annual certification for all installed telephone equipment and circuits (government and commercial), IAW AFI 33-111.
- Submit C4SRDs for the removal of unused telephone equipment and circuitry.
- Identify individuals in need of a PIN number and submit a letter for authorization signed by a 2-4 letter office of TCO. This letter should include the following information: name, rank/grade, organization/office symbol, duty title, telephone extension, and building number. You may send the letter by FAX (4-8001), distribution to 311 CS/SCMT or via e-mail to sandy.mayer@brooks.af.mil. Once the letter is submitted the customer will be contacted by via e-mail on when and where to sign for their PIN. The TCO or the PIN customer must contact 311th CS/SCMT when personnel are PCSing, retiring, or separating from the Base. This will ensure illegal PIN fraud. If personnel relocates with in Brooks City-Base the TCO (or PIN customer) will contact 311th CS/SCMT immediately so the necessary changes can be made, they DO NOT NEED A NEW PIN nor does a military individual who is

- transitioning from the military to civilian sector.
- Verify telephone directory information, IAW AFI 33-111 311 CS/SCMT.
 - Ensure DD Forms 2056 (Telephone Monitoring Notification Decal) are visibly displayed on all telephone instruments.
 - Establish internal procedures for ensuring compliance with all requirements.
 - Disseminate telephone-related customer education materials, including the distribution of telephone directories.
 - Ensure all unit/directorate personnel are trained on the use of their telephones, including special features. TCOs will contact 311 CS/SCXP, who will work with them to determine the type and extent of training required and establish a training schedule.
 - Maintain a continuity book, which contains the following information:
 - Description of duties (TCO handbook).
 - A point of contact by name, office symbol, and telephone number.
 - Requires publications or their location(s).
 - Control a log listing all approved request and their status.
 - Copies of all approved requests.
 - Copy of the latest annual certification and revalidation of telephone/data services report (Telephone Control Officer Equipment Record List).
 - Copy of TCO Appointment letter.
 - Work within your directorate to prioritize all telecommunications service request from the most critical to the least critical. Unless other actions are taken all requirements not prioritized by a directorate will be processed on a "first in-first out" basis and will assume routine status.
 - Attend TCO training/coordination meeting with 311 CS personnel to revalidate existing requirements and advise 311 CS personnel of each C4SRD's current priority standing relative to all the other C4SRDs yet to be completed for those directorates/agencies within your area of responsibility.
 - Insure future TCOs understand responsibilities listed above.
 - Submit annual verification letter(s) of appointed TCOs and/or TCO changes as they occur signed by a 2-letter office symbol to 311 CS/SCXP.

FEATURES & PROCEDURES: (Meridian phone system)

For programmed features, submit AF Form 3215 (example on page ix) to 311 S/SCXP, bldg. 619, Ext. 4-8000.

- CALL TRANSFER:** All in-dial calls may be transferred to another Brooks AFB extension.
 - Press the Transfer button.
The display clears and you will hear three beeps followed by a dial tone. The Transfer indicator goes on and the line indicator flashes.
 - Dial the number of the person you want to transfer the call to.
The display shows you information about the number entered.
 - Press Transfer button again.
The Transfer indicator goes out and the line indicator goes on.
 - Hang up.
The display clears and the line indicator goes out.
- CALL FORWARD:** When you want your calls to ring at another number:
 - Press Call Fwd button.
The Call Fwd indicator flashes.
 - Dial the number to which calls are to be forwarded.
 - Press the Call Fwd button again.
 - Do deactivate Press Call Fwd button.
The display shows the number you want your calls forwarded to.

DO NOT DISCUSS CLASSIFIED INFORMATION OVER NON-SECURE TELEPHONES

e. To forward calls to the closed for training recording, (training recording number 4-0101) repeat steps a, b, c, d.

3. CALL PARK: This allows one call to be held and later retrieved, from another extension.

a. Press the Call Park button.

You hear two beeps followed by silence. The Call Park indicator goes on.

b. Hang up.

The line and Call Park indicators go out and the display clears.

The call is now parked. You can still make other calls.

c. To retrieve the parked call. Press a line key on another phone.

The line indicator goes on.

d. Press Call Park button.

You hear three beeps. The Call Park indicator goes on.

e. Dial the number of the phone you parked the call on.

The display shows your number and information about the parked call.

You are now connected to the person whose call you parked.

4. CALL PICKUP: To pickup a call from another extension within your assigned Call Pickup Group.

a. Press any line key.

The line indicator goes on.

b. Press Pickup button.

The display shows you information about who you are connected to and the phone you "picked-up".

c. You are connected to the call.

5. RING AGAIN: Used for notification when the busy number becomes idle (on base only).

a. Press the Ring Again button.

The Ring Again indicator goes on and the line indicator goes out. The display clears.

When the line is free, you'll hear a tone and the Ring Again indicator flashes.

b. Press a line key.

The line indicator goes on.

c. Press the Ring Again button.

The line indicator goes on.

d. The number is automatically dialed.

You must press the Ring Again within a specified time after you hear the tone or the call is canceled.

e. To cancel Ring Again press the Ring Again button or ignore the tone.

The Ring Again indicator goes out.

6. INTERCOM: To make an Intercom call.

a. Press the Intercom button.

b. Pick up the receiver.

The intercom indicator goes on. You hear the phone ringing.

c. To answer an Intercom call if you are not using your phone. You hear ringing and the Intercom indicator flashes.

d. Press the Intercom button or wait a few seconds to be automatically connected.

The Intercom indicator goes on.

You hear the caller's voice through the speaker.

e. Pick up the receiver if you want to respond.

f. To answer an Intercom call if you are already using your phone.

(1). Press the Intercom button.

The display clears.

(2). Pick up the receiver.

(3). Press the line key the call is on.

7. MEET ME CONFERENCE: Individuals at Brooks AFB can set up a "Meet Me Conference" using the following steps.

a. Person requesting the conference must call the BAFB operator for a conference telephone number, give the operator the time, date the call is to be placed.

b. Call all the individuals that are required to be in the conference and have them call the telephone

number obtained by the operator on the scheduled date and time the conference is to take place.

c. The party requesting the conference must call the assigned number at the same time also. The first person calling that number will hear ringing until the second person calls after that each person will enter the conference as they call. Individual setting up the conference should confirm each entry before relaying the message.

d. Once the conference call is established the operator CAN NOT go back on the line to add individuals in. Once the call is made the person initiating the conference should not try to transfer or put the conference on hold. This will lock the conference, and anyone trying to call in.

8. TO REDIAL A NUMBER: To speak to the last person you called.

a. Press the line key originally used to call the person.

The line indicator goes on.

b. Press # key twice. The last number you called on that line is radiated.

FEATURES & PROCEDURES: (Analog phone system)

1. CALL TRANSFER: All in-dial calls may be transferred to another Brooks AFB extension.

a. Advise the calling party to hold while you transfer the call.

b. Depress the switch hook once, listen for the recall dial tone.

c. Dial new extension number, listen for ring, hang up.

2. CALL FORWARD: When you want your calls to ring at another number:

a. Lift handset, listen for dial tone.

b. Dial the call forward activation code, *72, you will hear a special dial tone.

c. Dial the number to which calls are to be forwarded.

d. Replace handset after you hear the confirmation tone.

e. To deactivate, dial *73. (It may be necessary to place a note on the phone as a reminder).

f. Recording, for "closed for training" forward phone to 4-0101). Repeat steps a, b, c, d.

3. CALL PARK: This allows one call to be held and later retrieved, from another extension.

a. Depress the switch hook ONCE.

b. Listen for special dial tone.

c. Dial Call Park code, *80.

d. Hang up.

e. The call will now be on hold against your extension number. It is now possible to process other calls on your phone.

f. To retrieve the call dial call park retrieval code, *81 plus the extension where the call is parked.

4. CONSULTATION HOLD: When you are on an established call and wish to consult privately with a third party:

a. Press switch hook once, listen for recall dial tone.

b. Dial third party's telephone number.

c. The original party is held, while you consult with the third party and cannot hear the conversation.

d. Press the switch hook twice to return to original conversation.

5. CALL PICKUP: To pickup a call from another extension within your assigned Call Pickup Group. Pick up your handset and dial the access code, 111. An immediate connection is made between you and the incoming call.

6. RING AGAIN: Used for notification when the busy number becomes idle (on base only).

a. When an extension is busy, depress switch hook ONCE.

b. Listen for special dial tone.

c. Dial Ring Again code, *78.

d. Wait for confirmation tone.

e. Hang up.

f. When the called extension is idle, your phone will emit four short rings. When your phone is answered, the waiting extension will begin ringing.

(1.) To deactivate Ring Again:

(2.) Dial ring again code, *78.

(3.) Wait for confirmation tone.

(4.) Hang up.

7. THREE-WAY CONFERENCE: Add a third party to an established conversation:

a. Place original call on hold by pressing the switch hook once; listen for recall dial tone.

b. Dial third party's telephone number; listen for ring back tone.

c. When third party answers, press switch hook once. P-Phone presses the transfer button again. All three parties are connected and can converse.

PHONETIC ALPHABET:

The phonetic alphabet shown below is used in pronouncing isolated letters and spelling out words normally difficult in understanding voice communications and is authorized for joint, combined, and intra-Air Force use.

A-ALPHA	J-JULIET	S-SIERRA
B-BRAVO	K-KILO	T-TANGO
C-CHARLIE	L-LIMA	U-UNIFORM
D-DELTA	M-MIKE	V-VICTOR
E-ECHO	N-NOVEMBER	W-WHISKEY
F-FOXTROT	O-OSCAR	X-X-RAY
G-GOLF	P-PAPA	Y-YANKEE
H-HOTEL	Q-QUEBEC	Z-ZULU
I-INDIA	R-ROMEIO	

OFF BASE OPERATOR ASSISTANCE:

There is a fee for off base operator assistance, and is not authorized from a government phone.

TOLL FREE NUMBERS:

Dial 99 + 1 + 800 + number. For information 99 + 1 + 800 or 99 + 1 + 888 + 555-1212. Be sure the number you are dialing is a toll free number.

SERVICE & EQUIPMENT REQUEST:

The following instructions are essential in requesting telephone service & equipment. Failure to submit required documentation will result in delayed or no service and or added charges to your phone bill from SBC.

- Unit TCO (Telephone Control Officer) must approve an AF Form 3215.
- Submit AF Form 3215 to 311 CS/SCXP for installations, modifications, discontinuations, reclassifications, or relocation's of telephones and proposed service locations to include bldg. and room number. (see example on page 78)
- Consult 311th CS/SCMP ext. 119 before calling Southwestern Bell.

- 4. Dormitory residents must call 119 for telephone service:
- 5. Installation or disconnection of telephone service in the base housing area call Southwestern Bell Telephone Company, 99 + 1 + 800 + 464-7928.

REPORTING THREATENING OR NUISANCE CALLS:

In the event you receive such a call, the following actions should be taken:

- 1. BOMB THREATS OR THREATENING CALLS RECEIVED ON GOVERNMENT TELEPHONE:
 - a. Try to keep the caller on the line.
 - b. Signal someone else to call 911, if no one is available call as soon as possible.
 - c. Obtain as much information as possible about the call or caller.

QUESTIONS TO ASK ON BOMB THREATS:

- When is the bomb going to explode?
- Where is the bomb?
- What kind of bomb is it?
- Why did you place the bomb?
- What does it look like?

DESCRIPTION OF CALLER'S VOICE:

- Male _____ Female _____
- Young _____ Old _____
- Tone of voice _____
- Accent _____
- Background Noise _____
- Is voice familiar? _____
- If so, who does it sound like? _____

REMARKS

- 2. NUISANCE CALLS:
 - a. Try to have the caller identify himself. When a voice asks, "Who is this?" ask instead, "Who do wish to speak to?" "What number did you dial?"
 - b. If the caller remains silent after you answer or makes any obscene or suggestive remarks, HANG UP. If calls continue notify 911. Furnish as much information as possible about the call/caller.
- 3. THREATENING CALLS RECEIVED ON BASE RESIDENTIAL TELEPHONES:
 - a. HANG UP! Call 911
 - b. CHECK LIST:
 - c. Time call was received and disconnected.
 - d. Exact wording of threat.
 - e. Person receiving call.
 - f. Unit Extension/bldg. number.

LONG DISTANCE CALLS

INTERNATIONAL SWITCH VOICE SVS (ISVS):

Commercial Overseas Government Official calls which are not served by DSN numbers. Dial or touch tone 185 for operator assistance on commercial overseas calls.

FTS DIALING INSTRUCTIONS:

Conus Government Official long distance calls which are not served by DSN or toll free numbers.

- 1. Enter 98 plus 1 plus the area code plus the number, followed by a pause code or after hearing four short beeps, enter your Personal Identification Number (PIN). Enter PIN or a message that states, "Please enter your PIN number."
- 2. For operator assistance dial 186.
- 3. When using a FAX machine or dial up modem use the following steps:
 - a) Enter 98+1 plus the number, followed by a 'pause' code, then the five digit PIN number. (Note: For details, see your owners manual, or software guide, for instruction on how to enter the 'pause' code for FAX machines and dial-up modems).

For assistance in using your PIN call the telephone trouble desk at 119 or Sandy Ross at 4-2321.

PERSONAL IDENTIFICATION NUMBER (PIN)

FTS2001 long distance calls require the use of a Personal Identification Number (PIN), which is issued by the 311th

CS/SCMT. Long distance calls should be placed only for government official business CONUS Government Official long distance calls which are not served by DSN or toll free numbers should be made via FTS2001. To use FTS2001, your telephone must be configured properly. If you are unsure if your telephone is FTS2001 compatible, call the telephone trouble desk at 119. PIN's must be safeguarded against loss and fraudulent or unofficial use. Failure to do so may result in disciplinary action and direct billing. When you are transferred to another organization, separate from the service, or no longer require your PIN to perform official duties, please notify Sandy Mayer at 4-2321. An authorized letter must be approved from your Commander, Chief, or TCO authorizing the individual to be issued a Personal Identification Number.

HOURS OF OPERATION FOR PIN

In effort to enhance service, we have established a set schedule for our customers to pick up Personal Identification Numbers. All personnel identification number forms can be picked up in bldg 619 on Monday, Wednesday or Friday from 0800-1100 hrs or by appointment only. Questions regarding this matter can be addressed to Ms. Sandy Mayer.

FEDERAL CALLING CARD

Personnel in possession of such cards are aware of the dialing procedures to be used. If an emergency condition exist the base operator on duty will assist in using the card.

INCOMING 1-800 CALLS FROM TDY PERSONNEL:

This number is for TDY to and from Brooks City-Base personnel ONLY. Customers may redeem the number from their TCO. There are several important things TDY personnel can do to enhance the completion of their call:

1. When the Base operator answers, give your name, organization, symbol & duty extension. State that you are TDY.
2. If the call is an emergency say so at the time.
3. Please place your TDY call(s) into Brooks operator after 1630.

OFF-NET CALLS:

Military installations that will "OFF NET" on government official calls in their area are annotated by an asterisk. listing, Dial desired DSN number, identify yourself and state the nature of your call. Limit your call to ten minutes. A control number and a official letter are required for ALL conferences off base using Brooks AFB lines. For information contact Ms. Sandy Mayer at DSN 240-2321 or 536-2321.

DSN INSTRUCTIONS:

Defense Switched Network (DSN) is the principle long-haul, voice communications network within the Defense Communication System. The purpose of DSN is to handle essential command and control, logistic, intelligence, diplomatic, operations, and administrative traffic. DSN is not authorized for unofficial or personal calls.

- 1. For the maximum time required to accomplish the official business and will not normally exceed five minutes.
- 2. Use graphic, facsimile or unsecured data devices only when approved by the Chiefs of the Military Services and heads of DOD agencies or activities, normally not to exceed a continuous transmission time of 18 minutes nor a total of one hour during normal business hours.

ROUTINE DIRECT DIAL:

Dial 94 + DSN number (no second dial tone will be heard). HIGHER DSN PRECEDENCE & OVERSEAS CALLS WITH OPERATOR ASSISTANCE:

- 1. Out dial 188, give the following information to the operator:

- a. Precedence and location of the call.
- b. DSN number desired.
- c. Essential information pertaining to placing a call.

DSN PRECEDENCE SYSTEM:

National Communication System established the following voice precedence. Users must use the lowest precedence consistent with the operational mission or necessities for each call placed.

- 1. FLASH: Reserved for alerts, warning, or other emergency actions having immediate bearing on national, command, or area security.
- 2. IMMEDIATE: Reserved for vital communications.
 - a. Which have immediate operation effect on tactical operations.
 - b. Which directly concern safety or rescue operations.
 - c. Which affect the intelligence community operational role.
- 3. PRIORITY: Reserved for calls, which require prompt completion:
 - a. National defense and security.
 - b. The successful conduct of war, or to safeguard life or property, which do not require higher precedence. Normally PRIORITY will be the highest procedures that may be assigned to administrative matters for which speed of handling is of paramount importance.
- 4. ROUTINE: Routine Precedence is reserved for all other official communications.
 - PREEMPTION: DSN calls are subject to preemption by higher precedence.

MINIMIZE:

- 1. Minimize is a condition to control and reduce electrical communications during exercises or periods of emergency. During such periods, relevant and vital message traffic must not be delayed; therefore, other traffic must be drastically reduced.
- 2. Minimize may be imposed by DOD and Air Force areas as conditions warrant.
- 3. The control of electrical messages and accounting of telephone calls during minimize is the responsibility of the originator.
- 4. Operator will ask if the call is minimized considered.

Switchboard Operations
 311 CS/SCMT
 8045 LINDBERGH LANDING
 BROOKS CITY-BASE 78155-5335
 2006

We need your assistance in evaluating the quality of services you receive from the telephone operators and telephone directory clerk. Please take a few minutes to answer the questions in this brief survey and return it to the above address. Please circle your responses. Comments are requested on marginal and unsatisfactory responses.

Thank you for helping us support you through better service!

(1 - Unsatisfactory, 2 - Marginal, 3 - Satisfactory, 4 - Excellent, 5 - Outstanding, 6 - N/A)

I. OPERATOR ASSISTANCE

1. Operator response time	1	2	3	4	5	6
2. FTS and DSN assistance	1	2	3	4	5	6
3. Overseas call assistance	1	2	3	4	5	6
4. Directory assistance (Information)	1	2	3	4	5	6
5. Operator courtesy	1	2	3	4	5	6
6. Operator accuracy	1	2	3	4	5	6
7. Operator speed	1	2	3	4	5	6

II. BASE TELEPHONE DIRECTORY

1. Arrangement of contents	1	2	3	4	5	6
2. Ease of use	1	2	3	4	5	6
3. Accuracy	1	2	3	4	5	6
4. Frequency of issue (presently 1 per year)	1	2	3	4		

(1 - Sufficient , 2 - Too frequent, 3 - Not frequent enough , 4 - Not used)

III. How do you rate the overall service provided by Switchboard Operations, telephone operators, and the directory clerk (publishes the base telephone directory)?

1	2	3	4	5	6
---	---	---	---	---	---

IV. Comments/suggestions:

What can we do to improve our service to you? _____

• If you wish a personal reply to any of your questions or comments, please complete the form on the reverse side of this survey and return the entire survey to 311CS/SCMT, 8045 LINDBERGH LANDING, BROOKS CITY-BASE TX 78155-5335.

• If you would like a copy of the Randolph AFB Telephone Directory,* please complete and detach the form on the bottom of this survey. Return to 311CS/SCMT, 8045 LINDBERGH LANDING., BROOKS CITY-BASE TX 78155-5335.

* (Limited quantities available)

I would like a copy of the base telephone directory. (Limited quantities available)

I would like a reply to the question(s) indicated on the reverse and/or my comment(s) in section IV

ALPHABETICAL LISTINGS

ALPHABETICAL LISTINGS.....127

1. STANDARDS OF SERVICE. Operators are instructed to be courteous. Similar consideration on your part is expected. Users will not reprimand nor enter into unnecessary conversations with the operators. Valid service complaints should be referred to the Chief Operator, 925-6848.

2. USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS. Personal calls (such as calls to speak to spouse/minor children or to arrange for emergency repairs to residence or automobile) that must be made during the working hours over the commercial local network may properly be authorized as being in the best interest of the government if the call is consistent with the following:

- a. It does not adversely affect the performance of official duties by the employee or the employee's organization.
- b. It is of reasonable duration and frequency.
- c. It could not reasonably have been made at another time.
- d. In the case of long distance calls:
 - (1) Charged to employee's home telephone number.
 - (2) Made to an 800 toll-free number.
 - (3) Charged to a personal telephone credit card.
 - (4) Collect to long distance number.

3. RESPONSIBILITY OF TELEPHONE USERS:

- a. Official telephones will not be used for personal messages except as outlined in paragraph 2 above.
- b. Consult your telephone directory for the correct number prior to dialing. This allows the information operator to handle only essential calls and provide more efficient service.
- c. The proper use and care of telephone equipment is your responsibility. Under no circumstances will subscribers move, alter, place attachments on or make additions to telephone equipment.
- d. Telephones are not secure. Classified information will not be discussed in a telephone conversation at any time.
- e. It is a misdemeanor for anyone to use the telephone as a means of conveying obscene or indecent language or to make anonymous or repeated calls to annoy, abuse, embarrass or harass. It is the responsibility of all users to report any such activity to their security sections.

f. Requests for telephone directories and phone number changes will be made through your unit's Telephone Control Officer (TCO) who will coordinate with the Telephone Directory Clerk.

g. Emergency numbers are shown on the front cover of this directory, dial "0" for operator assistance with emergency calls.

4. RESPONSIBILITY OF STU-III TELEPHONE USERS:

- a. STU-III is a secure phone used for discussing unclassified official use only and classified information up to TOP SECRET. The key on the phone determines the classification.
- b. For STU-III service, call your unit security manager within your organization.

5. REPORTING TELEPHONE TROUBLE.

When reporting telephone trouble on base, call the Telephone Repair Office, at 925-2666, option #2. Only authorized telephone maintenance personnel will install, remove, relocate, or modify base telephone equipment and wiring. Any indication of unauthorized tampering will be reported to the Security Police and the Telephone Complex, Chief of Maintenance.

6. RESPONSIBILITY OF TELEPHONE CONTROL OFFICERS (TCO):

- a. Telephone Control Officers will perform their duties in accordance with AFI 33-111, para 9.2.
- b. The maintenance of accurate listings is dependent upon the information received from users. Changes, erroneous or obsolete information should be changed as it occurs. KEEP YOUR TELEPHONE INFORMATION UP TO DATE. Send all changes via email to: Telephone.Directory@lackland.af.mil.

7. REQUEST FOR TELEPHONE SERVICE.

Requests for official telephone service will be submitted in writing to arrive at 37CS/SCXH at least 60 working days prior to the date required. Request will be submitted on AF Form 3215 (JUN01) (IT/NSS Requirements Document) signed by the respective unit Telephone Control Officer (TCO). An office diagram showing locations of existing and proposed service must accompany all service requests. For assistance regarding an official telephone service request contact the 37CS/SCXH ext 5-0387. Discontinuance of service is the responsibility of the user and prompt notice must be given to 37CS/SCX to assure discontinuance of service on the date desired.

8. REQUEST FOR COMMERCIAL/PRIVATE TELEPHONE SERVICE. Commercial/private telephone service requirements will be handled by the Commercial Telephone Company (Southwestern Bell). Personnel desiring this type

of telephone service should contact the commercial telephone company's business office, 1-800-464-7928. For private telephone customer service and for commercial telephone customer service, call 1-800-585-7928.

9. EXCAVATING. You should consult the 37CES/CEOI 671-3533 prior to any excavating within the confines of Lackland AFB.

10. WESTERN UNION:

- a. Unofficial Western Union telegrams may be telephoned direct to the Western Union Telegraph Company at 1-800-325-6000 from any pay station located on base.
- b. Unofficial messages and money order services are available on Lackland, Bldg 2306, Bldg 1285, and at the San Antonio main office, 129 W. Commerce Street.

11. STRAIGHT TALK CENTER: The office of Public Affairs operates a Rumor Control Center 24 hours a day during emergencies and other critical times as directed by the 37 TRW Commander. Anyone hearing a serious rumor or having knowledge of serious developments affecting Lackland AFB should call 671-3397 to report it and (or) obtain the correct facts.

12. SECURITY

- a. The base telephone system is NOT secure. DO NOT discuss classified information over the telephone. COMSEC is everybody's business.
- b. Military communications/base communications facilities are subject to monitoring activities associated with preserving the national security of our country.
- c. Personnel who make unauthorized disclosures of classified or sensitive official defense information during the use of the telephone are subject to disciplinary action.
- d. Communications facilities of this Command have been and will continue to be monitored by activities concerned with Communications Security. All instruments will have DD Form 2056 (MAY00) (Telephone Monitoring Notification Decal) attached in accordance with AFI 33-219.

13. MINIMIZE

- a. MINIMIZE is a condition imposed by commanders to control and reduce electrical communications by both message and telephone traffic, during exercises or periods of emergency.
- b. MINIMIZE notifications are first received by base communications facilities which inform the base administration office for dissemination through organizational administrative channels.
- c. When MINIMIZE is imposed; users of DoD

electrical communications facilities must determine that:

(1) The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

(2) Electrical transmission is the only way to get information to the addressee in sufficient time to accomplish its purpose.

d. Authorized means of communications such as the U.S. Mail, the Defense Courier Service or an individual as a courier or messenger should be used instead of electrical means when MINIMIZE is imposed.

e. Unit Commander/TCO will ensure immediate understanding and compliance by staff members when the orders to effect MINIMIZE is received. TCO's will only approve "MISSION ESSENTIAL."

14. NETWORK CAPABILITY: Your telephone system is centrally located on Kelly USA.

0	Lackland AFB Operator Assistance
113	Lackland AFB Directory Assistance
292-7100	59th MDW-Wilford Hall Medical Center

99+221-1211	Fort Sam Houston
99+916-4141	Brooke Army Medical Center

If you have any further questions, see the dialing instructions page of this directory.

15. REPORTING NUISANCE/BOMB THREAT CALLS:

a. Malicious, threatening, abusive, indecent, annoying, or harassing telephone calls, including those in which obscene or profane language is used, are prohibited by state and federal laws. The following actions should be taken:

(1) NUISANCE CALLS.

Make the caller identify himself. When a voice asks, "Who is this?" ask instead, "What number did you dial?" or "Who do you want?" If the caller remains silent after you answer, or makes any obscene or suggestive remarks, "HANG UP! If the calls persist, notify the Security Police at 671-2018. Furnish as much information as possible about the call and the caller.

(2) BOMB THREATS OR OTHER THREATENING CALLS.

(a) Signal someone else to call 671-1100 and ask them to try to trace the call. (NOTE: Security Police will alert communications personnel to initiate trace action on all nuisance/bomb threats or threatening calls).

(b) If no one is available, DO NOT HANG UP, but use another phone to notify the Security Police and (or) call 671-1100 to trace the call.

(c) Obtain as much information as possible about the call/caller using AF Form 440 (NOV90) which should be located next to every telephone

16. DIRECTORY ASSISTANCE CALLS: No local off base directory assistance is available.

17. CONFERENCE CALLS. All telephones on Lackland AFB, with the exception of a few special feature phones are provided direct user and operator assist three party conference call capability. Procedures are:

a. CONSULTATION HOLD. To consult with another party and exclude the original party:

(1) While you have a party on the line, depress and release the hook switch ONCE. You will hear a special dial tone.

(2) Dial the extension you wish to consult with.

(3) When finished consulting, wait for the party to hang up. Then depress and release the hook switch once to be returned to your original call.

b. THREE-WAY CONFERENCE. To add a third party to a call already in progress, follow the same procedures for consultation hold, but when you have reached the third party, depress and release the hook switch ONCE. A 3-way conversation will be initiated. (NOTE: IF during the attempt to achieve CONSULTATION HOLD or a THREE-WAY CONFERENCE the third party's number is busy or doesn't answer, depress and release the hook switch TWICE to return to your original call.

c. MEET-ME-CONFERENCE (Ten Parties). To request a Meet-Me-Conference, dial 925-6848 or send an email to Telephone.Directory@lackland.af.mil and request that the telephone supervisor assign you a directory number to be dialed at a designated date and time. Each conferee is automatically added to the conference when the designated conference number is dialed.

d. OPERATOR ASSIST CONFERENCE. The operator conference allows an operator to establish up to ten party conference connections which includes designated parties, excluding the operator or designated parties including the operator. Dial "0" and request the operator add on the requested parties. Be sure all information is available before requesting the conference. Consider time difference.

18. OFFICIAL LONG DISTANCE CALLS:

a. To place long distance calls, the order of

preference least cost to the Government is as follows:

(1) Defense Switched Network (DSN) for DOD activities.
(2) Off-Net DSN (all calls which leave the network for completion).

(3) 800 Toll-Free Service.

(4) FTS (leased toll circuits).

b. DSN. This method will be attempted before considering the use of commercial toll facilities. Dial "94" and the DSN number.

c. OFF-NET DSN. Call the DSN assistance operator located in the immediate vicinity of the civilian party you are attempting to reach. When the DSN operator answers, request Off-Net assistance and provide the 7-digit commercial telephone number of the party. (The decision to off-net a call rest with the management of each switchboard and only OFFICIAL Government calls will be honored where no toll charges are incurred).

d. FTS-2000 (Federal Telecommunication System) is the system used on Lackland AFB to place calls to any number not available locally or through DSN. MCI is the system used to place overseas calls to numbers that are not available through International Switch Voice Service (ISVS). These calls incur long distance charges that are billed to Lackland AFB. Calls must be certified as official by the organization/individual placing the call.

19. COMMERCIAL LONG DISTANCE CALLS:

a. Personnel who wish to place commercial long distance official toll calls must first obtain authorization from their respective Telephone Control Officer (TCO). The TCO will log your call on an AF Form 1072 (AUG73) for billing verification.

b. Personal calls are authorized as defined in paragraph 2.

20. TOLL FREE INFORMATION SERVICE:

Telephone subscribers with access to toll-free (1-800) numbers are encouraged to use this service if available to call commercial customers prior to placing official toll-calls. To determine whether a commercial customer has a toll-free number, dial 99 + 1-800-555-1212 to obtain information. Dial 99 + 1 + 800 + number to place the call direct.

21. SPECIAL BILLING CALLS:

a. A COLLECT CALL is an incoming call to a base extension for which charges are accepted. Local procedures will be followed to ensure proper verification can be accomplished upon receipt for monthly telephone bills. If you have any questions, please call the Telephone Billing Office, 925-3988. Operators will not accept collect calls!

BASIC FEATURES DIALING INSTRUCTIONS

FEATURES

PROCEDURES

MISCELLANEOUS

TRANSFER CALL
(To transfer call to third party)

Depress hookswitch one second/special dial tone /dial third party/hang up/call is transferred

TONES

NOTICE

THIS DIRECTORY IS COMPILED FROM LISTINGS FURNISHED BY ORGANIZATIONS AND YOU — THE USER

Keep Your Telephone Information UP-TO-DATE

Report All Changes, Errors, Additions Or Deletions As They Occur To Your Telephone Control Officer (TCO)

Remember: The directory is only as accurate as the information we receive from you.

TCOs MUST FORWARD THIS INFORMATION TO 12 CS/SCBCS IN LETTER FORMAT.

ANY QUESTIONS REGARDING CHANGES TO THE DIRECTORY SHOULD BE
DIRECTED TO THE BASE TELEPHONE CONTROL OFFICER, 12CS/SCBCS, 652-7444.

DO NOT DISCUSS CLASSIFIED INFORMATION OVER THE TELEPHONE

MENU BUTTONS:

Menu - Used to Enter Softkey Area

Exit - Used to exit the Softkey Area

Softkey - Four buttons located below display

Prev/Next - Used to go from screen to screen

SPEED DIALS:

HARDKEYS - Black buttons on the face of the phone

1. Press **Menu**
2. Press Program Button (**Prog**)
3. Press **Blank** button you wish to program
4. Enter number and the # to complete

SOFTKEYS - In the display at the top of the phone

1. Press **Menu** button
2. Press **Prog** (Program Button)
(You may have to press the Next button to locate Prog button)
3. Press **Menu** button again
4. Press AD Button you wish to program
(You may have to press the Next button to locate the AD's)
5. Change number: (1) Yes (2) No
6. Enter reponse: 1 or 2
7. Dial the telephone number you wish to store
(Include 99 or 98 if it's an outside number)
8. Press # to confirm
9. Enter label: (1) Yes (2) No
10. Spell out label on Dial pad up to 5 characters
(Pressing the dial pad key enters the first letter on the key. Continue to press the key until the character you want appears. If the next letter you want appears on the same key, press * to advance to next space)
11. Press # to confirm. Hang up.

VOICE FEATURES:

Abbreviated Dialing (AD) - Allows you to store selected telephone numbers for quick, easier dialing.

Button View - (btn-view) Allows you to see what is programmed behind a button. Press Btn-view then press desired call appearance.

Call Pickup - Allows you to answer a specified person's call at your telephone for another person (Programmable by System Administrator Only).

Conference - Allows you to add parties to a call, so that you may conduct a 6-way conversation on a multiappearance telephone or a 3-way conversation on a single-line telephone.

Directory - This is a telephone directory of all the associates programmed in your telephone switch at your location. Call-Display will dial the number.

Drop - Disconnects from a call without requiring you to hang up the handset or press the switchhook. You will hear dial tone again after pressing this button. This feature can also be used to disconnect the last party added to a conference call.

Program - Program button can be used to program AD button.

Send Calls - Temporarily sends all your calls to your first point of coverage when you will be away from your desk for a while, or when you do not wish to be interrupted by telephone calls. Your first point of coverage is where your calls go FIRST when you do not answer.

Transfer - Transfer a call from your telephone to another extension.

DIALING INSTRUCTIONS:**Local Calls:**

Dial 99 + the seven or ten digit number

Domestic Long Distance Calls:

Dial 98 + area code + rest of number + 4 digit account # (XXXX)

International Long Distance Calls:

Dial 98 + country code + rest of number + DPC account#

Toll Free:

Dial 99 + 1-800 + rest of number

DSN:

Dial 94 + seven digit number

DSN International:

Dial 94 + country code + rest of number

TELEPHONE FUNCTIONS:**CALL APPEARANCES (LINES)**

You have one number and three lines. The Call Appearances are located as Line A, B, & C on the face of your phone. You can dial out on any line. Lines A & B are incoming lines. You'll never receive a call on line C.

SELECTING A RING PATTERN

To choose one of eight personalized ringing patterns:

1. While on hook, press **Conf**.
2. Continue to press (and then release) **Conf**. to cycle through rings.
3. Stop pressing **Conf**. to choose desired ring pattern.

FIXED BUTTONS:**CONFERENCE:**

To add additional parties to an existing phone call (total of 5 parties plus yourself = 6).

1. Press **Conf**.
2. Dial number of party you wish to add to call
3. Wait for party to answer
4. Press **Conf**.

If no answer, retrieve call by pressing flashing extension button.

The display will show the number of other parties on the call.

Conference participants can be gathered and calls can be subsedly transferred to another phone.

CONFERENCE: Active Call With Call on Hold

1. While on active call, press **Conf**.
2. Press the call appearance of first call holding (Slow flashing call appearance button).
3. Press **Conf**. again.

HOLD:

1. Press **Hold** to put call on hold to answer another call, make a call, or perform another task (the display changes to origin of the next call).
2. To return to held call, press flashing extension.

MUTE:

1. Press **Mute** to prevent other party from hearing you (red lamp on).
2. Press **Mute** again to resume talking (red lamp off).

NEW MESSAGE INDICATOR:

Indicates you have new voicemail messages.

REDIAL:

To automatically redial last number dialed, internal or external, press **Redial**.

International calls dialed with account codes will not be able to be redialed

SPEAKERPHONE:

1. Press **Spkr**.
2. Place or answer a call
3. Adjust the speakerphone volume if necessary

VOLUME CONTROL:

- Controls volume of ringer while handset is on.
- Controls volume of handset while handset is off hook.
- Controls volume of speakerphone while speaker is active.

FEATURE BUTTONS:**BUTTON-VIEW:**

1. Press **Menu**
2. Press Button View (**Btn-view**)
3. Press button you wish to view

CALL-DISPLAY:

1. While using the Directory
2. Press **Call Display** to call the name shown in the Display

CALL FORWARDING:

***22 On/*23 Off**

1. Press **Call Forward**
2. Dial number calls to be forwarded to hang up.
(The button will illuminate green to confirm activation)
3. To cancel - Press **Call Forward** again

DIRECTORY:

1. Press **Menu**
2. Press (Directory) **Dir**. button.
3. On the dial pad, enter the last name of person to dial.
4. Use **Next** in the softkey area to scroll through the choices.
5. Press **Call-Display** to dial the number.

DROP:

1. Press **Menu**
2. While on a conference call, press **Drop** to release the last call added to the conf.

GENERAL DELIVERY MAILBOX:

(The Button will illuminate green to indicate a new message)

1. Press **Voicemail**
2. Follow the prompts

HEADSET:

(To answer a call or disconnect from a call while using a headset)

1. Press **Headset** to answer or to disconnect

PICKUP:

***78 & extension**

1. Press the **Pickup** button
(The display will show the called information)
2. Caller on the line

SEND CALLS:

***33 On/*34 Off**

1. Press the **Send Calls** (SAC) to activate
(The button will illuminate green to confirm activation)
2. Press again to de-activate

VOICEMAIL ACCESS:

1. Press **Voicemail**
2. Follow the prompts

1. STANDARDS OF SERVICE: The primary objective of the Randolph AFB telephone operators is to provide the best telephone service possible consistent with the facilities at their disposal and the information provided by the system subscribers. All telephone subscribers are entitled to the same grade of service. Preferential treatment or service should not be expected of telephone operators. This does not preclude emergency service when an actual emergency exists.

2. PROMOTING GOOD TELEPHONE SERVICE

- a. AUTHORIZED USE:** Military telephones and voice facilities are authorized for Government official communications only and must be restricted to calls essential to the accomplishment of the mission except as specified in paragraph 4.
- b. COMPLAINTS:** Operators are instructed to be uniformly courteous. Similar consideration on the part of subscribers is expected. Users will not reprimand nor enter into unnecessary conversation with the operators. Operators are forbidden to receive service complaints and are instructed to refer complaints to the Supervisory Telephone Operator at 652-3315. They are not permitted to give their names, only their operator numbers. Please note the operator's number when registering a complaint.
- c. CONVERSING WITH OPERATORS:** Telephone operators have been thoroughly indoctrinated in the necessity of courtesy, accuracy, and speed. Limit conversations with operators to requests for pertinent information, and their response in providing instructions for the placement of calls. Unnecessary conversation consumes time and prevents other users from receiving prompt attention and service.

3. PROPER USE OF TELEPHONES: The service received from the base telephone system depends upon proper usage by subscribers. The following suggestions are offered:

- a. BREVITY.** For economy and maximum use of available facilities, telephone conversations should be as brief and concise as possible. This is particularly true of long distance and international Defense Switched Network (DSN) calls.
- b. PLANNING CALLS.** Before dialing the operator to place a long distance call, be sure you have the correct number, your conversation planned, and all available information needed to complete your call. Consult your directory for the correct number before dialing directory assistance. When requesting information from the operator, have pencil and paper handy to write down the telephone number.
- c. PHONETIC ALPHABET:** The phonetic alphabet shown below in pronouncing isolated letters and spelling out words normally difficult to understand over voice communications is authorized for combined, joint, and intra-service use.

A- ALPHA	J- JULIETT	S- SIERRA
B- BRAVO	K- KILO	T- TANGO
C- CHARLIE	L- LIMA	U- UNIFORM
D- DELTA	M- MIKE	V- VICTOR
E- ECHO	N- NOVEMBER	W- WHISKEY
F- FOX	O- OSCAR	X- X-RAY
G- GOLF	P- PAPA	Y- YANKEE
H- HOTEL	Q- QUEBEC	Z- ZULU
I- INDIA	R- ROMEO	

4. USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS: Personal calls that must be made during duty hours over the commercial local or long distance network are authorized if the calls are consistent with the following:

- a.** They do not adversely affect the performance of official duties by employees or the employees' organization.
- b.** They are of reasonable duration and frequency.
- c.** In the case of long distance calls, the calls are charged to the employee's home telephone number, made to a toll-free number, charged to a personal telephone credit card, or made collect to the distant number.
- d.** To place personal calling card, collect, and third number billing calls from Randolph, dial the toll free number for your long distance carrier as shown in the chart on this page.
- e. TDY OFFNET CALLING:** When requesting offnet patching to your home, you should
 - (1) Inform the base operator you are TDY from Randolph.
 - (2) Identify yourself by name, rank, organization, and office symbol.
 - (3) We encourage you to place your calls between 1700 and 0500 local time Monday through Friday, and anytime on weekends or holidays. Emergency calls are exempt from any time restriction.
 - (4) Limit your offnet requests to one 15 minute call per week.
- f. MORALE CALLS:** Air Force Policy permits the use of DSN for Health, Morale and Welfare (HMW) calls for active duty members and Air Force Civilians in unaccompanied status at isolated or remote locations, or TDY for more than 14 days, regardless of commercial telephone availability.
 - (1) The call should be placed through the originating installation operator or, in the absence of an installation operator, from a telephone under the commander's supervision (i.e., command post,

If you use:	and you are requesting:	then dial:
AT & T	Calling card, Collect, or 3rd number billing	1-800-CALL-ATT (1-800-225-5288) and follow the voice prompts
SPRINT	Calling card billing	1-800-877-8000 Listen for the tone Dial 0+AC+number Listen for second tone and enter the calling card number
	Collect or 3rd number billing	1-800-877-8000 Listen for the tone and wait for SPRINT operator assistance.
MCI	Calling card billing	1-800-888-8000 Listen for the tone and follow the voice prompts
	Collect or 3rd number billing	1-800-COLLECT (1-800-265-5328) Listen for the tone and follow the voice prompts

morale call tent) to ensure the prescribed controls are adhered to.

- (2) Callers should state the purpose of the call (Morale Call/Hearths Apart) and identify the originating location.
- (3) Calls are placed at ROUTINE precedence, and must not incur a toll charge to the base. Please try to limit to one 15 minute call per week.
- (4) Calls will be processed during duty hours when official traffic permits, and must not interfere with operational requirements. Calls are subject to preemption by higher precedence calls.
- (5) Immediate family members of active duty members in unaccompanied status or on extended TDY may place outgoing morale calls as part of the Family Support Center's (FSC) "Hearths Apart" program. Family members must register with the FSC for authorization to place morale calls. The same provisions as outlined in paragraphs (1) - (3) apply.
- (6) Family members are encouraged to place their calls between 1700 and 0500 Mon through Fri, and anytime on weekends and holidays.

g. WESTERN UNION: Unofficial Western Union telegrams may be telephoned directly to the Western Union Telegraph Company, 1-800-325-6000, from any pay station located on base. Randolph Brooks Federal Credit Union and the Base Exchange also provide Western Union services. Transactions at the Exchange must be made in person at the cashier's cage. The credit union performs this service for members between 0830 and 1630 hours. Members may dial 945-3300 for member service and follow the voice prompts for a credit union representative.

5. THE RANDOLPH AFB TELEPHONE DIRECTORY

- a. DIRECTORY FORMAT:** Format of the base telephone directory is prescribed by AFI 33-111. Only those items of information which facilitate the use of the base telephone system are permitted. Three major sections are used in the directory: General Information, Organizational, and Classified.
- (1) The General Information Section contains the necessary information and instructions to obtain the best available telephone service. A list of frequently called Defense Switched Network (DSN) numbers is included.
 - (2) The Organizational Section consists of a listing of all units serviced by the base telephone system. Organizations in this directory are listed in the following order:
 - * HQ AETC
 - * HQ 19 AF
 - * 12 FTW
 - * Associate Organizations
 - (3) Under each unit's designation, the command section is followed by a functional list of principal staff offices arranged in alphabetical order by office symbol. This section reflects the complete organizational structure from the unit commander through the lowest functional section.
 - (4) The Classified Section consists of an alphabetical listing of all the principal activities by base function, mission, or acronym.
- b. DIRECTORY CHANGES:** The Randolph AFB telephone directory is compiled from listings furnished by organizations and individuals via their Telephone Control Officers (TCO). TCOs should keep the Base Telephone Control Officer apprised of all changes in telephone numbers and key personnel. Additions, deletions, or corrections must be submitted as they occur. The directory can only be as accurate as the information furnished.

c. DISTRIBUTION: TCOs are responsible for annual distribution of base telephone directories in their area of responsibility. They establish annual requirements for the number of directories desired. Request telephone directories through your unit's TCO.

6. RESPONSIBILITY OF TELEPHONE USERS: The base telephone system is Government owned and maintained. Subscribers are responsible for the proper use and care of installed telephones and associated equipment.

a. TAMPERING:

- (1) **Under no circumstances will persons other than authorized telephone maintenance personnel move, alter, affix device, or make additions to telephone equipment.** Tampering with telephones in any manner is prohibited. Malicious damage, removal, relocation, or modification must be reported to the Telephone HELP Desk, extension 652-2015 opt 1.
- (2) If equipment is tampered with, it will be removed from service immediately. Whoever willfully or maliciously damages or destroys any of the works of any radio, phone, cable station, system, or other means of communications operated or controlled by the USAF, whether constructed or in process of construction, or willfully or maliciously interferes in any way with the working or use of such line or systems shall be fined not more than \$10,000 or imprisoned not more than 10 years or both. (Title 18, S 1362)

b. EXCAVATING: Consult with Communications Cable Systems (12 CS/SCMPW), extension 652-2881, prior to digging ditches, post holes, excavation or construction of any kind within the confines of Randolph AFB.

c. CARE OF TELEPHONE EQUIPMENT: The telephone is a delicate instrument and needs proper treatment in order to provide reliable service.

- (1) Apply only necessary pressure to the buttons of the telephone; don't pound on the buttons.
- (2) Don't allow the handset cord to become twisted and knotted.
- (3) Don't alter, move, or affix devices to your telephone. Ask your TCO to submit an AF Form 3215, C-4 Systems Requirements Document, whenever you need to relocate or alter telephone equipment. Make your request well in advance of the date by which you would like the equipment moved.
- (4) Don't attempt to fix your telephone. Call the HELP desk, ext. 652-2015 opt 1, for the telephone trouble desk.
- (5) To release the buttons on a telephone key set after you hang up, use the HOLD button. Do not pound the telephone or partially depress other buttons.
- (6) Don't block telephone equipment cabinets, equipment cross-connect blocks, or telephone terminals with desks, file cabinets and boxes of material, etc. A minimum 3-foot clearance is required in these areas.
- (7) Don't attempt to clean the telephone instruments using any "409" type spray cleaner. It will destroy integral parts of your telephone. If a phone needs cleaning, dampen a cloth with a mild cleaner and rub lightly until clean.
- (8) Do not place your telephone on hold when you will be out of the office or don't want to be disturbed. Doing this deprives another person of service and ties up Central Office equipment. If a phone is placed on hold for over 15 minutes, the telephone switch computer automatically disconnects that line and the user must call the HELP desk (652-2015 opt 1) to have it

reconnected. Repeated misuse of the HOLD feature can cause serious equipment damage, and you risk having your telephone removed. Call extension 652-7444 for features that offer alternatives to placing your line hold.

d. USE OF IMPROPER LANGUAGE: The use of profane or obscene language over the telephone is prohibited by Federal and State statutes. It is a misdemeanor for anyone to use the telephone as a means of conveying obscene or indecent language or to make anonymous or repeated calls to annoy, abuse, embarrass or harass. It is the responsibility of all users to report any such activity to their security sections. Failure to observe the law will constitute cause for disconnecting telephone service.

7. COMMUNICATIONS SECURITY (COMSEC): Lax security concerning the telephone can range from leaving the telephone off hook, saying more than what is needed to be said, or attempting to "talk around" classified information.

- a. Telephones are not secure.** Classified information will not be discussed at any time during a telephone conversation.
- b.** Personnel who make unauthorized disclosures of classified or sensitive official defense information during the use of the telephone are subject to disciplinary action. (Title 18 U. S. Code)
- c.** Every telephone should have a DD Form 2056, Consent to Telephone Monitoring decal Telecommunication Monitoring Program. It warns people not to discuss classified information on the telephone, and also serves as legal authority for monitoring telephone conversations.
- d.** Do not transmit classified information over unsecure telecommunication systems. All DoD telecommunication devices are subject to monitoring. Using DoD telecommunication systems constitutes consent to monitoring.
- e.** For assistance with COMSEC issues, contact 12CS/SCBS, C4 Systems Security, extension 652-2896.

8. STU III (SECURE TELEPHONE UNIT)/STE (SECURE TELEPHONE EQUIPMENT): To ensure the security of conversations involving classified information, use a Secure Telephone Unit - Third Generation (STU-III). There are approximately 220 STU-III/STEs on Randolph AFB. STU-III/STEs are part of a worldwide network of encrypted secure voice communications for your organization, other DoD activities, and certain non-DoD offices. They can be used to discuss classified, sensitive but unclassified (SBU), or unclassified information. The use of STU-III/STEs is controlled by access list, or letter from commanders or division chiefs, together with proof of security clearance and valid requirement. TDY personnel and others not on an access list but having a need to use the system must contact their sponsoring organization.

9. REPORTING TELEPHONE TROUBLE: Report telephone trouble to the HELP desk, extension 652-2015 opt 1. Before reporting a problem, make sure it is not due to someone leaving the receiver off the hook. Be prepared to give the following information when calling in a trouble report.

- * Building number
- * Room number
- * Telephone number (in trouble)
- * The nature of the trouble
- * Number where you can be reached

DO NOT DISCUSS CLASSIFIED INFORMATION OVER THE TELEPHONE

- a. Please don't call someone else's telephone trouble unless you are able to furnish all of this information.
- b. Telephone Systems technicians take trouble reports in the order in which they are reported. The average for closing trouble is no more than two days. Please refer to the Job Control Number (JCN) assigned to your trouble when checking on its status.
- c. **UNAUTHORIZED RELOCATIONS: PLEASE!** DO NOT attempt any do-it-yourself phone moving and then report the lines out of order. Ask your TCO to submit an **AF Form 3215, C-4 Systems Requirements Document**, whenever you need to relocate telephone equipment. **Make your request well in advance of the date by which you would like the equipment moved.**
- d. **PERSONAL TELEPHONES:** If you live on base and have telephone trouble, call the HELP desk, 652-2015 opt 1, before calling Southwestern Bell repair service. However, the technicians do not maintain personal instruments in base housing, only those that are government issue.
- e. After duty hours, report only mission essential troubles.
- f. Refer any questions about your telephone features, class of service, or repair service to the HELP desk, extension 652-2015 opt 1.

10. REQUESTS FOR TELEPHONE SERVICE

- a. **OFFICIAL TELEPHONE SERVICE:** Submit official requests for telephone service (installations, moves, special features, and equipment) on AF Form 3215, C-4 Systems Requirements Document, through Telephone Control Officers to Telephone Survey (12 CS/SCMPS) ext. 652-7444. Telephone service requests that are simple in nature and do not require the ordering of material are normally processed and completed within 30 working days, depending on the Telephone Systems Section's workload. Requests requiring material must be submitted as far in advance as possible, as early as 6 months in cases where material must be ordered from commercial companies, i.e., TIs, long-haul circuits, 1-800 service, calling cards, Centrex, and commercial business lines. Priority requests must be fully justified, stating why the request must be completed before other scheduled telephone work, and signed by one of the following:
 - (1) Organizational commander, (2) Director, or (3) deputy Commander or Deputy Director.
- b. **UNOFFICIAL COMMERCIAL TELEPHONE SERVICE**
 - (1) Airman dormitory and base housing residents may obtain commercial (private) telephone service by contacting Southwestern Bell at 1-800-464-7928 (toll-free). Before calling Southwestern Bell for new service, Dormitory residents should contact Telephone Systems (12 CS/SCMPP) at 110 from a base extension or 652-9040 from off-base telephones, and request "cable and pair." Installation, monthly rental, and toll charges will be borne by the individual concerned.
 - (2) Housing residents with existing telephone service who wish to connect additional extensions should contact Telephone Survey (12CS/SCMPS), ext. 652-7444. Telephone Systems will install the extension(s) at no expense to the resident.

11. MINIMIZE: MINIMIZE is a condition imposed by commanders to reduce the volume of electrical communications (both message and telephone traffic) during exercises or periods of emergency/crisis. It may be imposed DoD-wide, Air Force-wide, Command-wide, or for

given countries, states, or areas as conditions warrant. During MINIMIZE conditions, vital and relevant electrical communications must not be delayed, and routine traffic must be drastically reduced.

- a. MINIMIZE applies to ALL DoD communications systems, including originators of card and tape traffic.
- b. When MINIMIZE is imposed, users of DoD electrical communications facilities must determine that:
 - (1) The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.
 - (2) Electrical transmission is the only way to get information to the addressee in sufficient time to accomplish its purpose.
- c. Alternate means of communications such as the U. S. Mail, the U. S. Armed Forces Courier Service, or an individual as a courier or messenger should be used versus electrical means when MINIMIZE is imposed.
- d. Unit TCOs will approve transmission of only those calls/messages deemed "MISSION ESSENTIAL" for transmission.
- e. Base operators will challenge all calls to MINIMIZED locations with the phrase, "Is your call MINIMIZE considered?" They will process only those calls which have been carefully assessed using the aforementioned criteria. (Authority - Allied Communications Publication (ACP) 121(F), Communications Instructions - General)

12. REPORTING NUISANCE/BOMB THREAT CALLS:

- a. Malicious, threatening, abusive, indecent, annoying, or harassing telephone calls, including those in which obscene or profane language is used, are prohibited by state and federal laws. The following action should be taken:
 - (1) **NUISANCE CALLS:** Make the caller identify himself. When a voice asks, "Who is this?" ask instead, "What number did you dial?" or "With whom do you wish to speak?" If the caller remains silent after you answer, or makes any obscene remarks, HANG UP! If the calls persist, notify the Security Police Law Enforcement Desk (Ext. 652-5700 or 652-5709). Furnish as much information as possible about the call and the caller.
 - (2) **BOMB THREATS OR OTHER THREATENING CALLS:**
 - (a) DO NOT hang up! Try to keep the caller on the line, and signal someone else to call 911. (NOTE: Security Police will alert communications personnel to initiate trace action on all bomb threats or threatening calls.)
 - (b) If no one else is available, DO NOT hang up, use another phone to call 911 and notify the Security Police.
 - (c) Obtain as much information as possible about the call/caller using AF Form 440. See the checklist on page 51.
 - (3) **THREATENING CALLS RECEIVED ON PRIVATE TELEPHONES:**
 - (a) Hang up
 - (b) Report the call to the Security Police Law Enforcement Desk Ext. 652-5700/652-5709).
- b. Individuals who receive Bomb Threats or other threatening calls should use the AF Form 440, Bomb Threat Aid, (see form on page xxiii) as a guide to document information pertaining to these types of calls. A copy of this form should be kept near every base telephone instrument. When completed, these forms will be made a matter of record and used to assist the Security Police in their investigation.

13. EMERGENCIES: EMERGENCY 911 is the Air Force standard emergency reporting number that handles all types of fire, police, and medical emergencies here at Randolph AFB. Randolph has an "enhanced" system that routes all on-base 911 calls from both government and residence telephones to the Security Police law enforcement desk. Calls made from cellular phones are not routed through the Security Police Law Enforcement Desk. They are routed through the nearest off-base exchange. If you wish to report an emergency to the Security Police Laws Enforcement Desk from a cellular phone dial 652-5700/5709.

- a. **STAY CALM** and provide the 911 operator with the building number, your name, the phone number from which you are calling, and the nature of the emergency. Unless you are in imminent danger, do not hang up until the 911 operator instructs you to do so.
- b. The 911 operator will ask you several questions about the emergency. Answer them to the best of your ability. To report an emergency to the Security Enforcement Desk from a cellular phone dial 652-5700/5709.
- c. **STAY CALM** and provide the 911 operator with the building number, your name, the phone number from which you are calling, and the nature of the emergency. Unless you are in imminent danger, do not hang up until the 911 operator instructs you to do so.
- d. The 911 operator will ask you several questions about the emergency. Answer them to the best of your ability. The information you provide is essential and will not delay response to your emergency.
- e. **REMEMBER, ALL TELEPHONES ON RANDOLPH AFB HAVE 911 EMERGENCY REPORTING CAPABILITY.**

14. DIRECTORY ASSISTANCE (INFO) CALLS: This service is for official use only.

- a. Off-base Directory Assistance. Long distance directory assistance calls can be direct dialed (98+AC+555-1212+Code) but must be for OFFICIAL GOVERNMENT BUSINESS. Calls for off-base information are not free. Your organization will be billed for the cost of these calls. Local information calls incur a cost of \$.30 per call. To minimize these charges consult the SBC (Litpages) White and Yellow Pages found on the Randolph Homepage. Calls for information within the state of Texas but outside the 210 area incur a cost of \$.50 per call. All calls for information outside the state of Texas incur a cost of \$.60 each.
- b. Toll-free (1-800) Information. We encourage class "A" telephone subscribers to use this service, if available, prior to placing official toll calls. Dial 99+1+800+555+1212 to obtain information for toll-free numbers of commercial businesses that offer incoming long distance toll calls at no charge to San Antonio callers. To place the call, dial 99+1+800, 99+1+866, 99+1+877 or 99+1+888 and the 7 digit number.

16. CONFERENCE CALLS: All telephone on Randolph AFB, with the exception of some special feature phones and electronic key systems, are provided operator assisted and direct user three party conference call capability. Procedures are as follows:

a. CONSULTATION HOLD. To consult with another .. party and exclude the original party:

- (1) While you have a party on the line, briefly depress and release the switch-hook ONCE. You will hear a special dial tone.
- (2) Dial the extension you wish to consult with.
- (3) When finished consulting, wait for the party to hang up. Then briefly press and release the switch-hook ONCE to return to your original call.

b. THREE-WAY CONFERENCE. To add a third party to a call already in progress, follow the same procedures that you used for the consultation hold, but when you have reached the third party, briefly press and release the switch-hook ONCE. A three-way conversation will be initiated. NOTE: If during your attempt to achieve Consultation Hold or a Three-way Conference the third party's number is busy or doesn't answer, briefly press and release the switch-hook TWICE to return to your original call.

c. MEET-ME CONFERENCE. (Up to 30 parties) Meet-me conferences must be booked in advance. To book a Meet-me conference, dial 652-1110 and request the technician assign you a directory number to be dialed at a designated date and time. Each conferee is automatically added to the conference when the designated conference number is dialed. NOTE: The telephone operator cannot assist on or access this type of conference call.

d. OPERATOR ASSISTED CONFERENCE. The operator assisted conference allows a telephone operator to establish up to a six-party conference connection (including the originator). Dial "0" and request the operator add on the requested parties. Be sure all information is readily available before requesting the conference and take time zones into consideration. For additional information on conference call capabilities, call Telephone Systems, ext. 652-2015 opt 1.

e. VIDEO TELECONFERENCING. You may set up meetings and conferences with your colleagues throughout the Department of Defense by using the HQ AETC Video Teleconferencing Center (VTC). Without wasting time, money, and energy on unnecessary TDYs, video teleconferencing gives you all the advantages of a face-to-face conference, plus some options meetings lack. To inquire about video teleconferencing or to schedule a conference, call ext. 652-3355 or 652-3353.

17. DATA AND FACSIMILE (FAX) TRANSMISSIONS:

a. DATA TRANSMISSION:

- (1) Data processing equipment, to include computer-controlled graphics (other than FAX), word processors, mainframe or mini computers, and other similar equipment should use the Defense Data Network (DDN) whenever possible. Such equipment must be capable of disconnecting automatically upon cessation of transmission or circuit preemption.
- (2) DSN users with requirements to use the DSN system for large volume, extended holding times (in excess of one hour) or for dedicated operational systems requiring switch data connectivity will coordinate with Telephone Systems, ext. 652-2015 opt 1 for technical evaluation of the requirements. This process is necessary to determine the impact and to reconfigure the network.
- (3) Data line trouble should be reported to the Call Center, ext. 652-2015 opt 3.

b. FAX TRANSMISSION:

- (1) DSN may be used to transmit FAX messages. FAX equipment must have the capability to disconnect from the DSN line within one minute after cessation of the FAX transmission, or upon circuit pre-exemption. DSN Off-netting may be used to transmit fax messages without compromising the quality of the transmission.
- (2) FAX TRANSMISSION PROCEDURES:
 - (a) Complete AF Form 3535, Facsimile Electro Mail Transmittal.
 - (b) Place the transmittal form and all sheets to be transmitted face down into the paper feeder of the FAX machine. (NOTE: The FAX machine copies only one side of each page. If you have two-sided pages to transmit, make copies of the second sides before proceeding.)
 - (c) Pick up the FAX machine telephone receiver and dial the destination FAX telephone number.
 - (d) Wait for the FAX "tone," then push the start/send button (usually green).
 - (e) Hang up the phone; transmission will begin.
 - (f) When the transmission is complete, you will hear several FAX tones indicating the transmission was received at the destination location, and/or receive a visual display message indicating the same.
- (3) If you are having difficulties, please take the time to ensure the number you are calling is correct, and that the number is a FAX, not voice-only line. Report transmission problems relating to telephone lines to the HELP desk, ext. 652-2015 opt 1. Refer problems with your FAX machine to your equipment custodian.

18. OFFICIAL LONG DISTANCE CALLS:

Long distance calls should be placed using the most economical means. The order of preference from the least to the most costly to the Government as follows:

- a. Defense Switched Network (DSN)** For all calls to DoD activities. This method will be attempted before considering the use of commercial toll facilities. Dial "94" and the DSN number or "0" for operator assistance.
- b. DSN Off-netting.** Off-netting uses DSN as a transmission media. Calls leave the DSN network for completion. Using DSN, call the assistance operator at the DoD installation nearest the location of the civilian party you are attempting to reach. When the operator answers, request "official off-net assistance," and provide the 7-digit commercial (civilian) telephone number of your party. NOTE: The decision to off-net a call rests with the installation commander, and only OFFICIAL

Government calls will be honored where no toll charges are incurred. The off-net directory is available on the AETC home page on the World Wide Web.

c. 1-800 and 1-888 Toll-free Service

- d. FTS 2000/MCI ISVS.** These are contract discount calling plans that provide Randolph Government customers with commercial long distance service at reduced rates. These services should be used for placing all official long distance calls to destination which are not served by the DSN system and do not have toll-free numbers. The current cost for FTS and ISVS calls is on a "by the minute" usage basis.
- e.** Originate only official calls and try to limit to 5 minutes.
- f.** Dial "0" for operator assistance with FTS and ISVS calls.
- g.** For CONUS calls, direct access users of FTS dial 98 + area code + 7-digit number + billing code. DO NOT use FTS 2000 to place local calls; all local calls placed on FTS 2000 incur a charge. When in doubt, ask the Randolph operator for assistance.
- h.** Direct access users of ISVS dial 98 + 011 + country code + city code + number + billing code for international calls.
- i.** FTS 2000 and ISVS calls are station-to-station only.
- j.** FTS and ISVS calls must be authorized by unit Telephone Control Officers (TCOs). TCOs will log every call on AF Form 1072 for billing verification.

19. SPECIAL BILLING CALLS:

- a. A COLLECT CALL** is an incoming toll call for which you are asked to accept charges. Unless you have prior authorization, do not obligate the government by accepting collect calls on a government telephone.
 - (1) Certain circumstances may require accepting collect calls for official business or emergency situations. The party accepting the collect call must record the call particulars (time, date, calling number, calling party's name, etc.) and inform the TCO as soon as possible to have the call logged on AF Form 1072.
 - (2) Accepting collect calls on a government telephone, when not specifically authorized as above, is illegal. Any individual who does so is subject to disciplinary action under the Uniform Code of Military Justice (UCMJ).
 - (3) Randolph telephone operators do not accept collect calls!
 - a. THIRD PARTY CALL** is a long distance commercial call placed from one telephone and billed not to the originating or destination numbers, but to yet another telephone (a "third" number). Third party calls billed to Randolph are strictly prohibited!
 - b. A CALLING CARD CALL** is a long distance toll call placed by an authorized subscriber and charged to a long distance telephone account. Calls placed on Government calling cards by authorized Randolph AFB customers are charged to FTS-2000 or ISVS for Government billing. Only official, mission-related calls may be billed on Government calling cards.
- ## 20. NETWORK CAPABILITY :
- a.** A user calling from any class A telephone on Randolph AFB will need to dial 99 plus the seven-digit number of the other local Air Force installations in the San Antonio area. Refer to the dialing instructions on page xxii.
 - b.** To call Randolph AFB from off-base telephones, dial "652 or 565" plus the last 4 digits of the number.
 - c.** To call off-base from Randolph AFB, direct dial

service is available from any class A telephone.

- (1) To call any local number in the San Antonio area, dial 99 plus the 7-digit number. You will not hear a dial tone after dialing 99.
- (2) The following prefixes can be dialed from Randolph AFB and do not incur long distance charges:

203	345	351	470	534	641	705	841
204	346	352	472	536	645	706	844

985									

21. COMMERCIAL OPERATOR SERVICES:

- a. The base is charged for all commercial operator-handled assistance calls. Calls for the following services are not authorized except in the event of a bonafide emergency:
 - (1) Verify conversation on a busy commercial line (\$1.35).
 - (2) Interrupt conversation on a busy commercial line (\$2.20).
 - (3) Local operator assistance (\$1.30).

- b. Authorized assistance calls for commercial operator services must be placed via the base operator, and reported to the TCO as soon as possible to have the call logged on AF Form 1072.

22. THE DEFENSE SWITCHED NETWORK (DSN) SYSTEM:

- a. **GENERAL:** The DSN Network is the principle long-haul, voice communications network within the Defense Communications System, providing unsecure direct distance dialing service worldwide through a system of Government-owned and leased automatic switching facilities. The purpose of DSN is to handle command and control, operations, intelligence, logistics, diplomatic, and administrative traffic.
- b. **PRECEDENCE:** The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense (DoD). It established a FLASH OVERRIDE capability, and the precedence designators of ROUTINE, PRIORITY, FLASH, IMMEDIATE. Precedence is the calling capability assigned to a DSN user terminal. Since the effectiveness of the system depends upon the cooperation of the persons authorized to use it, users must be familiar with the purpose of each precedence category and the types of calls assigned the respective precedence.
 - (1) **POLICY ON THE USE OF THE TELEPHONE PRECEDENCE SYSTEM:**
 - (a) **FLASH.** Reserved for alerts, warnings or other emergency actions having immediate bearing on national, command or area security.
 - (b) **IMMEDIATE.** Reserved for vital communications:
 - 1. Having an immediate affect on tactical operations.
 - 2. Directly concerning safety or rescue operations.
 - 3. Affecting the intelligence community operational role.
 - (c) **PRIORITY.** Reserved for calls requiring prompt completion for national defense and security, the successful conduct of war, or safeguarding life or property, but do not require higher precedence. Normally, PRIORITY is the highest precedence that may be assigned to administrative matters for which speed of handling is of paramount importance.
 - (d) **ROUTINE.** Reserved for all other official office communications.
 - (2) **USE OF DSN:** Users are responsible for the proper use and control of DSN lines. Everyone's cooperation will ensure better service and a higher completion rate of DSN calls, particularly those to international locations.
 - (a) DSN is authorized for official communications only.
 - (b) DSN is restricted to only those calls that are essential, requiring a timeliness that cannot be obtained by other means, and would stand the scrutiny afforded a commercial toll call.
 - (c) Precedence level used will be consistent with the subject matter of the call as established in the Joint Uniform Telephone Communications Precedence System.
 - 1. DSN users will use the lowest precedence consistent with the operational mission or necessity for each call placed. Don't request or use a precedence higher than required.
 - 2. The assignment or use of a precedence designator based solely on rank or duty position is strictly prohibited.
 - (d) Voice-data, facsimile, and graphic service in DSN

will normally not exceed a continuous transmission time of 15 minutes nor total transmission of 1 hour during normal business hours.

- (e) Off-net extension of calls into the commercial system at a distant PBX/PABX is encouraged where such extension has been previously approved by the local authorities controlling the switchboard.
- (f) Calls will be limited to the minimum time required to accomplish official business, normally not to exceed 5 minutes.
- (g) Calls of all DSN users, except those of certain National Command Authorities and Unified and Specified Commanders, are subject to preemption by calls of higher precedence. Preemption is the act of seizing the line from a lower precedence call to support higher precedence calls, and is automatically and randomly executed in the telephone switching equipment.
- (h) DSN will not be authorized for:
 - 1. Use directly or indirectly by any non-appropriated funds activities (clubs, exchange, and other unofficial activities) provided telephone service at base level except when approved by the Joint Chiefs of Staff.
 - 2. Unofficial or personal call.
 - 3. Calls within an installation, metropolitan area, or those confined geographical areas where other existing Government-provided local telephone service is adequate.
- (i) Telephone Monitoring. DSN is for official use only and is subject to authorized monitoring (AFI 33-219).

23. DSN USER CALLING INSTRUCTIONS:

- a. **ROUTINE DSN CALLS:**
 - (1) Users with direct-dial access to DSN should:
 - (a) Verify the DSN number.
 - (b) Listen for a dial tone.
 - (c) Dial the DSN access code 94. (NOTE: You will not hear a dial tone after dialing the access code.)
 - (d) Dial the 7-digit DSN number.
 - (2) Users with operator-access to DSN should:
 - (a) Verify the DSN number.
 - (b) Dial "0" and give the following information to the switchboard attendant:
 - 1. Your name and extension number.
 - 2. The DSN number desired (including country code for international locations).
 - 3. Remain on the line while the attendant completes the call.

24. DSN USER ASSISTANCE: Call assistance, conferencing, and directory assistance for DSN users are provided by dialing " 0".

25. DSN USER TROUBLE REPORTING: When users encounter trouble while utilizing DSN, use the following procedures:

- a. Retain the circuit connection and on another phone, report the trouble immediately to the HELP desk, ext.652-2015 opt 1.
- b. Give the details of the DSN trouble as follows:
 - (1) Your extension number and location.
 - (2) The DSN number and locations of the called party.
 - (3) A brief description of the trouble and the time it occurred.

26. DIGITAL TELEPHONE SWITCHING: The DMS-100 digital switching system at Randolph AFB is designed to make it easier for you to carry out your job responsibilities. With the features this system provides, your telephone is capable of many sophisticated operations such as speed calling, setting up conference calls, and forwarding calls to

another extension. The features on your telephone have been selected to reflect your specific telephone needs. With the exception of telephones coded for data use only, P-phones, and some electronic key systems, all base extensions are equipped with three basic features: call transfer, consultation hold, and 3-way calling. Electronic key system and P-Phone users should refer to their user guides for special feature operating instructions. For information about the features assigned to your instrument, call the HELP desk, ext. 652-2015 opt 1. Submit requests to add or delete features to your telephone, on AF Form 3215, C-4 Systems Requirements Document, through your TCO to 12 CS/SCMPS. All requests for features other than the basics must be adequately justified.

a. CALL TRANSFER.

- (1) Briefly depress and release switch-hook once.
- (2) Listen for stutter dial tone.
- (3) Dial the extension.
- (4) Hang up(calls cannot be transferred off-base without special features).

b. CONSULTATION HOLD.

- (1) To consult with another party and exclude the original party:
 - (a) Briefly depress and release switch-hook once.
 - (b) Listen for stutter dial tone.
 - (c) Dial the extension.
 - (d) CONSULT BRIEFLY.
 - (e) Wait for called party to hang up
- (2) To return to the original party, depress and release switch-hook ONCE.

c. 3-WAY CALLING.

- (1) To add another party to a call in progress
 - (2)
 - (a) Briefly depress and releaseswitch-hook once.
 - (b) Listen for stutter dial tone.
 - (c) Dial the extension to be added.
 - (d) Briefly depress and release switch-hook once to establish a 3-way conversation.
 - (3) One party can hang up, leaving a 2-way conversation.

d. PERMANENT HOLD.

- (1) To hold an existing call:
 - (2)
 - (a) Briefly depress and release switch-hook once.
 - (b) Listen for stutter tone.
 - (c) Dial Permanent Hold code, * or 12 82.
 - (d) Hang up phone.
 - (e) After 30 seconds you should receive a ring back to remind you that someone is on hold.
 - (3) To retrieve calls, pick up receiver.

e. CALL WAITING.

- (1) A single burst of tone will be heard advising you that another call is waiting.
NOTE: If your extension is not normally provided with this feature. The presence of this tone indicates an urgent call.
- (2) When you hear the tone, hang up. Your extension will ring back automatically and you will be connected to the waiting call.
- (3) If you wish to hold the first call, depress switch hook once This will connect you with your second call.
- (4) Depress switch hook once again and this will return you to your first call.

f. CALL FORWARDING:

- (1) To establish:
 - (a) Listen for dial tone.
 - (b) Dial *72
 - (c) Second dial tone is heard.
 Dial extension to which calls are to be forwarded.
Listen for confirmation tone (two short spurts of tone followed by dial tone).
- (d) Hang up.
- (g) Forwarding is activated. If you misdial, hang up and follow procedure to cancel, then reestablish

- call forwarding.
- (2) To cancel:
 - (a) Listen for dial tone.
 - (b) Dial * 73
 - (c) Listen for confirmation tone.
 - (d) Hang up.

g. AUTOMATIC FORWARDING-BUSY LINE. Your extension, if busy, will automatically route to a pre-designated extension.

h. AUTOMATIC FORWARDING-NO ANSWER. If your extension is not answered by the 4th ring, calls will automatically route to a pre-designated extension.

i. CALL PARK.

- (1) This allows one call to be held and later retrieved, from any extension.
 - (a) Briefly depress and release switch-hook once.
 - (b) Listen for stutter dial tone.
 - (c) Dial Call Park code, * 80
 - (d) Hang up phone.
 - (e) The call will now be on hold against your extension number.
 - (2) To retrieve the call. Dial Call Park Retrieval code * plus extension where your call is parked.

j. RING AGAIN.

- (1) Used for notification of a busy number idle when you receive a busy tone after dialing a number:
 - (a) Briefly depress and release switch-hook once.
 - (b) Listen for stutter dial tone.
 - (c) Dial Ring Again code *78, wait for confirmation tone.
 - (d) Hang up. When the called number is idle, your extension will ring back automatically and you will be connected to the waiting call. If you do not answer your ring back your call to the distant end will not ring.
 - (f) Pick up your handset and complete the call.
- (2) To deactivated Ring Again:
 - (a) While in Ring Again Mode (see above), pick up your handset.
 - (b) Dial ring again code *, wait for confirmation.
 - (c) Hang up.

k. GROUP CALL PICKUP. To pickup a call directed to another extension within your assigned Group Call Pickup:

- (1) Listen for dial tone.
- (2) Dial the Call Pickup code 111. Answer and identify yourself (you are connected to the caller).
- (3) After conversation, hang up. NOTE: 1. Your extension must be a member of an established Group Call Pickup. Your extension must be idle to use this feature.

l. SPEED CALL. This special feature must be approved by the Randolph AFB Communications-Computer Systems Requirement Board (CSRB).

27. INTERNATIONAL ABBREVIATIONS:

Alaska	-4hours	Korea	+15hours
Philippines	+14hours	Japan	+15hours
England	+6hours	Okinawa	+15hours

Germany	+7hours	Panama	Local time
Greece	+8hours	Saudi Arabia	+9hours
Guam	+16hours	Spain	+7hours
Hawaii	-4hours	Turkey	+9hours

29. FREQUENTLY CALLED DSN NUMBERS: This listing is furnished for the transaction of OFFICIAL GOVERNMENT BUSINESS ONLY. DSN services and facilities will not be used for unofficial calls.

a. DIRECT-IN-DIALING: Certain installations have direct-in-dialing and can be accessed by dialing 94, the DSN prefix for the base, and the base extension. DSN prefixes for in-dialing are followed by an X for each digit required for the extension. For example, the in-dial DSN prefix for Randolph AFB is 487 or 665 for HQ AFPC. It is shown as 487-XXXX or (HQ AFPC ONLY) 665-XXXX indicating that a four-digit extension number is needed. The calling party must obtain the number from operator assistance at the called destination. To obtain numbers for installations not listed, dial "0".

b. CALLS TO INTERNATIONAL AREAS.

- (1) General purpose DSN users cannot direct-dial international DSN numbers. International DSN area codes 200, 302, 313, 314, 315, 318, , and 406 may be reached through the base operator. Users dial "0" and advise the operator that you have a global DSN call and provide the area code and DSN number. The operator may request other information as necessary.
- (2) Calls to area code 317, Alaska, may be direct dialed; dial 94 + 317 + 7-digit DSN number.

SHORT LIST PROGRAMMING A NUMBER

WHAT TO DO
WHAT YOU HEAR

1. Lift the handset from the cradle.
2. Dial the speed calling short list programming code. *74
3. Dial the single-digit code (0-9) by which the number is to be stored and identified.
4. Dial the number to be stored.
5. Press #
6. Replace the handset in cradle.
7. Repeat steps 1 through 6 to store up to ten numbers.

SHORT LIST ACCESSING A STORED NUMBER

WHAT TO DO
WHAT YOU HEAR

1. Lift the handset from the cradle.
2. Listen for dial tone.
3. Dial the feature access code and the single digit code assigned to the stored number. Press # sign for faster service.

SHORT LIST-CHANGING A NUMBER

WHAT TO DO
WHAT YOU HEAR

1. Lift the handset from the cradle.
2. Dial the speed calling short list programming code. * 74
3. Dial the single-digit code (0-9) for the stored number you want to change.
4. Dial the new number to be stored.
5. Press #

SHORT LIST-DELETING A NUMBER

WHAT TO DO
WHAT YOU HEAR

1. Lift the handset from the cradle.
2. Dial the speed calling short list programming code. * 74
3. Dial the single-digit code (0-9) by which the number is stored.
4. Press # .

We need your assistance in evaluating the quality of services you receive from the telephone operators and telephone technicians. Please take a few minutes to answer the questions in this brief survey and return it to the above address. Please circle your responses. Comments are requested on marginal and unsatisfactory responses.

Thank you for helping us support you through better service!

(1 - *Unsatisfactory*, 2 - *Marginal*, 3 - *Satisfactory*, 4 - *Excellent*, 5 - *Outstanding*, 6 - *N/A*)

TIMELY TELEPHONE TIPS

When you receive a telephone call

- ANSWER AS PROMPTLY AS POSSIBLE.**
Try to answer before second ring.
- IDENTIFY YOURSELF WHEN ANSWERING.**
"Mr. Brown's office, Miss Andrews."
"Personnel, Mason."
- SPEAK DISTINCTLY AND PLEASANTLY.**
Hold mouthpiece well up in front of lips.
- AVOID TRITE OR ABRUPT PHRASES.**
"Who's calling?" . . . "Just a moment."
"He's busy." . . . "He's in conference."
"He's tied up." . . . "He isn't in."
- VOLUNTEER THE "WHEREABOUTS AND WHENABOUTS" OF AN ABSENT PERSON.**
"He can be reached in Mr. Jones' office . . .
Extension 2-2270."
"He is out of the building until 3 o'clock."
"May I locate him and ask him to call you?"
- VOLUNTEER YOUR OWN ASSISTANCE.**
"Is there anything I could do?"
"Could I help you?" . . . "or anyone else?"
- REQUEST IDENTITY OF CALLER ONLY WHEN NECESSARY AND IN A TACTFUL MANNER.**
"May I have your name?"
"May I ask who this is, please?"
- EXPLAIN OFF-THE-LINE DELAYS.**
"It's in the files . . . Can you wait a moment?"
- TAKE A MESSAGE WILLINGLY.**
Write essential details on a suitable message form; deliver promptly.
- TRANSFER ELSEWHERE ONLY WHEN YOU KNOW DEFINITELY THE CORRECT PERSON OR NUMBER.**
Give caller these facts before transferring.

When you make a telephone call....**ALWAYS REMEMBER TO:**

- PLAN AN EFFECTIVE CONVERSATION.**
Get your thoughts in order before calling.
- PLACE THE CALL YOURSELF, EXCEPT IN SPECIAL CIRCUMSTANCES.**
Make sure you are on the line ready to talk, when the called person is reached.
- HAVE THE CORRECT NUMBER (OR EXTENSION) IN MIND.**
Consult your directory, or personal number list.
- LISTEN FOR THE DIAL TONE . . . DIAL CAREFULLY.**
- IDENTIFY YOURSELF IMMEDIATELY TO THE FIRST PERSON ANSWERING THE CALLED TELEPHONE.**
"This is Mr. Johnson . . . May I speak to Mr.Hodges, please?"
- IDENTIFY ALSO, WHEN HELPFUL, YOUR OFFICE AND PURPOSE CALLING.**
"Mr. Brown, in Accounts . . . returning Mr.Green's call."
- IF CALL IS LIKELY TO BE LENGTHY ASK WHETHER CALLED PERSON HAS "TIME TO TALK NOW"**
- TRY TO COMPLETE YOUR BUSINESS WITH ONE CALL BY LEAVING A MESSAGE, SECURING INFORMATION OR**
- VOLUNTEER YOUR EXTENSION AND THE BEST TIME TO REACH YOU, IN CASE YOU REQUEST A "CALL-BACK."**
- KEEP YOUR CONVERSATION BRIEF AND BUSINESS LIKE.**

The Secure Telephone Unit version III (STU-III) is a small, easy to use telephone that can be used for clear or secure communications. The STU-III terminal uses a unique method of encrypting or securing your voice signal, identifying the parties involved in the conversation and determining the security classification allowed during the call. Its ultimate purpose is not only to secure your classified conversation but also those of a sensitive unclassified nature.

The base STU-III office is under the purview of the Base COMSEC Manager assigned to the 47 Communications Squadron. Address any questions concerning STU-III terminals or its keying material to COMSEC Manager at extensions 5700 or 5129.

- a. DSN Calls from base extensions (Class 1 & 2 Only).** Listen for dial tone, dial "94", wait for DSN dial tone and dial desired number.
- b. Base Extension to Base Extension.** Listen for dial tone. Dial desired number.
- c. Del Rio Numbers.** Listen for dial tone, dial "99", wait for city dial tone and dial "city prefix" plus last 4 digits of number.
- d. Base Housing.** Listen for dial tone, dial "99" wait for city dial tone and dial desired "298-" number.
- e. Base Housing and Del Rio to Base Information.** Wait for dial tone and dial 298-3511.
- f. Long Distance from Base Extensions (Class 1, 2 and 3 Only).** Wait for dial tone. Dial your long distance service access number or call the base operator "0".
- g. Information (From Base Extensions).** Wait for dial tone, dial "0."
- h. Off-Base Information.** Wait for dial tone. Dial "0."
- i. Operator (From Base Extension).** Wait for dial tone, dial "0."

3. Instructions for Using the Features on Single Line Telephone Extensions:

- a. Call Hold (Touch Call Only):**
 - (1) Ask party to wait.
 - (2) Depress hook switch.
 - (3) Hang Up
 - (4) To return to call on hold, depress hook switch.
- b. Transferring Calls: Incoming, outgoing or extension calls can be transferred.**
 - (1) Ask party to wait.
 - (2) Depress hook switch.
 - (3) Listen for feature dial tone.
 - (4) Dial number.
 - (5) Announce call.
 - (6) Hang up.
 - (7) NOTE: In case of busy signal, no answer, or an error in dialing, depress hook switch to return to first party.
- c. Consultation Calling: To hold one party and consult with another:**
 - (1) Depress hook switch.

- (2) Listen for feature dial tone.
- (3) Dial extension number.
- (4) CONSULT.
- (5) You are automatically reconnected when called extension hangs up.

d. 3-Way Conference:

- (1) Ask party to wait.
- (2) Depress hook switch.
- (3) Listen for feature dial tone.
- (4) Dial extension number.
- (5) Depress hook switch again to establish 3-way conference call.

e. Conference Calls (more than 3):

- (1) Dial "0."
- (2) Give conference information to the base operator.
- (3) Up to six parties can participate.

f. Ring Again: After dialing an extension number and receiving a busy signal.

- (1) Depress hook switch.
- (2) Listen for feature dial tone.
- (3) Dial "31."
- (4) Hang up.
- (5) To cancel - Dial "32."

g. Call Pick-Up: To answer an incoming call to any extension in your call pickup group:

- (1) Dial "33."

h. Call Forwarding (Touch Call Only):

- (1) Key #, plus 1, plus extension number.
- (2) Hang up.
- (3) To cancel-Key #, plus 1.

4. Instructions for Using the Features on Meridian Modular Telephone Extensions:**a. Placing a Call on Hold :**

- (1) Press the Hold Key. The indicator besides the line key will flash.
- (2) To Return to a held call. Press the Line Key that is flashing.

b. Transferring Calls:

- (1) Ask party to wait.
- (2) Press Transfer Key. The calling party is on hold and you hear dial tone.
- (3) Dial extension that you want to transfer the call to.
- (4) Press Transfer again, either when you hear ringing or after you announce call.
- (5) For MSL-100 systems: Press Transfer Or Conference then Press RLS to complete the transfer.
- (6) NOTE: In case of busy signal, no answer, or an error in dialing depress Transfer key to return to first party.

c. Conference Calls: You can set up a conference for up to 3 or up to 6 parties, including yourself.**To set up a conference:**

- (1) Ask party to wait, press Conference. The other party is on hold and you hear the dial tone.
- (2) Dial the number of the next party to add. When the call is answered, you may talk privately with the party.
- (3) Press Conference again to include all 3 parties.

d. Ring Again: After dialing an extension number and receiving a busy signal.**To Use Ring Again:**

- (1) Press Ring Again when you get a busy signal.
- (2) Hang up or press RLS
- (3) When you hear the Ring Again tone, select a free line.
- (1) (4) Press Ring Again to automatically dial the number.

e. Call Forward: Call Forward allows you to send your calls to another extension. You cannot forward calls while the telephone is ringing.**To forward your calls:**

- (1) Press forward. The indicator flashes.
- (2) Dial the extension that you want to forward your calls to.
- (3) Press Forward again. The indicator flasher remains on.

To cancel forwarding:

- (1) Press Forward. The indicator turns off.

To reinstate Call Forward to the same number:

- (1) Press Forward twice. The indicator turns on again.

To display the number to where you are currently forwarding your calls:

- (1) Press Display.
- (2) Press Forward. The number is displayed.
- (3) If you want to clear the display, press again.

5. Promoting Good Telephone Service. Good telephone service is based on the accuracy, speed, and courtesy of both operating personnel and subscribers. Subscribers should be guided by the following rules:

- a. Security.** Communications security is the protection designed to deny unauthorized persons valuable information derivable through their possession and study of telecommunications, or to mislead unauthorized persons in their interpretation of the results of such a study. Telephone users are responsible for the security of information discussed over the telephone, as prescribed in AFI 31-401.
- b. Brevity.** For economy and maximum use of available facilities, telephone conversations should be as brief as possible. This is particularly true of long distance and DSN calls.
- c. Authorized Use.** Personal matters or unofficial business should NOT be discussed over telephones that are authorized for official business only.
- d. Conversing with Operators.** Conversations with switchboard operators must be limited to requesting pertinent information and giving instructions for placing calls. Unnecessary conversation keeps another user from receiving prompt attention.

6 Telephone Tips:**a. When you receive a telephone call:**

- (1) Answer promptly.
- (2) Identify yourself when answering.
- (3) Speak distinctly and pleasantly. Hold mouthpiece well in front of lips.
- (4) Avoid trite and abrupt phrases.
- (5) Volunteer your assistance.
- (6) Request identity of caller only when necessary and in a tactful manner.

- (7) Explain off-the-line delays.
- (8) Take messages willingly. Write essential details on a suitable message form. Deliver promptly.

b. When you make a telephone call:

- (1) Listen for dial tone. Dial carefully.
- (2) Place the call yourself. Make sure you are on the line ready to talk when the called person is reached.
- (3) Have the correct number in mind. Consult your directory.
- (4) Identify yourself immediately to the first person answering the called telephone.
- (5) Try to complete your business on one call by securing information or leaving a message.
- (6) Volunteer your extension and the best time to reach you in case you request a call-back.
- (7) Keep your conversation brief and businesslike.

7. Telephone Trouble Reporting:

- a.** All trouble encountered with administrative telephones and associated equipment will be reported by dialing "4199" for base extensions. From base housing and Del Rio dial 1-800-483-1000.
- b.** Administrative telephone troubles not corrected within a reasonable time should be reported to 47CS/SCMP, ext. 4282.
- c.** When reporting trouble, the following information is required:
 - (1) Telephone number (extension number) .
 - (2) Listing of telephone.
 - (3) Location of telephone - Building number and room number if known.
 - (4) Nature of trouble.
- d.** All troubles directly connected with air traffic control or those with flying safety implications should be reported directly to 47CS Communications Focal Point, ext 4199. Examples are: Primary Crash Circuit, RSU hot lines, Control Tower/RAPCON, ARTCC lines. After duty hours dial "0." Operator will notify Communications Focal Point.

8. Service Complaints: A telephone operator who appears inefficient or discourteous should not be reprimanded by the telephone users. The user should request the operator's number; then report the incident to the switchboard supervisor, ext 5371, with full particulars. Unnecessary conversation with the operators is strictly forbidden.

9. Requests for Service:

- a.** AF Form 3215, Communication Computer Systems Requirement Document, will be used for requesting installation of official telephone service or modification of existing official telephone service. Completed forms will be submitted through the appropriate staff agency for review and signature by the Telephone Control Officer.
- b.** Unofficial Service Requests. Private service may be obtained by calling the VERIZON Telephone Company business office, 800-483-4400. Contract arrangements for such private telephone service are made by the person involved, who is solely responsible for payment of any charges incurred.

ONLY AUTHORIZED PERSONNEL MAY ADD, REMOVE, OR RELOCATE COMMUNICATIONS EQUIPMENT. (AFI 33-111)

10. Long Distance Calls:

- a.** Official long distance calls are paid by AETC appropriated communications funds. It is essential that these calls be held to the minimum. Every effort will be made to place calls over the DSN circuits or via toll-free numbers. Calls should be limited to 5 minutes or less and should be placed as station-to-station calls.
 - b.** If placement of long distance calls via DSN cannot be accomplished, the Toll Free Information Operator will be contacted by dialing "0" and asking the base operator for "800" Information. If placement of a long distance call is necessary, the organizational telephone control officer will be contacted to obtain a control number. When a number is obtained, the call will be placed by dialing - "0" for the base operator. The caller will announce that he or she wishes to place a long distance call, giving the operator:
 - (1) Control number.
 - (2) Name, rank, and extension number.
 - (3) Place being called.
 - (4) Area code (if known) and number being called.
 - c.** After call is completed, the caller will notify control officer of completion, and give estimated number of minutes of call.
 - d.** After duty hours or in emergencies when organizational control officers cannot be contacted, the billing number will be obtained from the Command Post (ext 5167).
 - e.** Incoming "collect" - official calls will be accepted only after a billing number is obtained from the control officer of Command Post. The person accepting call will ask the long distance operator to wait and will call the control officer or Command Post on another line to obtain the billing number. The person accepting charges will then write the calling parties name, phone number and city they are calling from.
 - f.** SOME PERSONAL CALLS MAY BE PLACED FROM BASE EXTENSIONS OR HOSPITAL EXTENSIONS. Public pay telephones are available for use in placing personal calls. A list of these telephones and their locations is shown on the inside back cover of this directory.
- LAUGHLIN AFB DOES NOT HAVE DIRECT DISTANCE DIALING (DDD) FROM BASE EXTENSION TELEPHONES.
- Direct Distance Dialing (DDD) is available to the Base Housing Area (298 exchange) and the Del Rio exchanges by dialing "1", plus Area Code, plus number. All long distance calls from base and hospital extensions must be placed through the base operator.

11. Nuisance and Threatening Calls: Malicious, threatening, abusive, indecent, annoying, or harassing

telephone calls, including those in which obscene or profane language is used, are prohibited by state and federal laws. The following actions should be taken if you receive such a call:

a. NUISANCE CALLS:

- (1) Make the caller identify himself. When a voice asks, "Who is this?" ask instead, "What number did you dial?" or "Who do you want?"
- (2) If the caller remains silent after you answer, or makes any obscene or suggestive remarks, HANG UP! If calls persist notify Security Police, exts 5100/5555/5102. Furnish as much information as possible about the call and the caller.

b. THREATENING CALLS RECEIVED ON PRIVATE TELEPHONE:

- (1) Hang up.
- (2) Call Security Police, ext 5100/5102. Base housing residents dial 298-5100 or 298-5102.

c. BOMB THREATS OR OTHER THREATENING CALLS RECEIVED ON GOVERNMENT TELEPHONE:

- (1) DO NOT HANG UP.
- (2) Try to keep caller on line.
- (3) Signal someone else to call Security Police, ext 5100.
- (4) If no one is available, DO NOT HANG UP, but use another phone to notify Security Police.
- (5) Obtain as much information as possible about the call/caller using the following checklist.

d. CHECKLIST FOR THREATENING CALLS:

Time Call Received _____
 Exact Wording of Threat _____
 Person Receiving Call _____
 Unit _____ Telephone Number _____
 Address/Bldg Number _____
 Time Caller Hung Up _____

e. QUESTIONS TO ASK ON BOMB THREATS:

When is the bomb going to explode? _____
 Where is the bomb? _____
 What kind of bomb is it? _____
 What does it look like? _____
 Why did you place the bomb? _____

f. DESCRIPTION OF CALLER'S VOICE:

Male _____ Female _____

13. **Propriety:** Obscene, profane, and indecent language is forbidden over the telephone system.

OPERATOR ASSISTANCE..... 0
TO REPORT TELEPHONE TROUBLE.....4199

14. Telephone Directory Listings:

- a. The listings published in this directory are as accurate as the information submitted by each organization.
- b. Since this information can remain current for a limited period of time only, it is suggested that you review all possible listings pertaining to you and your activity for accuracy.
- c. The maintenance of accurate information and directory records is one of the main factors in rendering prompt and satisfactory service. Changes, erroneous listings, or obsolete listings should be reported to the Directory Clerk, ext 5371, as soon as possible.

15. **Conference Calls:** Conference calls may be arranged by dialing "0."

16. **Public Pay Telephones:** Pay telephones are located ..in convenient places throughout the base for all personnel. A list of these is included on page 92 of this directory. These pay phones should be used as much as possible by personnel who do not have private telephones.

17. **Meridian Mail Voice Messaging System:** A user guide is provided to every user upon activation of service. Current users need to familiarize themselves with procedures such as logging in, playing your messages, and recording your greetings. If you do not have a users guide, contact the Telephone/Telecom Office at ext. 4282.

18. PHONETIC ALPHABET

A - Alpha	H - Hote	O - Oscar	V - Victor
B - Bravo	I - India	P - Papa	W - Whiskey
C - Charlie	J - Juliette	Q - Quebec	X - X-ray
D - Delta	K - Kilo	R - Rome	Y - Yankee
E - Echo	L - Lima	S - Sierra	Z - Zulu
F - Foxtrot	M - Mike	T - Tango	
G - Golf	N - November	U - Uniform	

19. **DSN Inter-area (global) Calling:** The DSN provides global telephone service for authorized users. Some users can call everywhere while others are limited to one particular area or combination of areas. Where you call depends on your mission and how your telephone line is class-marked. If your calling area is limited, you will not be able to dial outside your calling area. Use the 3-digit area code plus the 7-digit DSN number when making an inter-area (outside your theater area) call. The following is a geographical listing of DSN area codes for calls outside the CONUS area:

- Alaskan Section-DSN Area Code 317
- Canadian Section-DSN Area Code 319
- European Section-DSN Area Code 314

THIS DIRECTORY IS COMPILED FROM LISTINGS FURNISHED
BY ORGANIZATIONS AND YOU - THE USER

Keep Your Telephone Information UP-TO-DATE
Report All Changes, Errors, Additions
Or Deletions As They Occur To Your Telephone Control Officer (TCO)

REMEMBER:

The Directory is only as accurate as the information we receive from you.

TCOs MUST FORWARD INFORMATION TO THE 47CS/SCMT IN LETTER FORMAT. ANY QUESTIONS REGARDING CHANGES SHOULD BE SUBMITTED TO THE DIRECTORY CLERK, 47CS/SCMT, EXT 5731.

LAUGHLIN AIR FORCE BASE

Laughlin Air Force Base

Laughlin Air Force Base is located on U.S. Highway 90, approximately 150 miles west of San Antonio. The nearest city is Del Rio, six miles west of the base. Situated about nine miles from the international bridge to Ciudad Acuna, Coah., Mexico, Laughlin is home to the 47th Flying Training Wing

The 47th FTW is one of four Air Education and Training Command pilot training units and conducts specialized undergraduate pilot training. Its mission is "to train the world's best pilots and deploy expeditionary forces to fight and win America's wars...period."

With more than 3,300 people supporting its mission, Laughlin has a significant economic impact on the neighboring city of Del Rio. Everyone at Laughlin is aware of the strong relationship between the base and the Del Rio community.

Laughlin is organized into four groups that support the 47th FTW. The groups include the 47th Operations Group, 47th Maintenance Directorate, 47th Mission Support Group and 47th Medical Group.

47th Operations Group

The 47th Operations Group is responsible for training Air Force, Air Force Reserve, Air National Guard and allied pilots. The group consists of five flying training squadrons, and the 47th Operations Support Squadron.

47th Operations Support Squadron

The 47th Operations Support Squadron provides the full spectrum of support functions required to enable the 47th OG to perform flying training operations in the SUPT environment. The squadron provides instructional program development and academic instruction for the joint SUPT students, management of international students and is responsible for all aircrew flight records and aircraft life support systems. The squadron has responsibility of airfield operations for one of the busiest airfields in the Air Force to include the control tower, radar approach control facility, airspace and airfield management. The 47th OSS also provides oversight for aircraft simulator operations and all weather services in support of the flying mission.

84th and 85th Flying Training Squadrons

The 84th Flying Training Squadron together with the 85th Flying Training Squadron conducts the T-6 Texan II

training portion of the SUPT program. Instructors provide the principal foundations in contact, instrument and formation flying to assigned students.

86th Flying Training Squadron

The 86th Flying Training Squadron trains students in the airlift-tanker track during Phase III of SUPT. Principles and techniques are taught in flying the T-1A aircraft. Instructors provide training in contact, instrument, navigation, formation and low-level flight.

87th Flying Training Squadron

The 87th Flying Training Squadron trains students in the fighter-bomber track during Phase III of SUPT. Students receive training in aerobatics, formation, instrument, low-level and cross-country navigational skills, using full-motion simulators as well as the T-38 aircraft.

96th Flying Training Squadron

The 96th Flying Training Squadron is a Reserve Associate unit to AETC that supplements Laughlin's four active duty flying squadrons, conducting training in the T-6, T-1, and T-38 portions of Specialized Undergraduate Pilot Training.

47th Maintenance Directorate

The 47th Maintenance Directorate, composed of five aircraft maintenance divisions and three support staff agencies, provides service and support to T-1, T-6, T-37 and T-38 aircraft that are part of the base's SUPT mission. The directorate furnishes contract surveillance for five major contracts that serve transient alert services, supply support to the T-6 and T-1 air fleets, and jet engine intermediate - level maintenance for four Air Education and Training Command pilot training bases.

Originally designated Laughlin Civil Service Aircraft Maintenance (LCSAM), the maintenance directorate came into being as the result of a winning A-76 bid in 1988. Hiring of key LCSAM leader began in February 1989. LCSAM began fully supporting Laughlin's pilot training mission in July 1989. At that time it was the first and only all-civil service maintenance organization in the Air Force.

47th Medical Group

The 47th Medical Group provides diagnostic and therapeutic services on an appointment basis in pediatrics, internal medicine, flight medicine, life skills, optometry, general dentistry, family practice, nutritional medicine,

radiology and laboratory services. The Health and Wellness Center provides optimal health promotion, education and training to the base and local community. The 47th MDG consists of the 47th Medical Support Squadron, 47th Medical Operations Squadron and the 47th Aerospace-Dental Squadron

47th Mission Support Group

The 47th Mission Support Group provides quality of life and general support to 28 units and more than 7,100 people. Five squadrons and two divisions maintain and protect assets valued at more than \$579 million. These include 893 buildings, 11 miles of runways/taxiways and 600 housing units on 5,343 acres supporting the specialized undergraduate pilot training mission. The group also provides logistics, lodging, morale, welfare and recreation, personnel, security, engineering, contracting and communication services for all units at Laughlin.

History

Laughlin is named after 1st Lt. Jack Thomas Laughlin, a Del Rio native killed over Java in the South Pacific in the early days of World War II. The base originally opened in the early 1940s. It was the Army Air Force B-26 training base during the war and was closed in 1947, after the war.

It reopened during the Korean Conflict as a jet fighter training base. From the late 1950s until 1963 it was the home of the Strategic Air Command's 4080th Strategic Reconnaissance Wing. It was a 4080th U-2 from Laughlin that discovered Soviet missiles in Cuba in 1962.

In 1962, the base became an Air Training Command base and its mission for the past 42 years has been to train new pilots for the United States Air Force and allied nations. More than 400 new military pilots earn their silver wings at Laughlin each year after an intensive 52-week course where they learn to fly using the T-37 Tweet, T-38 Talon, T-1A Jayhawk, T-6 Texan II jet trainers. The base is also home to Laughlin's Civil Service Aircraft Maintenance Unit, recognized as the best aircraft maintenance unit in the Air Force in 1992.

In July 1993, the 47th Flying Training Wing realigned under the new Air Education and Training Command, taking its place under 19th Air Force.

UNSECURED ADMINISTRATIVE TELEPHONE

- Greatest security hazard. It picks up more than voice of the person holding it; it also picks up other voices or equipment sounds in the background.
- Don't discuss *classified* information on the phone.
- Never leave the phone off the hook when it is not in use.

DO NOT DISCUSS CLASSIFIED INFORMATION OVER THE TELEPHONE

General Information

WARNINGS

OPSEC/COMSEC

Nonsecure communications/information exchange is extremely vulnerable to hostile exploitation through monitoring. Do not attempt to "TALK AROUND" a classified or sensitive subject. Accumulated bits of seemingly "UNIMPORTANT" information collected through continued monitoring when analyzed can provide hostile intelligence services with vital national defense information.

CONTROL OF TELEPHONE USAGE

Unofficial use of DSN or any other DOD funded telephone system is prohibited. Personnel found fraudulently using DOD telephone systems are subject to be disciplined to the maximum extent possible. Individuals found placing unofficial toll calls will pay for incurred charges (AR 25-1).

Third party monitoring of a telephone conversation is prohibited unless all parties give consent (AN EXCEPTION IS WHERE OPSEC MONITORING IS AUTHORIZED). This also applies to use of hands-free speaker telephone when more than one person is present at hands-free locations.

It is a misdemeanor for anyone to use the telephone as a means of conveying obscene or indecent language or to make anonymous or repeated calls to annoy, abuse, embarrass, or harass.

DO NOT DISCUSS CLASSIFIED INFORMATION ON NONSECURE TELEPHONES.

OFFICIAL DOD TELEPHONES ARE SUBJECT TO MONITORING FOR COMMUNICATIONS SECURITY PURPOSES AT ALL TIMES.

DOD telephones are provided for the transmission of official government information only, and are subject to communications security monitoring at all times. Use of official DOD telephones constitutes consent to communications security monitoring in accordance with DOD Directive 4640.6.

SINGLE LINE TELEPHONE FEATURES

Permanent Hold		To Activate	Switchhook flash....hear special dial tone....dial *93 or (1293)...hang up. (Your call is now on hold: if you hang up, your phone rings intermittently to remind you; if you do not hang up, there is no ring.)
		To Return	Lift handset. (If you did not hang up.....switchhook flash.)
Consultation Hold		To Activate	Switchhook flash....hear special dial tone....dial number....consult privately....allow consulted party to hang up....you are reconnected to your original call.
Call Transfer	310	To Activate	Switchhook flash....hear special dial tone....dial number....announce caller in privacy....hang up.
3-Way Conference		To Activate	Switchhook flash....hear special dial tone....dial number, announce conference....switchhook flash to connect all callers....hang up when conference is completed.
Ring Again	RAG	To Activate	Switchhook flashhear special dial tone....dial *71, (or 1271)....hear regular dial tone....hang up.
		To Respond	Hear short bursts of ringing....lift handset....number is automatically dialed.
		To Cancel	Lift handset....dial *71 (or 1271)....hear regular dial tone....hang up.
Call Hold		To Activate	Switch Hook Flash....hear special dial tone....dial *80 or (1280). Hang up.
		To Return	Switch will call you back and reconnect.
Call Pickup	CPU	To Respond	Lift handset....dial *79 (or 1279)....answer call.
Call Forward	CFI	To Activate	Lift handset....dial *72 (or 1272)....hear regular dial tone....dial number where calls are to be forwarded....hang up.
		To Cancel	Lift handset....dial *73 (or 1273)....hear regular dial tone....hang up.
Speed Call Short (0-9)	SCS	To Program or Change	Lift handset....dial *74 (or 1274)....hear dial tone....dial 1-digit Speed Call code....dial 8 or 9....dial number to be stored....hang up.
		To Erase	Lift handset....dial *74 (or 1274)....hear dial tone....dial 1-digit Speed Call code to be erased....dial # (or 13). Hang up.
		To Use	Lift handset....dial * (or 12)....hear dial tone....dial 1-digit Speed Call code. Number is automatically dialed.
Speed Call Long (00-69)	SCL	To Program	Lift handset....dial *74 (or 1274)....hear dial tone....dial 1-digit Speed Call code....dial 8 or 9....dial number to be stored....hang up.
		To Erase	Lift handset....dial *76 (or 12764)....hear dial tone....dial 21-digit Speed Call code of number to be erased....dial # (or 13). Hang up.
		To Use	Lift handset....dial *(or 12)....hear dial tone....dial 2 digit Speed Call code....number is automatically dialed.
Group Intercom		To Use	Lift Handset. Dial # (13) and 2 or 3 digit number.
Last Number Redial		To Use	Lift handset. Dial # # (13 13.) The last number you dialed will be redialed.

*When faxing this form no cover sheet needed.

INFORMATION FOR PREPARING DA FORM 3938, LOCAL SERVICE REQUEST

All telephone work other than "trouble" requires a DA Form 3938 to be submitted. The form is procured through Publications by requester's Supply Division. All blocks of DA Form 3938 must be completed (print or type), to include POC/telephone number. Send completed forms to Directorate of Information Management, ISMD, Communications Branch. Improperly completed (filled out) work orders will be returned to the requester without action.

USE OUTLINE BELOW TO AID IN FILLING OUT DA FORM 3938

Block 1. Indicate date service is required. A minimum of 30 days lead time is required; however, date service is required will be subject to slippage, depending on equipment availability and work load. Priorities will be determined on a case-by-case basis.

Block 2. Provide name, organization and telephone number of POC.

Block 3. INSTALL: If request is for a new main line, indicate "I" beside MAIN LINE BLOCK. (Always "I" as there can only be one main line on any number.) If you wish additional extensions of the new line, indicate next to EXTENSION(S) BLOCK, the number needed (the two totals should equal the total number of instruments you require). Need additional extensions of existing number? Put the total number needed next to EXTENSION(S) and the telephone number in the lower TELEPHONE NUMBER block.

Block 4. REMOVE: Means complete removal of a telephone line/instrument. Care should be taken to let us know if complete telephone number is to be taken out or just the extension(s). A "I" by MAIN LINE will result in removal of number completely; but, a "I" by EXTENSION means that just extension(s) will be removed. List telephone number you wish removed in the lower TELEPHONE NO. block.

Block 5. MOVE: Relocating a telephone main line or instrument within a building. To change locations from one building to another building requires a remove and install request. Regulations prohibit any telephone number being connected to more than one building.

Block 6. List any additional information or miscellaneous type of work, examples: type of telephone instrument or system used, add/delete/move pick-ups on key system

phones, change ringer, intercoms or loud bells. Information on attachments serves as supplementary information.

Block 7. Computer Identification code must be entered in this block. Codes will be issued by Communications Management Branch. The last four digits of your APC code should also be entered to allow for proper billing.

Block 8. Units must list their work request number, i.e., Unit Name (DOIM), Work Order Number (001, 002, etc.) calendar year (98). This number allows your workorder to be tracked.

Block 9. Signature required indicating funds have been or will be provided. LSRs will be processed without signature, provided funds are made available. Any requirements with a total cost of \$2,500.00 or more must be funded prior to work being completed.

Block 10. List building number, room number (if you have one), or location in building.

Block 11. If same as #10, write "same."

Block 12. List headquarters, division, branch, section. Block 12 or 13 must be completed or request will be returned.

Block 13. Fill in if newly installed or if directory listing is to be changed, i.e., headquarters, division, branch, section. Block 12 or 13 must be completed or request will be returned.

Block 14. Fill in at all times. Four classes of service: A1 - DSN, long distance, post operator, local San Antonio calls, and post numbers. A2 - DSN, post calls, post operator, and local San Antonio calls. A3 - post calls, post operator, and local San Antonio calls. Class C - on post. (Exceptions: Work regarding bells, intercoms, etc., that does not actually pertain to a telephone line.) Remember, all new "A" type service must be justified.

Block 15. Total number of main lines NOT INSTRUMENTS.

Block 16. Date you submit work order to us.

Block 17. Type/print name of person requesting service (TCO'S Name).

Block 18. Signature of validating officer must be telephone control officer.

REMARKS: USE ONE DA FORM 3938 FOR EACH TELEPHONE NUMBER TO BE INSTALLED, REMOVED, OR MOVED AND FOR EACH MISCELLANEOUS JOB. IF

REQUESTING NEW "A" LINE, INCLUDE PROPER JUSTIFICATION. SUBMIT ALL THREE COPIES OF DA FORM 3938.

1. APPLICATIONS OF OFFICIAL TELEPHONE SERVICE:

Requests for telephone installation, moves or removal must be submitted on DA Form 3938 (Local Service Request) a minimum of 30 days prior to requested date of service. The request must be signed by the activity telephone control officer or by the alternate. Service for family quarters, BEQs, BOQs, concessions, contractors, NAF activities, and other unofficial service is furnished by the local commercial telephone company. The user will coordinate directly with the telephone company to obtain this service.

2. CLASSES OF SERVICE FOR OFFICIAL TELEPHONE SERVICE:

All telephones are provided for the express purpose of conducting official Department of Defense business only. Personal calls are not authorized over military telephone systems. The classes of official telephone service are:

- a. Class A-1 - Provides access to the Post Administrative Telephone System (ATS), Post Operator, Defense Switched Network (DSN), local San Antonio calls, long distance calls.
- b. Class A-2 - Provides access to the Post Administrative Telephone System (ATS), Post Operator, Defense Switched Network (DSN), local San Antonio calls.
- c. Class A-3 - Provides access to the Post Administrative Telephone System (ATS), Post Operator, local San Antonio calls.
- d. Class C - Limited to on-post calling only. Can receive incoming calls from on and off post.

3. FIRE AND ACCIDENT REPORTING: When reporting fires, accidents, etc., remain calm as there are several questions you must answer.

4. IN - OUT DIALING: The Fort Sam Houston telephone system is equipped for direct-in and out dialing. This means the subscriber may receive calls from off post direct to the extension without operator assistance, and place off-post calls by dialing the number. Subscribers should advise persons to call "221" or "916" or "295" and the extension number for all incoming commercial calls. Widest dissemination is recommended, since commercial telephone companies do charge for calls to this installation's information operator.

5. SUBSCRIBER RESPONSIBILITIES:

- a. Dialing: Always listen for the dial tone before you dial.
- b. Call by Number: Use your directory and call by number. Never call information until you are

DO NOT DISCUSS CLASSIFIED INFORMATION OVER THE TELEPHONE

sure the number you want is not listed. Do not rely on your memory for numbers you call infrequently.

- c. Flashing the Telephone Operator: The Fort Sam Houston operator has no control over incoming/outgoing calls. Flashing the operator is not possible.
- d. Use of Official Telephones: Using an official telephone for placing personal calls is prohibited. Personal calls must be placed from one of the conveniently located pay stations. The placing of personal calls from an official telephone and charging to home telephone is not authorized. Incoming collect calls of a personal nature will not be received on the official telephone service at the installation.
- e. Illegal use of official telephone: The cost of the call will be assessed at the commercial rate for each call placed. Additional penalties will be determined by the individual's commanding officer.
- f. Long distance information dialing. There is a \$0.60 charge on all information calls. When it is necessary to dial long distance information, the call should be approved by the telephone control officer and logged on a FSH Form 715.
- g. Subscribers will not tamper with, connect equipment to, or otherwise abuse telephone equipment installed on this installation. Equipment damaged through other than fair wear and tear will not be replaced until a report of survey is approved.
- h. Telephone and associated equipment will not be removed, relocated, or changed, except by qualified technicians assigned to ITBC.

6. REDUCTION OF LONG DISTANCE TELEPHONE TRAFFIC IN AN EMERGENCY (MINIMIZE):

- a. **Reason for MINIMIZE:** When an actual or simulated emergency arises or is anticipated, it will be necessary to reduce the volume of record and long distance telephone traffic ordinarily transmitted over US Military Networks. This action will be required to facilitate prompt transmission of essential traffic which must be transmitted electrically to avoid a serious impact on mission accomplishment or personnel safety.
- b. **How MINIMIZE is imposed:** Notification will be transmitted by the Joint Chiefs of Staff or the command concerned, as appropriate. MINIMIZE will be automatically imposed upon declaration of DEFENSE CONDITION 3, 2, or 1, DEFENSE EMERGENCY or AIR DEFENSE EMERGENCY. The Joint Chiefs of Staff or command concerned will cancel MINIMIZE.

7. COMMAND CONTROL DURING MINIMIZE:

- a. During periods when MINIMIZE is imposed over voice communications, the authority to originate or certify long distance telephone calls will be limited to the commander or his designated representative(s) within the command activity.
- b. Upon notification that MINIMIZE is imposed, switchboard operators will advise the person or office for whom calls are pending of the MINIMIZE condition. All calls placed subsequently must be processed according to the Joint Uniform Telephone Precedence System.

8. DEFENSE SWITCHED NETWORK (DSN):

a. Defense Switched Network Usage:

- (1) The Defense Switched Network (DSN) is the principal long-haul voice communications network within the Defense Communications System, providing nonsecure direct distance dialing service worldwide through a system of Government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, intelligence, logistic, diplomatic, and administrative traffic.
- (2) DSN is authorized for OFFICIAL COMMUNICATIONS ONLY.
- (3) DSN will be restricted to:
 - (a) Only those calls that are essential, requiring a timeliness that cannot be obtained by other means and would stand the scrutiny afforded a commercial toll call.
 - (b) The maximum time required to accomplish official business will not normally exceed 5 minutes.
 - (c) The use of a precedence level in consonance with the subject matter of the call, as established in the Joint Uniform Telephone Communications Precedence System.
- (4) DSN will not be authorized for:
 - (a) Use directly or indirectly by any nonappropriated fund activity (clubs, exchanges, and other unofficial activities) provided telephone service at post, camp, station, or base level, except when approved by the Joint Chief of Staff.
 - (b) Calls within an installation, metropolitan area, or those confined

geographical areas where other existing government-provided local telephone service is adequate.

(c) Unofficial or personal calls.

- (5) The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each level of precedence category and the types of calls which may be assigned the respective precedence.

b. DSN Precedence.

- (1) FLASH: Reserved generally for telephone calls pertaining to:
 - (a) Command and control of military forces essential to defense and retaliation.
 - (b) Critical intelligence essential to national survival.
 - (c) Conduct of diplomatic negotiations critical to the ceasing or limiting of hostilities.
 - (d) Dissemination of critical civil alert information essential to national survival.
 - (e) Continuity of Federal Government functions essential to national survival.
 - (f) Fulfillment of critical United States internal security functions essential to national survival.
 - (g) Catastrophic events of national or international significance.
- (2) IMMEDIATE: Reserved generally for telephone calls pertaining to:
 - (a) Reconstitution of forces in a post attack period.
 - (b) Intelligence essential to national security.
 - (c) Conduct of diplomatic negotiations to reduce or limit the threat of war.
 - (d) Implementation of Federal Government actions essential to national survival.

- (e) Situations which gravely affect the internal security of the United States.
- (f) Civil Defense actions concerning direction of our population and their survival.
- (g) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population.
- (h) Vital information having an immediate effect on aircraft or missile operations.
- (i) Distress Assistance.

- (3) **PRIORITY:** Reserved generally for telephone calls requiring expeditious action by called parties furnishing essential information for the conduct of government operations.
- (4) **ROUTINE:** Designed for those official government communications which require rapid transmission by telephonic means but do not require preferential handling.

c. Overseas.

- (1) Fort Sam Houston is a gateway station for worldwide DSN. Because overseas DSN calls cannot be dialed direct, all calls must be placed through the Fort Sam Houston telephone operator.
- (2) To place an overseas call, obtain a control number and PRECEDENCE from the appointed telephone control officer.
- (3) Book the call with the Fort Sam Houston operator and furnish the information the operator requests.
- (4) Significant delays in completion may be expected in many cases.
- (5) Time differences should be considered when placing calls to most locations.

d. CONUS.

- (1) Routine calls are dialed direct by the subscriber. Dial the local DSN prefix "88" and dial desired number plus six digit pin number. If the number at the called installation is not listed in this directory, contact the Fort Sam Houston operator for the information number for that installation. All DSN calls must be approved by the appointed telephone control officer of the activity originating the call. Publication of

DSN numbers in the directory does not constitute authority to place calls without the approval of the telephone control officer.

- (2) Subscribers cannot direct dial PRECEDENCE calls. These calls must be placed with the Fort Sam Houston operator. Since PRECEDENCE calls are controlled, telephone officer's approval must be obtained before the call is placed.
- (3) Calls to commercial numbers through the DSN. Official long distance calls can be placed using a combination of DSN and local base switchboard lines, where possible. You can use this procedure provided three conditions exist:
 - (a) The base switchboard is permitted, by the commander at the distant location, to connect incoming DSN calls to commercial numbers.
 - (b) The called commercial number is in a toll-free radius of the switchboard.
 - (c) The called switchboard is equipped to handle internal station telephone calls.

9. DSN OPERATOR ASSISTANCE: Requests for operator assistance by DSN users at this installation will be directed to the Fort Sam Houston operator. The practice of calling the DSN switch for verification of busy conditions on the called number, requesting directory assistance, or other information is not authorized.

10. TOLL AND LONG DISTANCE SERVICE:

- a. Incoming Wide Area Telephone Service (WATS) is available from all states, and shall be used to place official calls only.
- b. Outgoing long distance commercial calls will be used if call cannot be completed via DSN. Calls will be placed using the following procedures:
 - (1) Obtain dial code from telephone control officer.
 - (2) Dial 9+1+area code+telephone number, and the dial code provided by the telephone control officer.

c. The following requirements are applicable:

- (1) Limit call to five minutes.
- (2) Commercial calls will not be placed to an installation served by DSN.
- (3) Do not confuse commercial numbers with DSN.

(4) See page 55 for complete DSN listings.

11. RESTRICTIONS ON TOLL AND LONG DISTANCE CALLS:

- a. Commanders and activity directors will appoint telephone control officers to control toll and long distance calls as outlined in AR 25-1. All telephone control officers will familiarize themselves with that regulation.
- b. Toll and long distance service for the transaction of official government business is authorized only when such expeditious means of communication is required and delay caused by using other means would be prejudicial to public interest. Receiving incoming collect calls is not authorized at Fort Sam Houston.

12. CONFERENCE CIRCUITS: Service is provided as required. For specific information on each individual case, call the Chief Operator at extension 11448.

13. WESTERN UNION: Service is provided by the Western Union Offices located at various places in San Antonio. To check the office nearest to you, dial 1-800-325-6000, or check the San Antonio telephone directory. Incoming prepaid messages will be delivered by the Western Union Office.

14. COMPLAINTS: Telephone operators are not permitted to give out their names or hold a conversation or enter into controversy with the subscriber. They are forbidden to furnish secretarial service to the subscriber, such as calling back when a number is not busy. Complaints regarding service should be immediately reported to the shift supervisor or chief operator (telephone 11448), since operators change shifts frequently and it may be difficult to locate the operator being reported.

15. TROUBLE REPORTING:

- a. The quality of telephone service depends largely upon the immediate reporting of trouble as it occurs. Telephone troubles on official phones should be reported to Telephone Repair Service by dialing "116" immediately upon being detected. Trouble on all commercial numbers should be reported to the local telephone company. The repair service number is listed on page 1 of the San Antonio telephone directory.
- b. If a call is interrupted, dial again and attempt to reestablish the call. If you are unsuccessful, notify the Fort Sam Houston operator and he/she will make the necessary trouble report. All interrupted calls to overseas locations must be reestablished by the operator who placed the call.

(1) When reporting noisy connections, poor circuits, or other such faults on the line, hold the poor circuit connection, if possible, and report the trouble to the Fort Sam Houston operator via another telephone. Monitor the reported faulty circuit and wait for instructions from the Fort Sam Houston operator.

(2) When reporting trouble, please give complete details of the trouble encountered. Include in the report the number you are trying to reach and the name of the installation.

16. TELEPHONE DIRECTORY LISTING

CHANGES: Commanders and directors are requested to report telephone directory changes promptly, as required by AR 25-1. Key personnel changes should be reported to assist Fort Sam Houston Chief Operator A+ 1-4448 to maintain current information and to respond accurately to directory assistance calls. The information should be submitted by memorandum to ITBC.

17. RECORDING TELEPHONE CONVERSATION:

No conversation will be recorded without the prior consent of the other party or parties to the conversation.

- a. Whenever a recorder is used, it will be equipped with a recorder connector which contains a device automatically producing a distinct warning tone which is repeated at intervals of approximately 15 seconds.
- b. The use of voice recorders operating on the induction principle is specifically prohibited.

18. MONITORING TELEPHONE CONVERSATIONS:

- a. Telephone conversations will not be monitored by stenographic or other personnel, except in special cases when monitoring of a specific telephone conversation is requested by one of the parties to the call; however, the conversation will not be monitored without the other party or parties to the conversation being made aware that the call is being monitored.
- b. All secretarial personnel will be informed that no telephone conversation will be monitored without specific, affirmative instructions for each specific telephone call.
- c. Conference telephone calls among more than two parties are permissible with the consent of all parties concerned.
- d. These provisions are not applicable to fire and guard reporting, vehicular and aviation dispatching and control, or similar special services. Certain emergency numbers have been

granted special authorization to allow recording of conversations. These numbers are clearly marked in this directory.

19. MONITORING AND TRACING:

- a. Communications Management Monitoring. This type of monitoring is the responsibility of communications personnel and is limited to listening on DOD-dedicated systems for the purpose of determining whether the systems are functioning properly. Such monitoring is more clearly defined in AR 25-1.
- b. Tracing. Telephone tracing is a technique used to determine the origin, by telephone number and location, of a telephone call made to a known telephone instrument. This procedure is governed by AR 190-53 and can only be accomplished under certain specific conditions. Requests for tracing telephone calls should be referred to Military Police — not communications personnel.

20. EXCAVATION AND PLACING POSTS AND CONDUIT:

A large amount of buried telephone cable is used at this installation in order to reduce overhead wiring to a minimum. It is the responsibility of all personnel to assure that no excavation is made without prior notification to Directorate of Information Management, Communication Branch, at 14344. Failure to coordinate excavation which results in damage to telephone cable will be the basis for providing reimbursement for labor and materials expended.

21. ABBREVIATIONS: Abbreviations used in this directory and their meaning are as follows. Commonly used abbreviations and military terms are shown, where necessary, to clarify information herein.

- a. DIOD Direct-in-out Dialing
- DD Direct Dial
- DSN Defense Switched Network

b. Unit/Organization Abbreviations:

- AFMO Army Frequency Management Office — CONUS

5712 Five Palms Drive, San Antonio

Why we are FIVE STAR:

We believe in the American tradition of excellence. In our great nation, our Military and its leaders are awarded up to 5 stars for exceptional service, performance and extraordinary integrity.

We have been serving the Lackland Air Force Base community for over 45 years. Our company was founded over 40 years ago by a retired military officer who had a vision of servicing the needs of individuals that had the unfortunate experience of a car accident, or vehicle damage.

We're more than automotive collision repair! Five Star Collision offers a full-range of services: paint, body, engine, tire and alignment repair.

DIRECT REPAIR FACILITY:

Our facility is direct automotive repair facility with several large insurance companies such as **USAA, State Farm, TX Farm Bureau, Farmers Insurance** and we can process your claim directly.

LIFETIME WARRANTY:

We provide a lifetime guarantee for all insurance car repairs at our facility: We use the best available equipment, materials, and trained technicians to return your vehicle to its pre-loss condition.

 **MOTOROLA**

StarTAC® Clip-On Organizer
 Attaches to your analog, CDMA or TDMA StarTAC® phone and turns your phone into a smart phone by adding the convenience of a PDA organizer with direct dial capabilities!

It features a non-volatile memory that holds up to a year of appointments, 1,000 data items, and much more. Other built in applications include home/world clock, contact management, and preferences. Best of all, it comes with an easy to install CD containing TrueSync Desktop software and TrueSync Plus software that is compatible with all Windows 95, 98, and NT 4.0 computers.

Easy To Clip On!

Prices, plans and specifications subject to change without notice.

DESIGNED BY THE EXPERTS: your family.

BUILT AROUND YOU |
design team | *The Maderas*

Family:

Felix, 34 - Small business owner and former college baseball player.

Eva, 34 - Elementary school teacher, scout leader, self-taught interior designer — and expectant mom.

Tina, 9 - Enthusiastic artist who attends third grade when she's not in her studio (the kitchen) working on a new masterpiece.

The Madera's design:

The Maderas added more space in the kitchen for Tina's scout meetings, and durable granite countertops that look great and make for easy cleanup of baby spills and art projects. Enlarging the second bedroom created a spacious nursery for the new arrival. And the larger garage made room for a home gym.

At Wilshire Homes our top priority is helping you design and build the best home for your family. Prices from the \$130s to the \$300s.

Save up to \$10,000 in options and upgrades!*

See how other Wilshire families designed floorplans just right for them. Go to wilshire-homes.com

Wilshire Homes is a Certified
CPS Smart Energy Builder.

Ready. Aim. Retire.

Set your sights on San Antonio's own Army Residence Community. Join other retired career military officers, their spouses, widows and widowers—from all branches of service—who are already sharing a lifetime of stories and experiences in a true community setting. Enjoy independence and freedom from housekeeping and maintenance. Spread out in our comfortable cottages or well-appointed apartments. And take comfort in knowing our on-site Health Care Center can provide for all of your future health care needs. Even if you're still working and not ready to retire, you'll want to zero in on all your options—starting with the Army Residence Community!
